Steel in the loft-like flat is already a standard. Metal furniture is the interesting complement to modern living.

Comfortable furniture become much easier to work. But not only that counts! Severity areas combined with rustic elements of the nature of the place, that everyone will love. The interior of an industrial office will become one of the most interesting and the most pleasant places in the house. Contrary to appearances, the decoration of such space does not necessarily entail high costs. In such a beautiful and unusual place without fear can be a workaholic ☺.

A kitchen made of stainless steel it is not only the highest standards of hygiene, but also the ability to make many of author's ideas of kitchen arrangements. Stainless steel furniture, without toxic paints, adhesives, is also a safety health and life with allergies. A Flat for such persons can be decorated of our metal furniture, reconciling their health requirements with modern and interesting trends in interior design.

Metal office furniture allows for modern, functional and practical equipment of a workplace. Metal optimally meets the requirements in terms of design, quality, functionality and durability. Comfort, functionality, ergonomics – these are the features of metal office furniture which customers appreciate most.

Modern rooms and school classrooms require functional, durable and aesthetic furniture. Such equipment can be found in our offer. To classrooms we recommend the cabinet to storage of tablets and laptops, school desks, cabinets for storage aids. For handy students materials - a popular and practical locker with compartments, to staff rooms – office cabinets for documents. Our cabinets for binders and filing you equip the secretariat and office rooms, the wardrobe lockers – the cloakroom, social lockers – a place of the caretakers and cleaners.

School lockers are made of top quality steel. The bottom of the locker is made of galvanized steel to protect it from corrosion additionally. We use powder coatings from leading global manufacturers. A wide range of standard colours – 16 RAL colours.

## SUM S LOCKERS FOR PRE-SCHOOLERS

In our offer we also have 1350 mm high SUM S lockers. Even the youngest children will be able to hang their clothes and reach the shelves without any effort. Cloakrooms in kindergarten equipped with wardrobe lockers enhance kids' independence. Children who have their own individual lockers more willingly and actively prepare to their classes.

## SUM S LOCKERS FOR 6-YEAR-OLDS

For younger pupils we offer lockers height of 1500 mm. In the compartments of the lockers the ventilation holes are made allowing free exchange of air.

Additional equipment:

- The bar with hooks
- The shelf for books, notebooks and handheld things.

## WNT TABLET TROLLEY

Tablet trolley has inbuilt battery charge function and is designed to store and carry 32 tablets and one laptop. It is a perfect solution for schools, libraries, meeting rooms, in other words in every place that safe storage and simultaneous tablet recharge is needed.

WNT tablet trolley advantages:

- Simultaneous recharge of up to 32 units of such devices as : tablets, smartphones, and one laptop.
- Each USB socket is equipped with LED diode confirming its correctness of the work.
- Both circuit-breaker protection and protection against overload.
- Protection against overheating.
- Implementation of single loading time limiter (up to 5 hours) to safe batteries of currently charging devices and to decrease energy consumption.

\*Contact us to know what devices can be charged in our trolleys.

## WNL LAPTOP TROLLEY

- The WNL Laptop trolley is meant to store laptops and to provide battery recharge function.
- We have applied a sequencer to provide overload and surge protection, which allow to enable individual terminal blocks after a particular period of time (~3 minutes). That results in maintaining low electrical load of the trolley.
- Flashing diode signals the state of work of particular terminal blocks
- The trolley has one connector plug and overload fuse.
- The trolley is also equipped on both sides with grips, the top is made from melamine, ventilation holes for air circulation and with 4 wheels (2 of them are with a brake).
- Additionally, side edges of the trolley are secured with rubber corners.

## LAPTOP LOCKER

Cabinet is used to protect PC units with the simultaneous possibility of recharging the battery during storage. Inside the body, on the side the strip is mounted which contains sockets for connecting chargers, laptops - in every locker.

# MOVABLE SHELVING SYSTEM

LITREG system of movable rack was designed for libraries and archives. This is a perfect solution for archiving purposes providing great possibilities. Our system allows maximal usage of available storage place and and to archive documents. We have also movable racks for clothes. We also recommend our SOFT TOUCH electric drive rack system. This is a truly innovative solution for archivization. The process of operating the racks is effortless. After pressing the button the racks are moving automatically so as to grant access to required catalogues.

Furniture made of stainless and acid proof steel manufactured by AMEZEUS allow comprehensive furnishing of gastronomic places with:

- modular work tables, which allows creating a table matched to customer's request.
- work tables with sinks,
- overshelves,
- corner tables,
- tabletops,
- wall cabinets,
- wall mounted shelves,
- cabinets with wing or sliding doors (including through cabinets),
- racks on feet or on wheels, with shelves or with perforated shelves,
- hoods and service trolleys.

During the design and manufacturing process, we care about all the details: order, safety, versatility, functionality, ergonomics, design and most importantly - people and their needs at the workstation.

## SMK INDUSTRIAL COMPUTER CABINET

- The top part of the cabinet allows using the computer even in the presence of dust and dirt in the air.
- The lower, covered part, serves for safekeeping of other peripherals.
- An extendable shelf allows use of computer keyboard (in basic version the shelf is fixed).
- It is also available to equip the cabinet with an internal electrical fan that cools the monitor. In the bottom part of the cabinet a surge suppression strip can be mounted.
- The back wall has ventilation holes in it. The adjustable shelf makes it possible to set its height in dependence on the kind of computer being kept in the cabinet (in basic version the shelf is fixed).

## SPNK INDUSTRIAL COMPUTER CABINET

- Flat case of minimal depth.
- Front screen adapted for LCD monitor of 16:9 aspect ratio and diagonal – up to 22 inches.
- IP-42 protection class, supported with researches: protection from objects larger than 1 mm and protection from drops of water falling on the case at 15°.
- Removable bottom allows screwing the cabinet directly to the ground.
- As a standard the cabinet is equipped with: a fan, main supply cable, Ethernet loop and surge suppression strip.

## RMM STORAGE RACKS

- Universal storage racks necessary in those places, where different items, tools, cardboard boxes, and other items are kept. In order to shorten the time-consuming montage we have come up with racks that do not need screws to be assembled. They are very easy and smooth to assembly and disassembly. Durability, solidity and quality are real advantages of these racks. Elements are made of powder coated steel sheet. Possible to produce – on customer's demand - racks made of galvanized or acid proof steel sheet are also available.
- In the storage rack the shelves are adjustable with 60 mm interspaces, and in snap-together racks – with 30 mm interspaces. Maximum loading capacity of the shelf is 100 kg.

## TECHNO WORKBENCHES

- Thanks to its modular construction and two lines we offer you a possibility of creating any possible configuration adjusted to specified needs:
- Heavy TECHNO EXPERT workbenches is designed for professional solutions (maximum loading capacity is 1350 kg).
  - TECHNO LIGHT workbenches is designed for professional as well as for amateurish solutions (maximum loading capacity is 600 kg).
