ABOUT JD MED

The "JD MED" brand was established in 1984 in Beijing, the capital of China, and has grown into a large-scale comprehensive medical equipment entity that integrates design, research and development, production, marketing, and services. With over 40 years of deep expertise in the hospital construction industry, the company adheres to its mission of "bringing innovative smart healthcare for the world." We focus on improving medical healthcare environments and is dedicated to providing precise and comprehensive hospital configuration solutions for countless medical institutions.

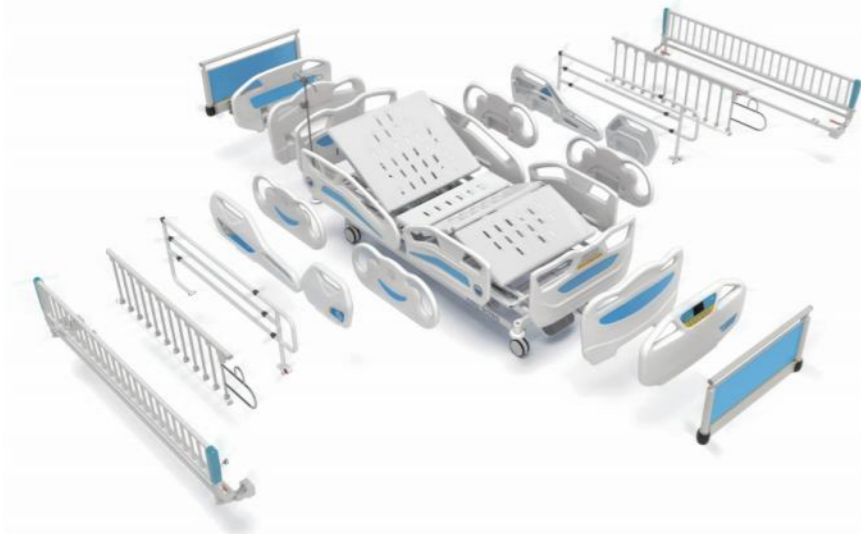

The company has accumulated years of experience in fundamental hospital construction and smart hospital development, continuously integrating advanced international design concepts and technologies. It persistently explores cutting-edge medical processes and hospital construction philosophies to provide clients with comprehensive project management solutions and end-to-end services. These include, but are not limited to, budgeting, planning, design, 3D visual effects, product supply, delivery, installation, and implementation—covering the entire supply chain of healthcare furniture and equipment.

At the same time, the company collaborates closely with global medical institutions to continuously refine product usability, enabling tailored solutions for markets with specific demands in strength, durability, and aesthetics. It offers highly compatible, professional total-hospital furniture configuration plans.

Currently, the company's product line includes hospital beds, medical trolleys, customised healthcare furniture, lean modular storage and transport solutions for medical supplies, as well as supporting equipment for operating rooms, CSSD, ICUs/CCUs, and medical technology department.

China's **Leading Brand** of hospital beds, trolleys, tables and cabinets manufacturing

41 years of product design and manufacture experience within the field

High-Tech Enterprise
Technology-based SME

Class A R&D Institution
Provincial-level Industrial Design Center

Looking ahead, the company will remain steadfast in its commitment to R&D and technological innovation while continuously optimizing service experiences. We aim to provide medical professionals with a safer, more efficient, comprehensive, and multi-tiered service system. Through continuously innovative product solutions, we will support the upgrading and transformation of healthcare systems, empowering improvements in medical care quality and hospital management efficiency.

Mission:

Bring the Innovative Smart Healthcare for the World
