WNT TABLET TROLLEY

Tablet trolley has inbuilt battery charge function and is designed to store and carry 32 tablets and one laptop. It is a perfect solution for schools, libraries, meeting rooms, in other words in every place that safe storage and simultaneous tablet recharge is needed.
WNT tablet trolley advantages:

- Simultaneous recharge of up to 32 units of such devices as : tablets, smartphones, and one laptop.
- Each USB socket is equipped with LED diode confirming its correctness of the work.
- Both circuit-breaker protection and protection against overload.
- Protection against overheating.
- Implementation of single loading time limiter (up to 5 hours) to safe batteries of currently charging devices and to decrease energy consumption.

*Contact us to know what devices can be charged in our trolleys.

WNL LAPTOP TROLLEY

- The WNL Laptop trolley is meant to store laptops and to provide battery recharge function.
- We have applied a sequencer to provide overload and surge protection, which allow to enable individual terminal blocks after a particular period of time (~3 minutes). That results in maintaining low electrical load of the trolley.
- Flashing diode signals the state of work of particular terminal blocks
- The trolley has one connector plug and overload fuse.
- The trolley is also equipped on both sides with grips, the top is made from melamine, ventilation holes for air circulation and with 4 wheels (2 of them are with a brake).
- Additionally, side edges of the trolley are secured with rubber corners.

LAPTOP LOCKER

Cabinet is used to protect PC units with the simultaneous possibility of recharging the battery during storage. Inside the body, on the side the strip is mounted which contains sockets for connecting chargers, laptops - in every locker.

MOVABLE SHELVING SYSTEM

LITREG system of movable rack was designed for libraries and archives. This is a perfect solution for archiving purposes providing great possibilities. Our system allows maximal usage of available storage place and and to archive documents. We have also movable racks for clothes.
We also recommend our SOFT TOUCH electric drive rack system. This is a truly innovative solution for archivization. The process of operating the racks is effortless. After pressing the button the racks are moving automatically so as to grant access to required catalogues.

FURNITURE FOR GASTRONOMY

Furniture made of stainless and acid proof steel manufactured by Healthsport allow comprehensive furnishing of gastronomic places with:

- work tables, which allows creating a table matched to customer's request.
- work tables with sinks,
- overshelves,
- corner tables,
- tabletops,
- wall cabinets,
- wall mounted shelves,
- cabinets with wing or sliding doors (including through cabinets),
- racks on feet or on wheels, with shelves or with perforated shelves,
- hoods and service trolleys.

WORKSHOP FURNITURE

During the design and manufacturing process, we care about all the details: order, safety, versatility, functionality, ergonomics, design and most importantly - people and their needs at the workstation.

SMK INDUSTRIAL COMPUTER CABINET

- The top part of the cabinet allows using the computer even in the presence of dust and dirt in the air.
- The lower, covered part, serves for safekeeping of other peripherals.
- An extendable shelf allows use of computer keyboard (in basic version the shelf is fixed).
- It is also available to equip the cabinet with an internal electrical fan that cools the monitor. In the bottom part of the cabinet a surge suppression strip can be mounted.
- The back wall has ventilation holes in it. The adjustable shelf makes it possible to set its height in dependence on the kind of computer being kept in the cabinet (in basic version the shelf is fixed).

SPNK INDUSTRIAL COMPUTER CABINET

- Flat case of minimal depth.
- Front screen adapted for LCD monitor of 16:9 aspect ratio and diagonal – up to 22 inches.
- IP-42 protection class, supported with researches: protection from objects larger than 1 mm and protection from drops of water falling on the case at 15°.
- Removable bottom allows screwing the cabinet directly to the ground.
- As a standard the cabinet is equipped with: a fan, main supply cable, Ethernet loop and surge suppression strip.

RMM STORAGE RACKS

- Universal storage racks necessary in those places, where different items, tools, cardboard boxes, and other items are kept. In order to shorten the time-consuming montage we have came up with racks that do not need screws to be assembled. They are very easy and smooth to assembly and disassembly. Durability, solidity and quality are real advantages of these racks. Elements are made of powder coated steel sheet. Possible to produce – on customer's demand - racks made of galvanized or acid proof steel sheet are also available.
- In the storage rack the shelves are adjustable with 60 mm interspaces, and in snap-together racks – with 30 mm interspaces. Maximum loading capacity of the shelf is 100 kg.
