SPEECH LANGUAGE THERAPY

SENTENCE FORMING

179 cards to work on oral expression by forming phrases and sentences with cards containing illustrations, pictograms and words.

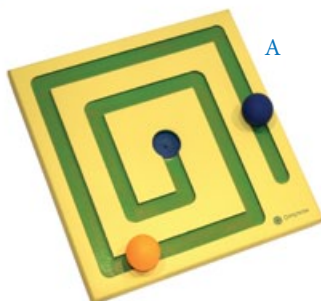

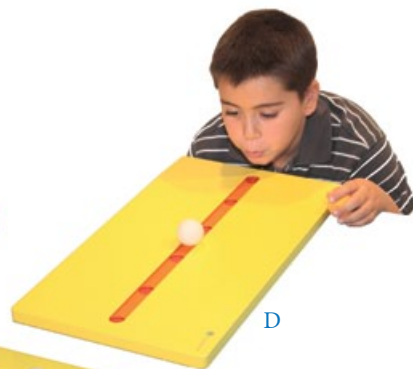

Available in: Spanish/English/French.

LITTLE FROG MIRROR

Cute little frog with a safety mirror inside.

Very useful for speech therapy and visual stimulation. Stimulates ocular attention and face recognition.

MAZE BLOWING BOARD - A

MULTI-COLOURED BLOWING BOARD - B

30x30x2 cm.

WINDING BLOWING BOARD - C

48x27x2 cm.

GAPS BLOWING BOARD - D

52x29x2 cm.

RING-THE-BELL BLOWING BOARD - E

48x19x2 cm.

These are boards with grooves along which the ball is blown.

The children have to blow the ball in the desired direction - to improve blowing strength and direction control, thereby strengthening the mouth muscles.

BLOW LOTTO

Push the ball through the pigeon holes until you complete the course.

TURBINE

You have to make the blades turn and stop them at the right point by blowing on one side and the other.

SPEECH LANGUAGE THERAPY

It is important to teach how to control the flow of air as one breathes out so the subject learns how to articulate phonemes correctly.

The kit may vary according to the stock of elements that comprise it. In any case, replacement elements will have the same characteristics and perform the same function.

- PVC kazoo (1 Ud.)
- Wooden whistle (1 Ud.)
- Long whistle (1 Ud.)
- Three-tone whistle (1 Ud.)
- Plastic siren whistle (1 Ud.)
- Harmonica (1 Ud.)
- Flute (1 Ud.)
- Balloons (20 U.)
- Bubble-blowing pipe (1 Ud.)
- Maze-blowing board (1 Ud.)
- Gaps-blowing board (1 Ud.)
- Blow Lotto (1 Ud.)
- Little frog mirror (1 Ud.)
- Coloured blowing board (1 Ud.)
- Winding blowing board (1 Ud.)
- Bells blowing board (1 Ud.)
- Turbine wind game (1 Ud.)
- Sentence-forming activity (1 Ud.)

RECREATION GAMES

CHINESE CHECKERS

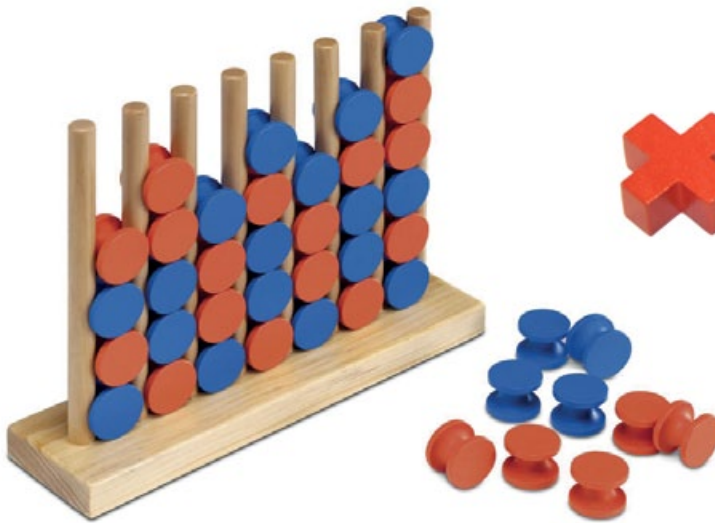

Wooden board (29 cm. in diameter) for 2 to 6 players.

3-IN-A-ROW

Traditional game that stimulates the memory, logical reasoning and hand-eye coordination.

Dimensions: 21 x 21 x 3 cm.

CONNECT FOUR

Dimensions: 27 x 20 x 12 cm.

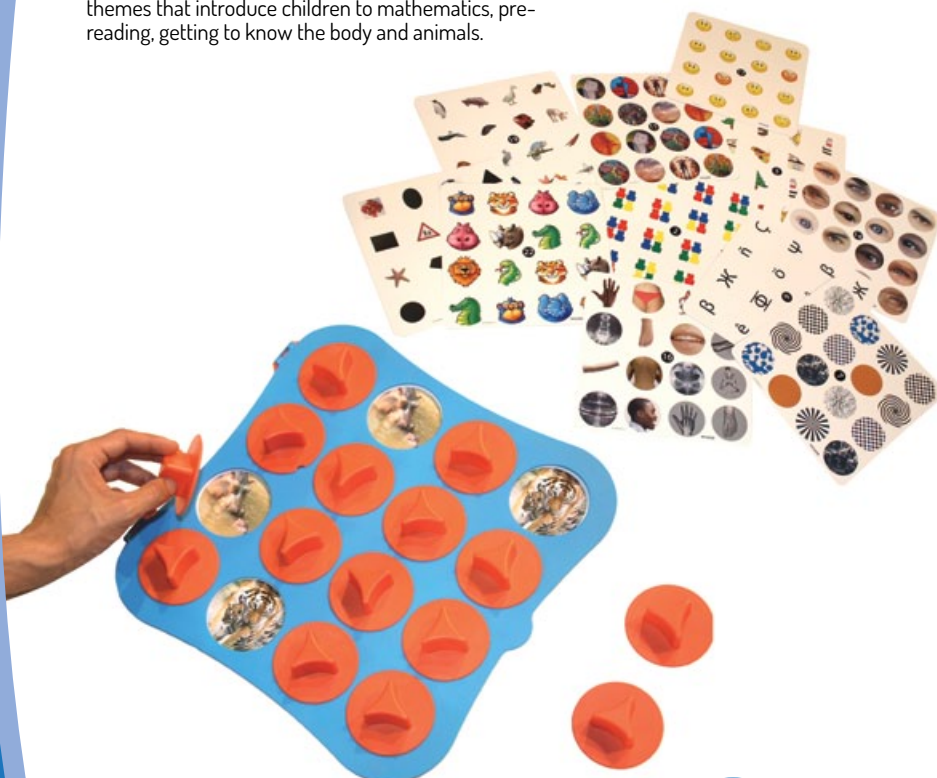

TOWER OF COLOURS

48 wooden pieces in different colours.

PICTURE MATCHING

Set of 24 interchangeable playing cards with a range of themes that introduce children to mathematics, pre-reading, getting to know the body and animals.

GIANT 3-IN-A-ROW

An attractive and educational vertical 3-in-a-row game with two sides – a different game can be played on each side.

On one side, the child can play 3-in-a-row with the happy/sad faces they know so well.

The other side teaches how to form words or count from 1 to 9.

The side panels are printed with the months of the year and days of the week.

Fun and educational game for the player to work on both sides at the same time, so the child learns letters, numbers, words, months and days of the week as he plays.

Dimensions: 123 x 100 x 60 cm.

INTERACTIVE PANELS

INTERACTIVE SYSTEM

Interactive education equipment which develops mobility, visual-motor coordination, perception and capacity of response through fun and learning.

All you need is an internet connection to use it. The interactive system projects a wide variety of dynamic games that enable the users to interact with the images and sounds in real time.

Very easy to use. An important tool for Snoezelen rooms, used in therapy and rehabilitation centres, schools and colleges, retirement homes, etc.

Includes a projector with a built-in movement sensor and computer. It is designed to allow for a wide range of applications in any room on a clear smooth surface (floor, tables, beds, wheelchair trays or any horizontal surface).

The size of the image displayed (approximately 2 x 3 m.) will depend on the height at which the device is suspended.

Includes:

- Rehabilitation pack with 16 interactive games and 25 different levels.
- Movement detection system.
- Short-range projector.
- Built-in computer.
- Easy-to-use remote control (similar to a TV)
- USB, VGA jacks and LAN, audio interfaces.
- Can be suspended from the ceiling.
- Power lead.
- User manual.

Rehabilitation Pack:

Designed for rehabilitation centres and in particular for Snoezelen rooms: For children with different degrees of impairment, stimulating the participants' senses.

The games in this pack have been developed in collaboration with specialists in the fields of special education, rehabilitation and physiotherapy in a wide range of rehabilitation centres, adapting to the specific needs of these users.

Lively, bright colours, larger active elements, slowed-down movements. This makes the games more accessible for special education needs.

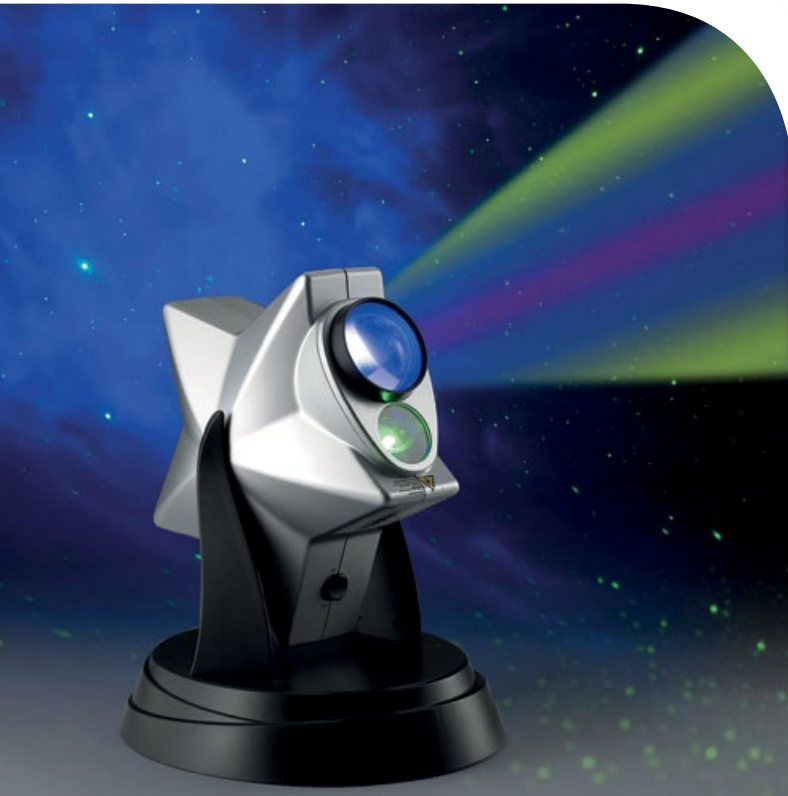

The applications provide two difficulty levels to choose from. The user is rewarded with a round of applause when the exercise is performed successfully.

Available voltages: 220-240V / 50-60 Hz, 110-127V / 50-60Hz.

Features of the activities:

- Focused on visual attention and motor skills.
- Development of spatial orientation.
- Encourages the expression of positive emotions.
- Develops major motor skills.

The projector is the heart of the multi-sensory space, projecting slowly moving images and drawings on walls, the floor and any element in the way; creating a relaxing space, completely bathed in light.

STAR PROJECTOR

Laser projector that lights up the ceiling with hundreds of points that move slowly over a blue cloudy background, simulating a starry sky.

Includes two adjustable glass lenses.

Voltage: 220-240V / 50-60Hz. For 110-127V / 50-60Hz transformer required.

SPACE PROJECTOR

Projects a pleasing circular image with liquid-like effects in a darkened room. The images can be projected onto the ceiling or walls.

Produces an interesting effect for the audience to follow with their eyes and for working with colours.

Includes 1 liquid wheel.

Voltage: 220-240V / 50-60Hz. For 110-127V / 50-60Hz transformer required.

SPECIAL EFFECTS PROJECTOR

The projector is supplied complete with its own rotating wheel (6" or 9" diameter), which can be speeded up, stopped or put into reverse.

Voltage: 220-240V / 50-60Hz + 110-127V / 50-60Hz.

14 x 24 x 38 cm.

PROJECTION DISCS:

FACIAL EXPRESSIONS

THE SEA BED

FARM ANIMALS

FRUITS

FIREWORKS

6" DISC STORIES:

THE THREE LITTLE PIGS

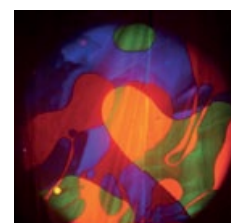

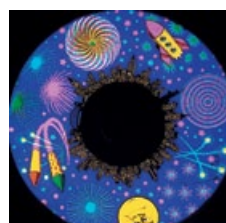

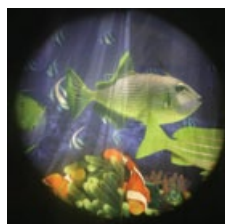

CINDERELLA

LIQUID PROJECTION DISC

6" projection discs, used with projector, which turns the discs slowly, projecting their contents.

These provide a great visual stimulus.

They demand little intellectual capacity of concentration, which enables users to relax with the images without needing to anticipate or decipher the shapes or patterns of the objects.

LIGHTS AND ACCESSORIES

PROJECTION BROLLY

White umbrella that enables you to create a projection screen instantly.
123 cm. in diameter.

PROJECTION IGLOO

Projection surface ideal for creating a special atmosphere in which the child will want to sit or lie down.
Dimensions: 190 x 100 x 100 cm.

PROJECTION SCREEN

Projection screens have a dual action as the image is projected onto the surface and also through the material.

Ideal for fitting above a water bed, for sitting or lying down inside and relaxing with the colours.

Dimensions: 200 cm. high x 280 cm. wide – Includes ceiling attachment.

VISUAL STIMULATION

MULTI-COLOURED BALL

Great for cause-effect relationships.
Turns slowly, displaying a wide variety of coloured lights.

The ball is activated by pressing the switch and will continue to turn for as long as it is pressed. 12V.

MIRROR BALL 30 CM DIAMETER WITH MOTOR

Ideal for tracking activities in a sensory room.

Designed to provide relaxation, visual stimulation and balance.

Thousands of lights are created when a spotlight is focused on the mirror ball.

The ball is attached to the ceiling and spins slowly powered by a motor.

Voltage: 220-240V / 50-60Hz. For 110-127V / 50-60Hz transformer required.

SPOTLIGHT FOR MIRROR BALL - A

Spotlight ideal for use with a mirror ball.

Aim the beam of light at the underside of the ball to create points all over the floor and walls.

Voltage: 220-240V / 50-60Hz. For 110-127V / 50-60Hz transformer required.

A

B

MULTI-COLOUR SPOTLIGHT - B

Spotlight ideal for use with a mirror ball or can be used separately.

Wide range of colours. Comes with an infra-red remote control handset to control the colour, darkening, light, on/off and sound activation.

Voltage: 220-240V / 50-60Hz. For 110-127V / 50-60Hz transformer required.

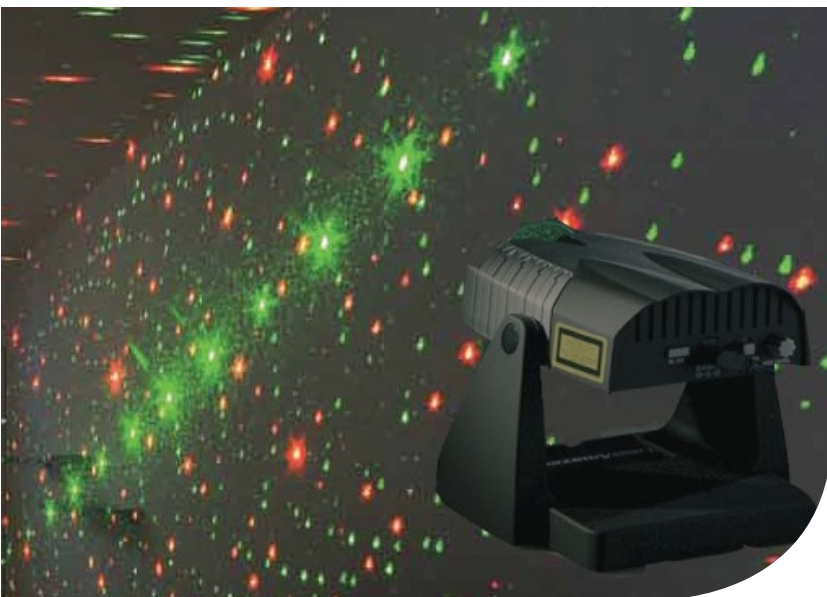

C

LED SPOTLIGHT - C

Ideal for lighting small rooms and adding a touch of colour. Bright coloured, alternating reflectors with adjustable speed.

Voltage: 220-240V / 50-60Hz. For 110-127V / 50-60Hz transformer required.

LASER SHOW SPOTLIGHT

Creates a spectacular projection of between 3 and 30 metres in width with multi-coloured lasers.

Includes 4 different lenses and 39 projection combinations. Choose the lens, select the speed and let the show begin!

Voltage: 220-240V / 50-60Hz. For 110-127V / 50-60Hz transformer required.

16 x 15 x 13 cm.

WATER SPOTLIGHT

Projects multi-coloured water images.

Voltage: 220-240V / 50-60Hz. For 110-127V / 50-60Hz transformer required.

25 x 28 x 25 cm.

LIGHTS AND ACCESSORIES

ULTRAVIOLET

ULTRAVIOLET LIGHT

Powerful portable torch with two UV tubes that emit a high-intensity ultraviolet light. Rechargeable. Creates striking effects in dark rooms. Voltage: 220-240V / 50-60Hz. For 110-127V / 50-60Hz transformer required. 24 x 15 x 8 cm.

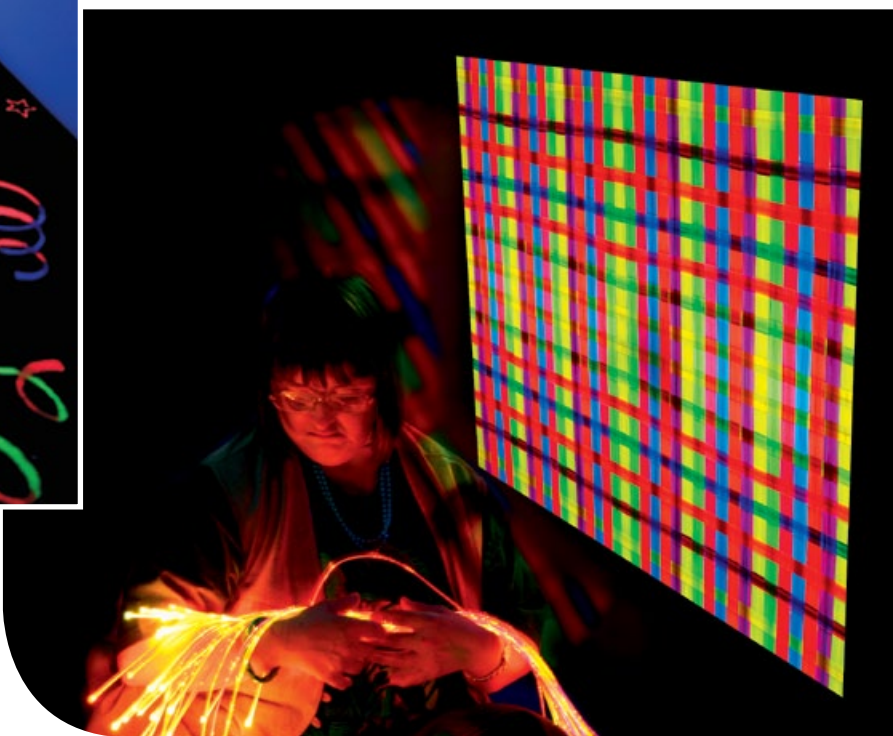

ULTRAVIOLET LAMP

Low output for close-up work. 17 cm.

UV SCREEN/MAT (m2)

Mat woven with fluorescent coloured threads. Very soft to the touch. Supplied in m2, to be laid in just one part of a room or to cover the whole floor area. We recommend it be used in conjunction with an ultra-violet light.

UV MAT/CURTAIN

Can be used as mat on the floor or on the wall to create the effect of stained glass window. 1 m2.

UV CAVE

A portable, fold-away cave. Ideal for sensory stimulation and perception games.

Dimensions: Cave dimensions- 1 x 1 x 1 m. Tunnel dimensions: 1.5 m. long x 48 cm wide.

A wooden musical instrument, possibly a wind chime or a small xylophone. It features a central wooden post with a spherical wooden top. Several horizontal wooden bars are attached to the post, each holding a series of colorful, rectangular wooden pieces (yellow, red, blue, and white). These pieces are suspended by thin metal rings. Small metal bells are attached to the bottom of each bar. The entire instrument is mounted on a circular wooden base.

Strips of UV-sensitive acrylic mirrors. Each strip has a bell that chimes when it spins. 23 x 20 cm.

Paints, Felt-tip Pen, Letters and Markers, all of which are UV light-sensitive.

Fluorescent wrist bands, mitts, cloak and gloves.

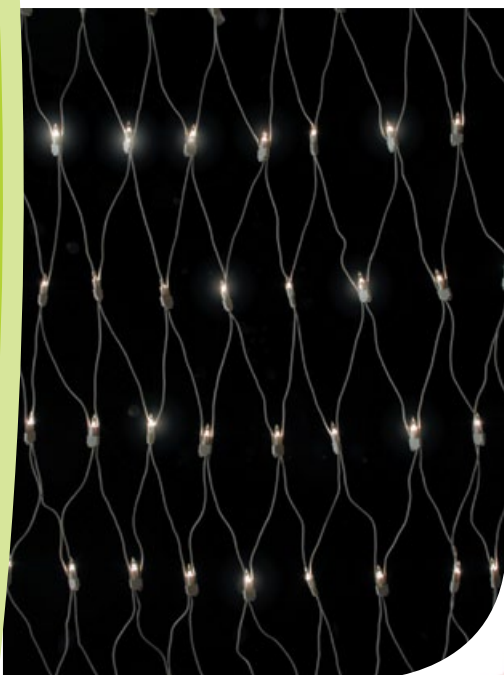

FINE MOTOR SKILLS SET

Tube with objects, plastic springs and knots game, all of which are light-sensitive.

LIGHTS AND ACCESSORIES

ACCESSORIES

STAR-SPANGLED CEILING

Network of small lights with different effects that flash on and off in different sequences, intermittently waxing and waning.

122 x 183 cm.

Voltage: 220-240V / 50-60Hz. For 110-127V / 50-60Hz transformer required.

SHINY CURTAIN

A curtain of metal strips that flutters in a light breeze that can be supplied by a fan.

An attractive way to divide spaces in a multi-sensory room.
240 x 94 cm.

MAGIC FAN

Magic fan that produces moving colours.
2 x AA. 11 cm.

RAINBOW BALL

Each time the ball moves, the lights come on for 10-15 seconds.
7 cm. diameter.

FANTASY BALLS

A bag of 12 foam rubber balls in attractive and varied colours. 65 mm.

MAGIC BALL, BATTERY-POWERED

Tactile and visual ball. Changes colour when squeezed with the hand.

Very effective especially in dark environments.

Fits perfectly in the palm of an adult's hand.

2 x AA. 8 cm. in diameter.

MUSICAL MIRRORS ROUNDABOUT

Spinning wooden frame with shiny chiming mirrors.
23 x 20 cm.
