VELUSJET®

HYDRO-THERAPY IN ITS STRONG-EST FORM.

For **more than 20 years**, we have put our drive for **innovation and our expertise** into the **VELUSJET®** – adapting it to **new branches** and **new visions**. Here your **benefit**: Actually, you are buying 3 **VELUSJETS®**.
The core product is the **water jet massage bed** itself. **Three variants** emerge from it, which you can choose and **change flexibly** – just **as you need it now.**

BOOST FOR YOUR BUSINESS – WITH THE WATER JET MASSAGE.

We are developing the **most effective** waterjet massage bed **on the market** - and we are constantly improving it.
Because of two reasons:

1. **Physical complaints** as well as stress are noticeably **alleviated – the effect** is proven.
Our customers and clients **benefit** from the **VELUSJET®** in the **long term**.

2. Our **know-how** gets **the best** out of the Hydrojet: thanks to **innovative software** and high quality level.

VELUSJET®

YOUR NEW MOST RELIABLE EMPLOYEE.

What advantages does your branch have:

Because **every branch** brings different **challenges**, the product grows with your **requirements** – because **we find the solutions** that make your **everyday life easier**.

+ Sign of employee appreciation
+ Reduction of stress and staff absences
+ Promotion of mental health

Reduced sickness rate

Increased employee satisfaction

Tax benefits

VELUS JET®

FUNCTIONS WITH BRILLIANT OPPORTUNITIES.

What possibilities the water jet massage bed really **offers** you?

HERE A SHORT OVERVIEW:

Asynchronous use

The pressure and **the movements** of the two nozzles can be **adjusted** and **controlled asynchronously**.

Real-time control

Depending on the model, the **massage sequences** can be adjusted and **controlled live**.

Individual sequences

You can also create your **own motion sequences** that are designed to meet the **specific needs** of the user.

Thematic massages

Each device is **usable** with **pre-configured** massage sequences that focus on **specific body regions**, modes of action or **occasions**. The selection of **massage programmes** can be **customised**.

Play the video on thematic massages.

Trigger points

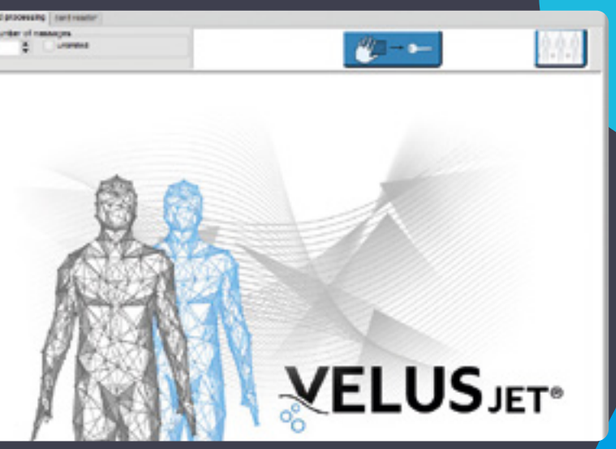
To **target** particularly **tense** or **painful** areas, the **water jet** can be **directed precisely** at them.

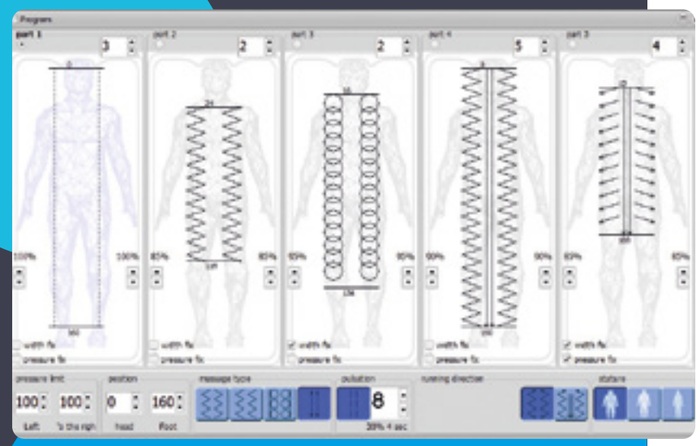
VELUSJET®

PERSPECTIVES OF INDIVIDUALIZATION.

Especially because of the **associated software**, the **VELUSJET®** is much **more interesting** for therapists and medical professionals **than other** hydrojets on the market:

Because the software allows the precise and methodical treatment of tension and pain.





In the **wellness sector**, the software is also unbeatable: With it, you have **full control** over the use of the device.

Jet-Center software in focus.

Use of quotas

If **a patient** is to receive **a massage** of exactly **20 minutes** or if customers are allowed to use the device a maximum of **5 times**, this can be set up with the software and used with **NFC cards**.

Limited access

Authorizations can be **flexibly** created or revoked with **a key** card or connection to existing **access systems**.

Self-defined massages

You can treat body width, length and locations with **any pressure** and with desired **movement pattern** - and **save** the settings in the **software** and/or on **a card**.

Experience our individual massages.

Operating hours and discount promotions

For example, **if necessary**, you can operate the hydrojet only from **8 am to 8 pm**. An option that **additionally** contributes to **the energy efficiency**. Or you specify that massages are in **the morning** for the same **price twice** as long.

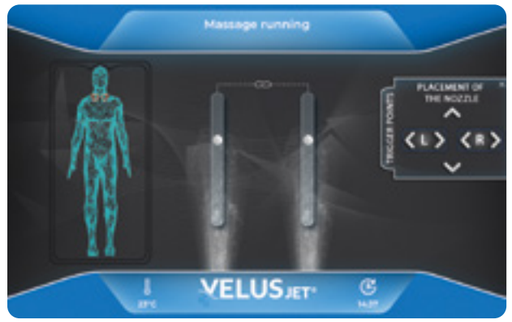
VELUSJET®

THE FINAL LINE UNDER YOUR PAIN POINTS.

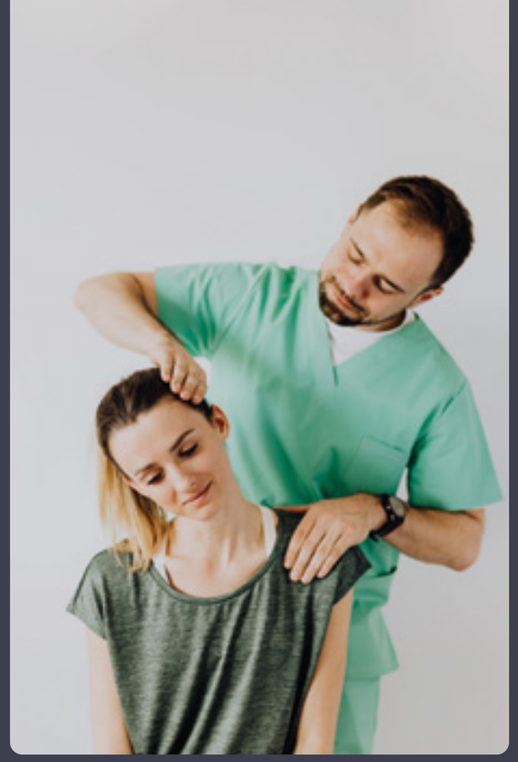
Too much stress in the daily work routine?

Double staff, reduce effort?
The **VELUSJET®** becomes your **most efficient employee**:

+ Simultaneous treatment of patients
+ Minimal supervision effort
+ Easy and intuitive operation



Targeted **interventions** can treat **pain points** to relieve pain in **specific areas** of the body.



No unique market offer compared to the competition?

Competitors are poaching your customers, but you're unsure how to **stand out**?

+ Convincing USP with wow-factor
+ Competitive advantage in the medical as well as wellness sector
+ Stand out without extra effort

Is customer loyalty hard in your branch?

Does **satisfying patients in your clinic** seem impossible? In the gym, is **customer contact rather impersonal**?

+ Customers book out of curiosity
+ Customers stay because they are satisfied
+ Effective in any related branch

The knob control

VELUS JET®

VARIANTS OF PURE EFFICIENCY.

Each option **is profitable.** But **depending on your needs**, we can respond to you **individually**:

Do you need...

The NFC cards?

+ Sales stimulating card display
+ Little explanation required & quick selection
+ Massages interchangeable according to season, occasions, etc.

Discover the NFC card function.

The touch panel?

+ No further tools are necessary
+ Can be operated with closed eyes
+ Self-explanatory

The magic of the touch panel.

The voice output?

+ No further tools are necessary
+ Can be operated with closed eyes
+ Self-explanatory

Operation via speech.

Discover the **opportunities** of the **different options**.

Scan the QR code and discover the opportunities on smartphone.

BECAUSE THE CALCULATION WORKS.

How quick the **investment** will **pay off for you**? If **your customers use** the hydrojet only **2 hours** per day, this is how it works with average **pricing**:

Buy now ...	... in a short time	... afterwards
Best price-performance ratio	Amortization	Profit

Certified medical device	**Class IIa**
EMV tested	Yes
CE marking	**Yes**

www.**velusjet**.de/en

Free positioning

Because the **VELUSJET®** design looks attractive from all sides and the connections are **always accessible**, the **layout of your room** does not matter.

2 separately controlled jets

The **VELUSJET®** is the only hydrojet with separate **pressure and motion control** for the left and right sides of the body.

Experience the jets up close.

7.4 bar pumps (2 pieces)

More powerful than other **systems on the market**, our hydrojet works with a pleasant and, above all, **effective pressure**.

See pumps in action.

Smart Cooling

The device **protects itself** from overheating: **energy-saving** and without further **water supply**.

Robust materials

Where others **use plastic**, we focus on **quality** and **durability**.

LAN connection

Thanks to **Internet connection**, we can check **the device** for you **remotely** at any time for service purposes.

Play remote maintenance video.
