# CERTIFICATES

Ortoteca holds the following certificates:

ISO 13485

ISO 9001

HEALTH LICENCE

CE MARKING

## ISO 13485:2012

as manufacturer of medical devices and parks for the elderly.

## ISO 9001:2008

as a quality company.

## HEALTH LICENCE

for manufacturing and importing **medical devices and Parks for the Elderly**.

## EXPORT CERTIFICATE

including free sale, issued by the Spanish Agency of Medicines and Medical Devices.

## “EXPERT PHYSIOTHERAPIST REPORT”

a technical review of our **Parks for the Elderly**.

All of our products comply with the requirements of the **CE Marking** as **manufacturers of Rehabilitation products and Parks for the Elderly**.

Rehabilitation Products declaration of compliance, in accordance with the **Directive 93/42/EEC** and its transposition to the Spanish Royal Decree 1591/2009, 16 October.

Parks for the Elderly declaration of compliance, in accordance with the standard **EN-16630** for permanently installed outdoor fitness equipment.

## MOBILE TILTING TABLE - F.12

### MOBILE TILTING TABLE (ELECTRIC) - F.12/2

The table tilts from the vertical position to the horizontal.

The table can be sloped at multiple angles using a pedal that controls and sets the selected position (F.12) via its telescopic component or alternatively via an electric actuator, providing a choice between a push-button control panel and a pedal (F.12/2).

The chassis is fitted with a transverse grip rail that helps the user to tilt and carry it.

Folding footrest.

Four wheels for mobility, the two rear wheels are fitted with a brake.

Comes with a set of three straps to secure the thorax and lower limbs.

Metal frame with chrome and polyester finish. Fireproof upholstery.

Dimensions: 175 x 74 cm.

Voltage: 220-240V / 50-60Hz. On request 110-127V / 50-60Hz.

#### OPTIONAL ACCESSORIES:

**ABDUCTION CYLINDER - F.12-C**

**SET OF CUPS FOR STABILIZING FEET - F.12-D**

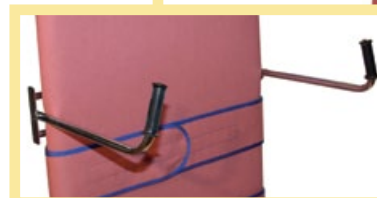

**TRAY - F.12-E**

**SET OF ARM RESTS - F.12-H**

**SET OF HEAD CONTROLLERS - F.12-I**

**SET OF THORAX CONTROLLERS - F.12-J**

**LEG SEPARATOR - F.12-L**

# VERTICALIZATION - TABLES

## ADJUSTABLE TILT TABLE - F.12/4

Electric table which can be tilted from the horizontal position to the vertical.

In contrast to models F.12 and F.12/2, its height can be adjusted from 45 to 95 cm.

Fitted with a dual control pedal with a non-slip base.

Two motors with built-in safety stop.

The footrest folds away easily, enabling the patient to be positioned in a prone/supine posture for breathing exercises.

Four wheels with brake.

Spring-loaded gas-powered tilting headrest, fitted with a breathing orifice.

Comes with a set of three straps to secure the thorax and lower limbs.

Metal frame with chrome and polyester finish. Fireproof upholstery.

Dimensions: 195 x 74 x 45-95 cm.

Voltage: 220-240V / 50-60Hz. On request 110-127V / 50-60Hz.

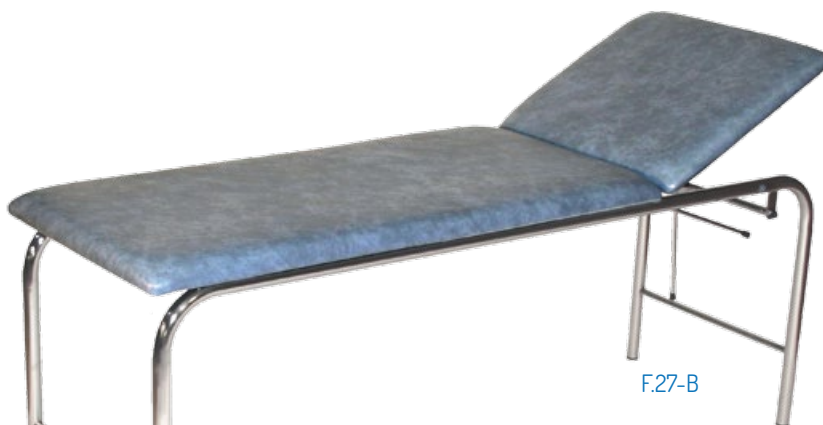

## BOBATH PLATFORM WITH REMOVABLE LEGS - F.30

Metal frame with polyester cover. Fireproof upholstery.

Dimensions: 240 x 200 x 50 cm.

- TREATMENT TABLE - F.27-B**
- WITH CENTRE SLOT - F.27-C**
- WITH BREATHING HOLE - F.27-D**
- WITH REMOVABLE LEGS - F.27-E**

Tilting headrest.  
 Chrome metal frame (F.27-E is fitted with a polyester cover). Fireproof upholstery.  
 Dimensions: 180 x 60 x 70 cm.

F.27-B

F.27-C

F.27-E

F.29/E2

- TREATMENT TABLE - F.29/E2**
- TABLE WITH SLOT - F.29/E3**

Designed for use in electro-medicine.  
 Tilting headrest.  
 Beech frame varnished with its natural colour.  
 Fireproof upholstery.  
 Dimensions: 192x62x75 cm.

F.29/E3

# TABLES

## DE-LUXE ELECTRIC TABLES:

**2 SECTIONS - F.28-8E2**

**2 SECTIONS CAPACITY 250 KG - F.28-8E2/250**

**3 SECTIONS - F.28-8E3**

**3 SECTIONS CAPACITY 250 KG - F.28-8E3/250**

**5 SECTIONS - F.28-8E5**

**5 SECTIONS CAPACITY 250 KG - F.28-8E5/250**

**BOBATH-TYPE - F.28-8EB**

**BOBATH-TYPE CAPACITY 250 KG - F.28-8EB/250**

Headrest and sections can be adjusted using a gas-powered spring system.

Headrest has a ventilation opening which can be moved in two directions (up and down).

Moveable base with centralized wheel lifting mechanism, operated with a single lever.

Height is adjustable via an electric power control (electric stretchers) or hydraulic power control unit on both sides (hydraulic stretchers).

Metal frame with chrome and polyester finish. Fireproof upholstery.

Maximum recommended weight: 180 kg or 250 kg ref. F./250

Dimensions: 195 x 70 x 50-100 cm. / 200 x 100 x 50-100 cm. (Bobath models)

Voltage: 220-240V / 50-60Hz. On request 110-127V / 50-60Hz.

### Bobath models:

Their design and dimensions are especially intended for providing Bobath technique treatments. Extra-large headrest to include support for the upper back if required.

**DE-LUXE HYDRAULIC TABLES:**

**2 SECTIONS - F.28-8H2**

**2 SECTIONS CAPACITY 250 KG - F.28-8H2/250**

**3 SECTIONS - F.28-8H3**

**3 SECTIONS CAPACITY 250 KG - F.28-8H3/250**

**5 SECTIONS - F.28-8H5**

**5 SECTIONS CAPACITY 250 KG - F.28-8H5/250**

**BOBATH-TYPE - F.28-8HB**

**BOBATH-TYPE CAPACITY 250 KG - F.28-8HB/250**

PAPER ROLL HOLDER FOR TABLES F.28 -F.31

# TABLES - TRACTION

## TWO-SECTION ELECTRIC TABLE - F.28-E2

## TWO-SECTION HYDRAULIC TABLE - F.28-H2

## BOBATH-TYPE ELECTRIC TABLE - F.28-EB

## BOBATH-TYPE HYDRAULIC TABLE - F.28-HB

Tilting headrest, fitted with an opening for the patient to breathe.

Moveable base with dual brake lever.

Height is adjustable via an electric power control (electric stretchers) or hydraulic power control unit on both sides (hydraulic stretchers).

Metal frame with chrome and polyester finish. Fireproof upholstery.

Maximum recommended weight: 180 kg.

Dimensions: 195 x 70 x 50-100 cm. / 200 x 100 x 50-100 cm. (Bobath models)

Voltage: 220-240V / 50-60Hz. On request 110-127V / 50-60Hz.

## ELECTRIC HEADREST - F.23/29E-0

Can perform cervical and lumbar tractions in continuous, static, intermittent, progressive and cyclical modes in which the operator can set the strength level, working time, rest time, progression, cycles and stages to adapt each treatment to the individual pathology and feedback.

A wide range of pre-set and custom protocols to meet the needs of each individual patient.

### Technical specifications:

Colour touch screen.

Software: Windows CE platform.

Strength settings: from 1 to 25 kg for cervical traction and from 1 to 90 kg for lumbar.

Time setting: adjustable from 1 to 60 min.

Patient remote control.

Dimensions: 41 x 42 x 18 cm.

Power consumption: 80 W

Safety category: I type B

Voltage: 220-240V / 50-60Hz. On request 110-127V / 50-60Hz.

**TREATMENT AND TRACTION TABLE:**

**FIXED - F.23/29E**

**HYDRAULIC - F.23/29-H**

**ELECTRIC - F.23/29-E**

Table with three sections, one fixed and the other mobile (runs on a rail); the third section can be removed.

Fixed beechwood structure varnished in its natural colour. (F.23/29E)

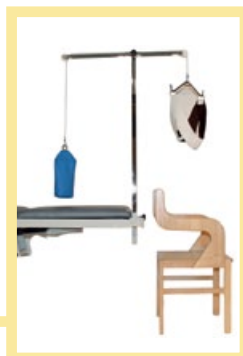

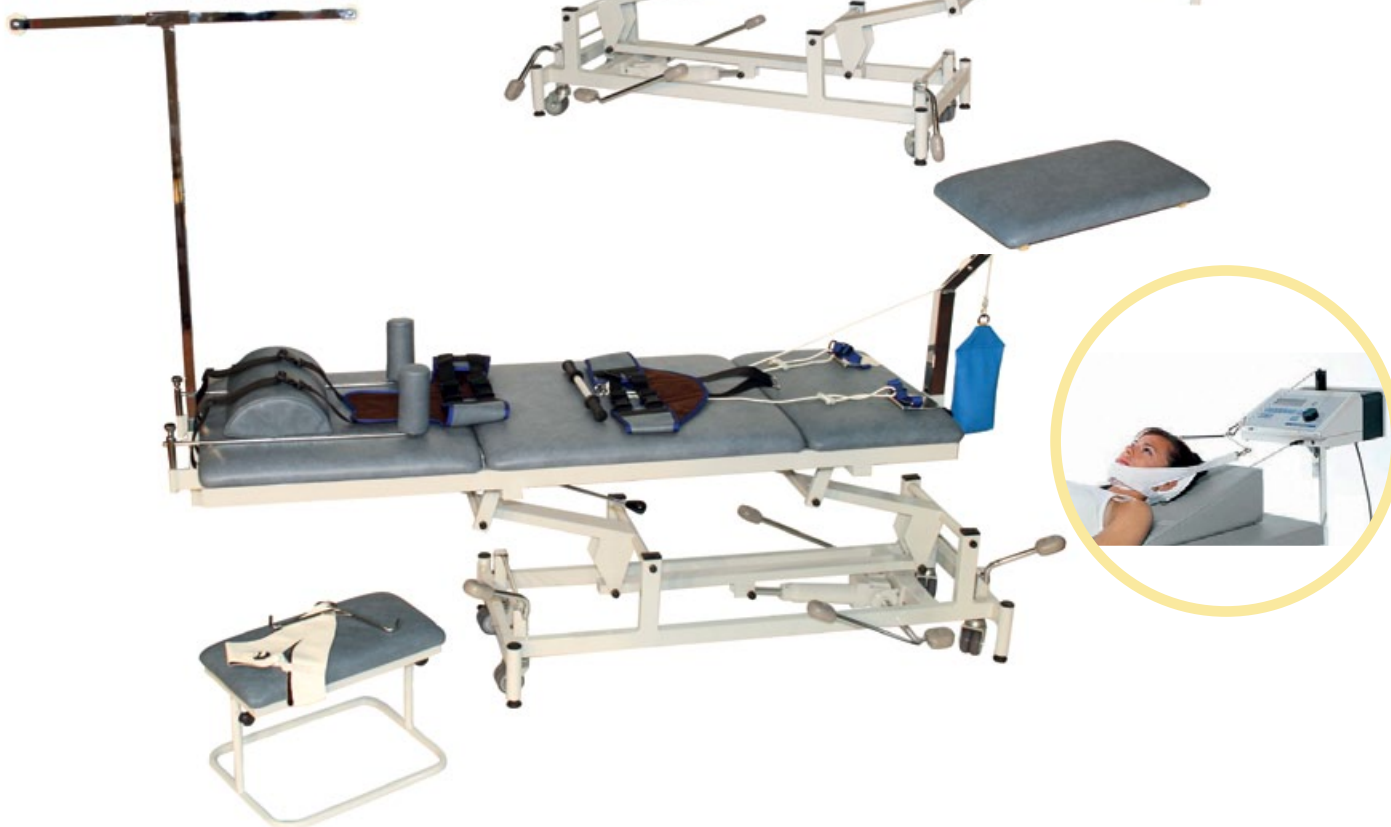

Metal frame with chrome and polyester finish. (F.23/29-H and -E).

Fireproof upholstery.

Maximum recommended weight: 180 kg.

Dimensions: 195x70x50-100 cm. (FIXED: 195x70x60 cm.)

Voltage: 220-240V / 50-60Hz. On request 110-127V / 50-60Hz.

**ACCESSORIES (Not included):**

**HALF-LEG CUSHION TO PREVENT LORDOSIS/ SWAYBACK - F.79**

**ELECTRIC HEADREST - F.23/29E-0**

(It includes Head Sling G.18300 + Spreader bar for head sling G.18305)

**ELECTRIC HEADREST BASE - F.23/29E-1**

**HEADREST FOR AUTO-EXTENSION - F.23/29E-2**

(Consisting of: Base with pulleys, Spreader bar for head sling G.18305, Head Sling G.18300-1, Ropes, Handlebar, 2 tensioners and 2 pedals)

**CERVICAL TRACTION SUPPORT - F.23/29E-5**

**LEG REST STOOL - F.23/29E-8**

**ARMPIT SECURING SUPPORT - F.23/29E-9**

**THORACIC TRACTION BELT - G.18860**

**PELVIC BELT - G.18865**

# TRACTION

### TRACTION SUPPORT - F.25

For wall mounting.  
Metal frame with polyester finish.  
Includes: snap hooks, cord, spreader bar and chin strap.

### ARTICULATED TRACTION SUPPORT - F.25/2

Installation: To be fixed to a door or wall ladder.  
Made of aluminium, easily foldable,  
Includes: snap hooks, cord, spreader bar and chin strap.

### ADJUSTABLE TRACTION SUPPORT - F.25/0

For attachment to a bed.  
Equipped with three pulleys.  
Adjustable height.  
Metal frame with chrome and polyester finish.  
Includes: 3 metre-length cord and 2 snap hooks.

### DOOR-MOUNTED EXERCISE PULLEY - F.25/3 WALL-MOUNTED EXERCISE PULLEY - F.25/4

Pulleys with aluminium fittings.  
Metal frame with polyester cover.  
Includes: Cord and two metal handles with varnished wooden hand grip.

**ROCHER MODULAR CUBICLE:  
WITHOUT FITTINGS - F.99-1M  
WITH ACCESSORIES - F.99-1M-J  
FULLY EQUIPPED - F.99-1M-Q**

Very spacious.

Modular design that requires only a side, ceiling and rear wall for mounting.

Requires no special mounting.

Dimensions: 200 x 200 x 160 cm.

**Model F.99-1M-J comprises:**

- 1 table with head rest
- 1 pelvic strap
- 1 resistance circuit
- 1 suspension circuit
- 1 set of handgrips
- 1 set of pulleys
- 7 springs (from 5 to 20kg)
- 6 sand bags (from 0.5kg to 5kg)
- 1 forearm and leg sling
- 1 arm and thigh sling

**Model F.99-1M-Q comprises:**

- 1 table with head rest
- 1 wedge headrest
- 1 half-crown cushion
- 1 pelvic strap
- 1 stool
- 1 resistance circuit
- 1 suspension circuit
- 1 set of handgrips
- 1 set of pulleys
- 18 springs (from 2.5kg to 25 kg)
- 7 sand bags (from 1/4 kg to 5 kg)
- 1 forearm and leg sling
- 1 arm and thigh sling

**SINGLE-FRAME WALL BARS - F.14-1**

**TWIN-FRAME WALL BARS - F.14-2**

Vertical and transverse bars made of Melix pinewood.

Attaches to the wall with standard bolts.

Dimensions:

243 x 97 x 12 cm. F.14-1

243 x 195 x 12 cm. F.14-2

# TRACTION

### SWEDISH BENCH - F.13/2

A highly versatile item that can be combined with other units. Many kinds of exercises can be performed on this bench.  
 Made of varnished wood.  
 Chrome-plated sliding fittings.  
 Length: 250 cm.

F.42/42

F.42/43

### FINGER LADDER - F.42/42

Metal frame with polyester finish.  
 10 steps. 195x30x825 mm.

### FINGER LADDER - F.42/43

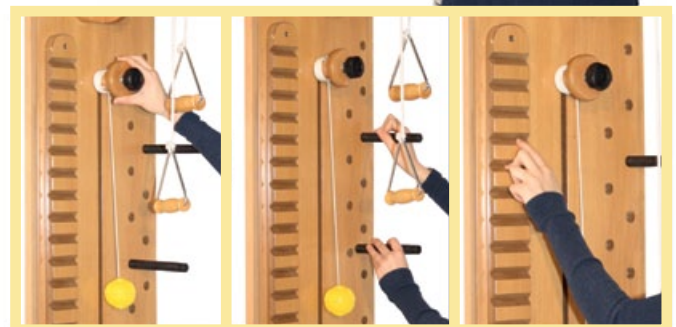

Made of kiln-dried and varnished wood.  
 24 steps. 78x44x1010 mm.

### ARM EXERCISE UNIT - F.26

#### Fitted with:

- Exercise pulleys.
- Spinning wheel with resistance provided by a medicine ball.
- Pair of sticks for manual coordination exercises.
- Finger ladder.

F.26

F.42/20

### CLIMBING FRAME - F.42/20

Fitted with lateral pivots and a 100cm bar to enable the user to climb using both arms.  
 Removable base for working on a table or fixed to the wall.  
 Metal frame with chrome and polyester finish.

F.40-G2

**LIMB EXERCISE BENCH - F.40-G**

**LIMB EXERCISE BENCH (EXTENDABLE) - F.40-G2**

Thanks to the layout of its bi-lateral mechanical components, numerous exercises can be performed with both the upper and lower limbs.

**The Model F.40-G2 is fitted with an adjustable reclining backrest for positioning as far as horizontal.**

It includes two side arms, each of which is fitted with two telescopic radial bars that pivot on a transverse axle with a disc selector fixed to the frame by dual ballbearing boxes.

At the ends of the bars, both inside and outside, the necessary devices can be attached to perform the selected exercise.

The very wide range of programmes includes both resistance exercises and active-assisted exercises, in which the upper and lower limbs can be used together. Padded buffers, hand grips and weights are provided for this.

Side levers are attached to adjust the muscle fixing pads.

Central control to adjust the back rest.

The base is equipped with stacks that are used to store the retaining weights.

Includes 2 x 0.5 kg weights, 6 x 1 kg weights and 2 x 2 kg weights.

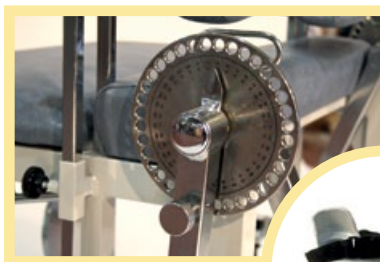

Metal frame with chrome and polyester finish. Fireproof upholstery.

F.40-G2

F.40-G

F.40/1

**OPTIONAL ACCESSORY:**

**FOOT STRETCHING AND FLEXING SHOE - F.40/1**

Fitted with straps, buckles and crossbar with knobs for fixing to exercise benches.

# MUSCLE STRENGTHENING

### ANKLE EXERCISE BASE - F.40/42

Mechanical adjustable base, especially recommended for rehabilitation of the ankle.  
Permits stretching of the sole of the foot, flexing of the back of the heel and internal and external rotation.  
For resistance exercises, the following weights are provided: 3 x 2 kg, 1 x 1 kg and 1 x 0.5 kg. Metal frame with chrome and polyester finish.  
Seat not included (F.40/42-1).

### SEAT FOR ANKLE EXERCISE BASE - F.40/42-1

Adjustable height.  
Equipped with weight support holder.  
Metal frame with chrome and polyester finish.  
Fireproof upholstery.

### COLSON BENCH: (1 PLACE) - F.98-1 (2 PLACES) - F.98-2 (3 PLACES) - F.98-3

Depending on how the wires are configured, numerous traction and resistance angles can be achieved.  
Seat and sloped backrest with anatomical form.  
Comes with the following: 4 ring pulleys, 2 rotating pulleys, 1 foot strap, and synthetic cord.  
Metal frame with chrome and polyester finish. Fireproof upholstery.

### OPTIONAL ACCESSORY: SHOE FOR COLSON BENCH - F.98/Z

Fitted with ring and straps to secure the foot.

- LORME BOOT (13 kg.) - F.41
- LORME BOOT (7 kg.) - F.41-0
- SHOE (13 kg.) - F.41/2
- SHOE (7 kg.) - F.41/3

For exercising the quadriceps.  
Grooved barbell weights  
Removable bar to fix the shoe position.  
Aluminium shoe with polyester finishing.

**SET OF PULLEYS - F.20/1**

**DUAL SET OF PULLEYS - F.20/2**

Adjustable dual function bilateral pulleys for both upper and lower limbs.

All components of this set of pulleys are attached to a varnished wooden board.

F.20/2 is fitted with a central frame to hold the weights to be used.

The pulleys are mounted on twin sets of ball bearings to minimize friction and noise.

Equipped with the following grooved weights:

F.20/1 - 3 x 2 kg, 1 x 1 kg, and 1 x 0.5 kg.

F.20/2 - 4 x 2 kg, 2 x 1 kg, and 2 x 0.5 kg.

The foot stirrup G. 17002 is required for exercises with the lower limbs (not included).

F.21/A

F.20/1

F.20/2

F.21/B

**SINGLE SET OF PULLEYS - F.21/A**

**TWIN SET OF PULLEYS - F.21/B**

Pulley set for bilateral use, for upper and lower limbs.

Equipped with mobile weight stack and hand grips.

Metal frame with chrome and polyester finish.

Equipped with the following grooved weights:

F.21/A - 1 x 2 kg, 1 x 1 kg, and 1 x 0.5 kg.

F.21/B - 2 x 2 kg, 2 x 1 kg, and 2 x 0.5 kg.

The foot stirrup G. 17002 is required for exercises with the lower limbs (not included).

# MUSCLE STRENGTHENING

### WOODEN WEIGHT STACK - F.43/11

Made of wood with natural colour varnish finish.  
Weights from 0.5 kg to 5 kg.  
Weights not included.

### VINYL WEIGHTS (pair):

- 0,5 Kg - G.18754N
- 1 Kg - G.18754N-1
- 2 Kg - G.18754N-2
- 3 Kg - G.18754N-3
- 4 Kg - G.18754N-4
- 5 Kg - G.18754N-5

### WEIGHTS TROLLEY - F.43/13

Designed for storing and conveniently transporting a range of weighted items such as weights, wrist bands and sacks.

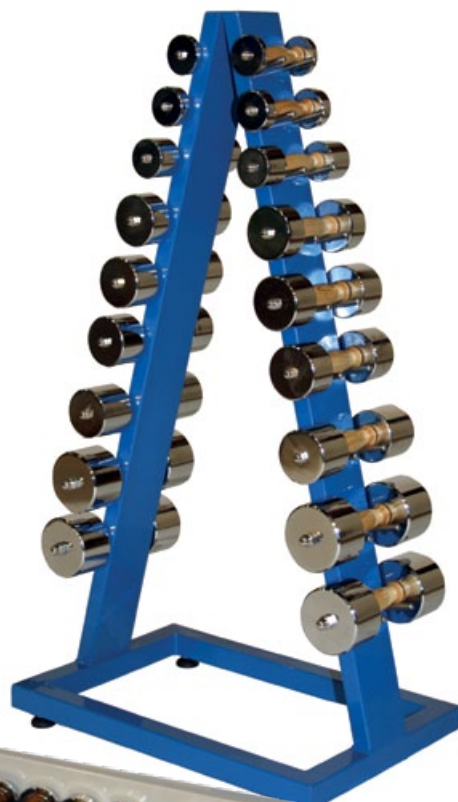

Can be disassembled, metal frame with polyester finish.  
Maximum weight: 160 kg.  
Dimensions: 90 x 65 x 90 cm.

### METAL WEIGHT STACK - F.43/12

Metal frame with polyester finish.  
For weights from 0.5 kg up to 10 kg.  
Weights not included.

### CHROME-PLATED WEIGHTS (pair):

- 1/2 Kg - F.43-00C
- 1 Kg - F.43-01C
- 2 Kg - F.43-02C
- 3 Kg - F.43-03C
- 4 Kg - F.43-04C
- 5 Kg - F.43-05C
- 6 Kg - F.43-06C
- 8Kg - F.43-08C
- 10 Kg - F.43-10C

### WEIGHTED WRIST AND ANKLE STRAPS:

- |                       |                       |
|-----------------------|-----------------------|
| (250 Gr.) - G.18750   | (2,5 Kg) - G.18750-6  |
| (500 Gr.) - G.18750-1 | (3 Kg) - G.18750-7    |
| (750 Gr.) - G.18750-2 | (3,5 Kg) - G.18750-8  |
| (1 Kg) - G.18750-3    | (4 Kg) - G.18750-9    |
| (1,5 Kg) - G.18750-4  | (4,5 Kg) - G.18750-10 |
| (2 Kg) - G.18750-5    | (5 Kg) - G.18750-11   |

Colour-coded with external stamp indicating the weight of each wrist strap.  
Made from fireproof material.

**RESISTANCE BANDS:**

Low-powder latex bands for endurance exercises and to enhance muscular power, both negative and positive. Recommended to improve range of movement.

Length: 5 metres.

**Mild resistance (yellow) - J.T.11290**

**Medium resistance (red) - J.T.11291**

**Strong resistance (green)- J.T.11292**

**Extra-strong resistance (blue) - J.T.11293**

**Special extra-strong resistance (black) - J.T.11294**

**FILLABLE STRENGTH TRAINING BALLS WITH HANDLES (PAIR) - G.18756**

Made from elastic material, which enables them to be filled with up to 3.5 kg of water or 5.5kg of sand. Can be used with hands or feet. Particularly suitable for muscular strength and stamina exercises and to strengthen wrists and ankles.

**SHOULDER WHEEL - F.22/3**  
**SHOULDER WHEEL (WOOD) - F.22/3-M**

Its central mechanism provides resistance and it is fitted with a handgrip and adjustable counterweights.

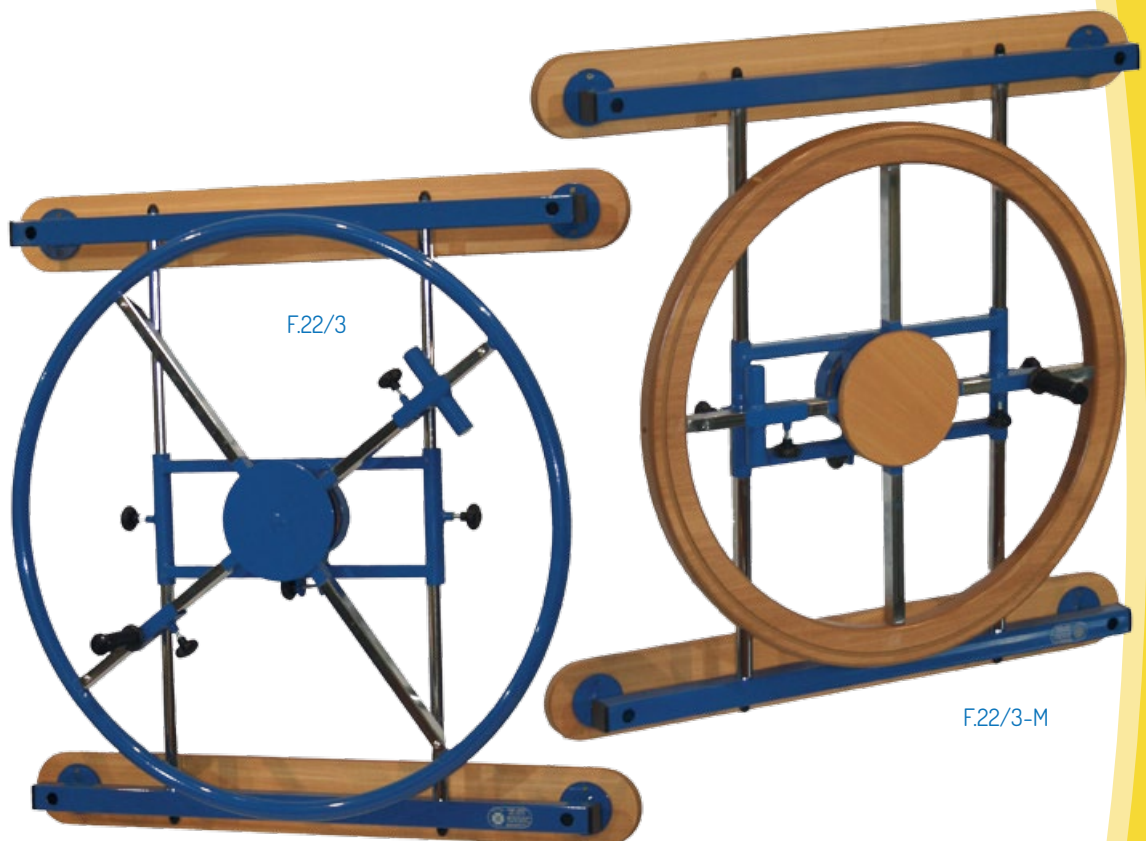

Tubular steel construction mounted on a metal frame. (F.22/3)

Beechwood construction mounted on a metal frame. (F.22/3-M)

Adjustable height. (Central axle displacement: 60cm.)

Varnished wood crossbars for wall mounting.

Dimensions: 100x100x30 cm. Diameter: 90 cm.

# ROTATION

**WRIST ROLLER FOR FLEXION/EXTENSION - F.42/44**

**WRIST ROLLER FOR FLEXION/EXTENSION - F.42/45**

Varnished wooden roller.  
Changes in the direction of the roller are complemented by the turning of the pawl attached to the side.  
Equipped with a weight stack with guide and support.  
F.42/44 - All components are fitted to a varnished wooden board.  
F.42/45 - Secures directly to the wall.  
The following weights are provided: 3 x 2 kg, 1 x 1 kg and 1 x 0.5 kg.

F.42/45

**PRONATOR-SUPINATOR - F.42/46**

**PRONATOR-SUPINATOR - F.42/47**

Box mechanism with adjustable height, fitted with hand grip and control for resistance exercises.

Fastened on a varnished wooden board. (F.42/46)

Fitted directly on the wall. (F.42/47)

Metal frame with polyester finish.

F.42/47

**STANDARD PRONATOR-SUPINATOR - F.42/47-S**

Rotating handle, equipped with a mechanism to provide resistance training, fitted on a plate secured to a wall.

Metal frame with polyester finish.

**FLEXION/EXTENSION-PRONATOR/SUPINATOR - F.42/49**

Can be fixed to the wall or a table, by making a simple change in the mechanism.

Weight can be moved to a range of fixed points to build up resistance.

Built-in goniometer to measure the angle setting.

Roller and handle in varnished wood.

Metal frame with chrome and polyester finish.

**CHAIR WITH MOVING PEDALS - G.6160**

Especially recommended for the elderly due to its high stability.  
 Equipped with a set of pedals, adjustable both in height and distance from the chair.  
 Metal frame with chrome and polyester finish.  
 Fireproof upholstery.

G.6170

**SET OF ENDURANCE PEDALS - G.6170**

Exercises the foot, knee and hip joints.  
 Heavy base to maximize stability.  
 Pedal action against resistance.  
 Pedal axis mounted on ball bearings.  
 Metal frame with chrome and polyester finish.

**BI-PEDAL BASE WITH RESISTANCE - G.6175**

Can be used on a table, in bed or on the floor.  
 Adjustable pedal for effort required.  
 Metal construction with chrome plating.

G.6180

**ELECTRIC ACTIVE/PASSIVE PEDALIER - G.6180**

Passive pedalling (motor running) at pre-set speeds of: 3, 4, 5 and 6 km/h and time settings of 3, 6, 9 and 12 minutes.  
 Active pedalling (motor off) and reverse pedal system (for pedalling backwards).  
 Screen shows speed, distance and calories consumed.  
 Remote control with speed and time settings.  
 Voltage: 220-240V / 50Hz. For 110-127V / 50-60 Hz transformer is required.

# ROTATION

## ELECTRIC ACTIVE/PASSIVE PEDALIER - G.6185

This model is recommended for users who require a very gentle pedalling action (20 rpm) due to their limited mobility.

Gentle pedal action (with motor) at speeds of between 20 and 65 rpm with programmable timer up to 15 minutes.

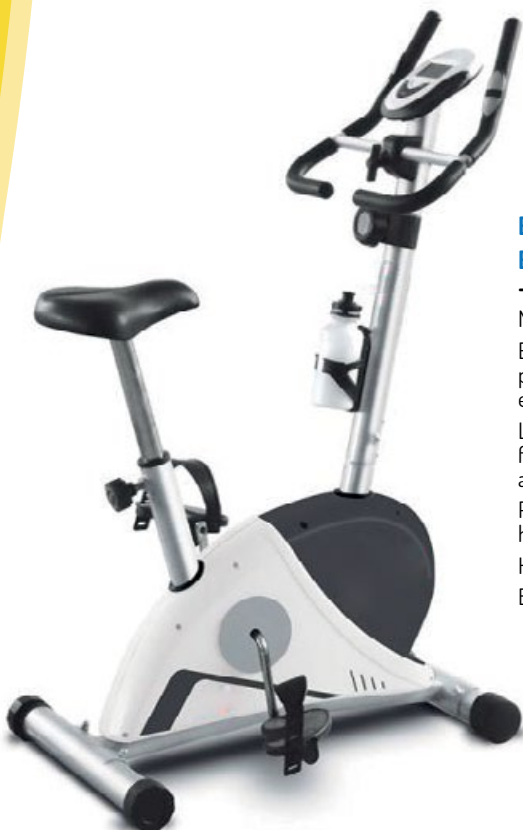

Active pedal action (motor off) and reverse pedal system (for pedalling backwards).

Screen shows speed, distance and calories consumed.

Remote control with speed and time settings.

Includes handgrips, closed pedals for feet and a non-slip mat.

Voltage: 220-240V / 50-60Hz. For 110-127V / 50-60 Hz transformer is required.

## EXERCISE BIKE - F.44-C EXERCISE BIKE WITH ERGOMETER - F.44-D

Magnetic braking system.

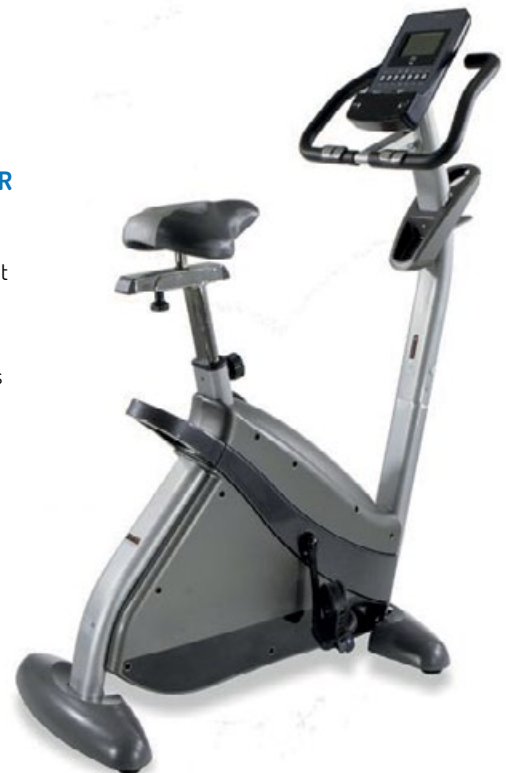

Equipped with 8 precise load adjustment points (manual operation) to select the exercise intensity level.

LCD Monitor. Measures the following functions: time, speed, distance, calories and pulse.

Pulse is measured by contact with the handlebar.

Handlebar is adjustable.

Bottle holder.

### MODEL F.44-C:

Designed for occasional use (training sessions of up to 3 hours a week).

Vertically adjustable seat.

Length: 80 cm. Width: 50 cm. Height: 130 cm  
Weight: 25 kg

Maximum recommended user weight: 85 kg

### MODEL F.44-D:

Designed for training between 7 and 20 hours per week.

Recovery Test (RT).

XXL size anatomical seat that adapts perfectly to any body type.

Seat can be adjusted horizontally and vertically.

Powerful built-in fan that gives a pleasant cooling sensation during exercise.

Fitted with rollers for ease of transportation.

Length: 115 cm Width: 54 cm Height: 153 cm Weight: 53 kg

Maximum recommended user weight: 130 kg

Voltage: 220-240V / 50Hz. For 110-127V / 50-60 Hz transformer is required.

**EXERCISE TABLE FOR HANDS AND FEET - F.42-A**

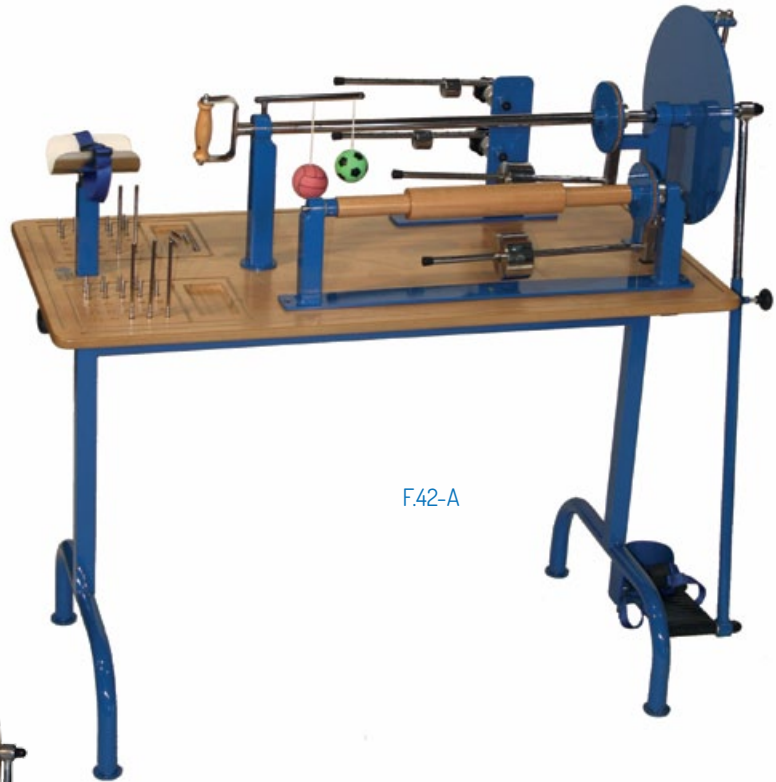

**WOODEN EXERCISE TABLE FOR HANDS AND FEET - F.42-AM**

**STANDARD EXERCISE TABLE FOR HANDS AND FEET - F.42-E**

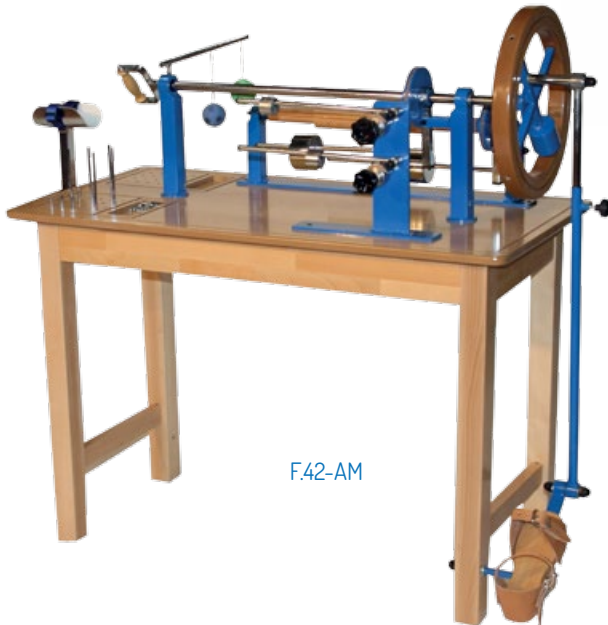

**STANDARD WOODEN EXERCISE TABLE FOR HANDS AND FEET - F.42-EM**

All mechanisms supply progressive resistance for exercises.

Varnished beechwood with its natural colour. Metal frame with polyester finish.

F.42-A

F.42-AM

F.42-E

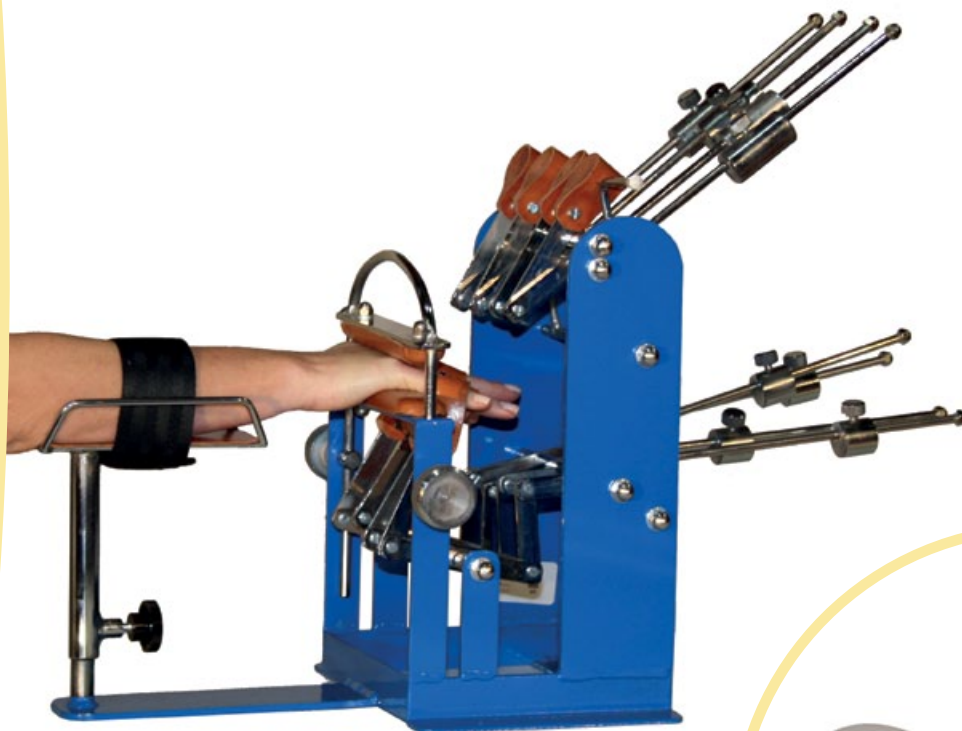

F.42-EM

**Comprises:**

- Canadian board with set of conical sticks, 30 and 140 mm in length.
- Prone/supine mechanism with forearm holder.
- Wrist flexing/extension mechanism (two diameters).
- Finger v finger pinching opposition component.
- Set of balls.
- Reversible, foot flexing/extension mechanism.
- Models F.42-A and F.42-AM are fitted with a fist-forming unit.

# HAND THERAPY

## FINGER EXERCISE MACHINE - F.42/1

### Comprises:

Adjustable support to hold forearm in position.

Padded vertical press for hand protection adjacent to the fingers being moved.

Eight slings (4 for flexing and 4 for extension), equipped with bars with weights for programmable resistance for each metacarpal-phalange articulation required.

Metal frame with chrome and polyester finish.

## THERAPY PUTTY SET - T.O.451-C

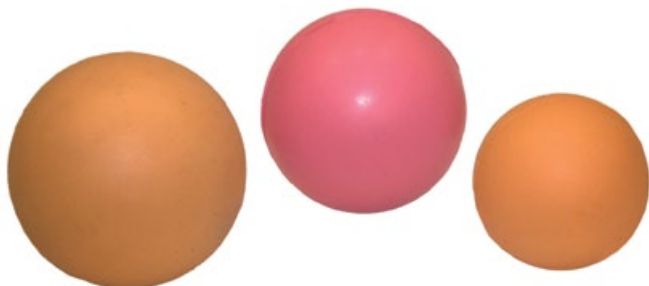

Contains 4 types of putty for hand rehabilitation with a range of resistance: soft, medium, firm and extra-firm. 85 g containers.

**SOFT (YELLOW)** - T.O.451-C1

**MEDIUM (RED)** - T.O.451-C2

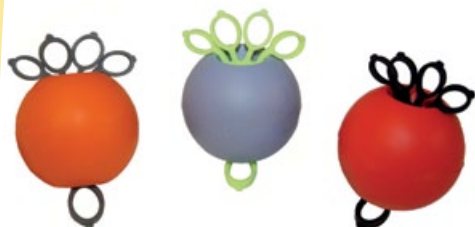

**FIRM (GREEN)** - T.O.451-C3

**EXTRA-FIRM (BLUE)** - T.O.451-C4

## REHABILITATION BALLS - T.O.462

Balls with a range of densities and dimensions (53, 63 and 70 mm thick) to enable the therapist to administer progressive treatment.

## BALL WITH TENSORS:

Recommended for strengthening the nine muscles that close and open the hand.

**SOFT - T.O.465-A**

Early stage rehabilitation. Purple ball, yellow belt.

**MEDIUM - T.O.465-B**

Second-phase rehabilitation. Red ball, black belt.

**FIRM - T.O.465-C**

For rapid rehabilitation. Orange ball, grey belt.

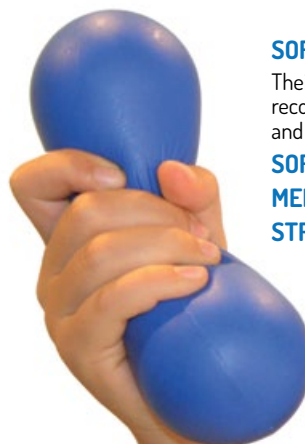

## SOFT GRIP PEANUTS:

Their ergonomic shape facilitates the recovery and rehabilitation of hands and fingers.

**SOFT (BLUE)** - T.O.460-A

**MEDIUM (RED)** - T.O.460-B

**STRONG (GREEN)** - T.O.460-C

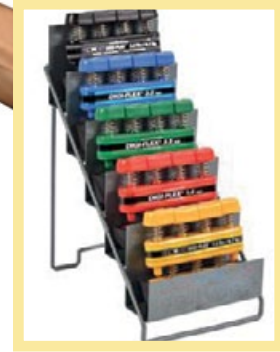

### DIGIFLEX SPRING-LOADED EXERCISERS:

Widely-spaced resistant buttons to isolate each finger for strengthening, without allowing those that are weakened to compensate.

- YELLOW (Resistance 0.7 to 2.3 kg) - J.T.11280**
- RED (Resistance 1.4 to 4.5 kg) - J.T.11281**
- GREEN (Resistance 2.3 to 7.3 kg) - J.T.11282**
- BLUE (Resistance 3.5 to 10.4 kg) - J.T.11283**
- BLACK (Resistance 4.1 to 14.1 kg) - J.T.11284**

**DISPLAY UNIT FOR DIGIFLEX - J.T.11286**

### HANDGRIP STRENGTHENER - T.O.475

The foam hand grips ensure a firm grip for strength training.

### ADJUSTABLE HANDLE:

Simply turn the control button to obtain the tension required.

- LIGHT (Adjustable from 5 to 20 kg Orange) - T.O.477**
- STRONG (Adjustable from 10 to 40 kg Grey) - T.O.478**

T.O.477

T.O.467

### DIGI-EXTEND - T.O.467

For working on the stretching of one or more fingers. Fitted with 4 coloured bands with a range of resistance levels.

### RESISTANCE RINGS:

Two resistance levels in the same ring, offering pleasant dual action flexibility.

Dimensions: 36 cm in diameter. Weight: 450 g.

- LIGHT (YELLOW) - T.O.470-A**
- MEDIUM (RED) - T.O.470-B**
- STRONG (GREEN) - T.O.470-C**
- EXTRA-STRONG (BLUE) - T.O.470-D**

# MOVEMENT ARCS

F.42/48

### WRIST CIRCUMDUCTION SPRING - F.42/48

Varnished wood grip.  
Chrome-plated guide rod.  
Metal frame with polyester finish.

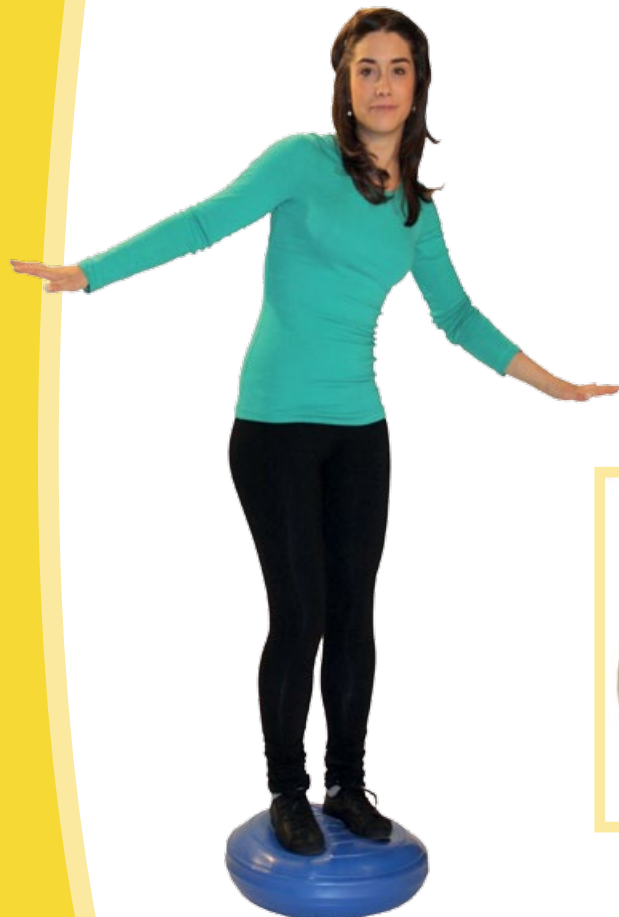

### MOBILITY CIRCUIT - F.42/48-MS

Sliding hoop and board made of varnished wood.  
Chrome-plated guide rod.  
Dimensions: 60 x 30 x 60 cm.

### MOBILITY EXERCISE ARC - F.42/50

Especially recommended for working on hand-eye coordination.  
Comes with 24 geometric figures in a variety of colours.  
Varnished wooden base. Chrome-plated arc.  
Dimensions: 90 x 25 x 65 cm.

### BALANCE AND STIMULATION TRAINER 35 cm. Ø - F.40/35

### BALANCE AND STIMULATION TRAINER 45 cm. Ø - F.40/45

### BALANCE AND STIMULATION TRAINER 60 cm. Ø - F.40/60

Designed for exercises to develop the muscles and sense of balance, improving the sensation of balance, coordination and motor skills.  
Can be used standing up, kneeling or seated for exercises of the foot and ankle.

**BOHELER TABLE BOARD - F.40/40**

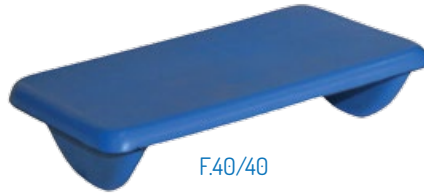

**BOHELER WOBBLE BOARD (35 cm. Ø) - F.40/41**

**BOHELER WOBBLE BOARD (50 cm. Ø) - F.40/41-2**

Recommended for exercising the foot and ankle.

Non-slip PVC surface.

Padded and upholstered. (F.40/41-2)

F.40/40

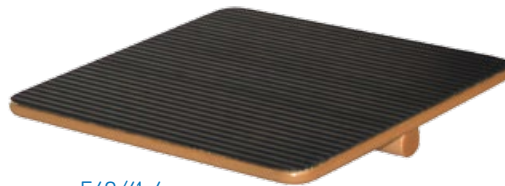

F.40/41

F.40/41-2

F.40/41-3

F.40/41-4

F.40/41-5

**PROPIOCEPTION PLATFORM FOR EXERCISING BOTH FEET (60x7 cm.) - F.40/41-3**

**TILTING PLATFORM (50x50x7 cm.) - F.40/41-4**

**SLOPING PLATFORM (70x46x26 cm.) - F.40/41-5**

Designed to work on various foot and ankle injuries.

Made of wood with non-slip finish.

**ELECTRONIC TREADMILL - F.59**

Designed for training between 7 and 20 hours per week.

Motor 4.0 AC: Delivers speeds of 1 to 22 km/hr with the utmost silence.

Eco-friendly motor (maximizing efficiency and minimizing power consumption).

Electrical inclination of up to 12%.

LED screen with 14 pre-set profiles and 3 intensity levels.

Heart rhythm control (HRC): To select the cardiovascular zones as you are exercising. Automatically controls the exercise intensity level.

Body fat test.

3 customizable profiles.

Pulse meter by contact with the handlebar or wireless with a chest band.

Instant response speed and slope keys.

Powerful built-in fan gives a pleasant cooling sensation during exercise.

Fitted with wheels for transportation and folds away easily.

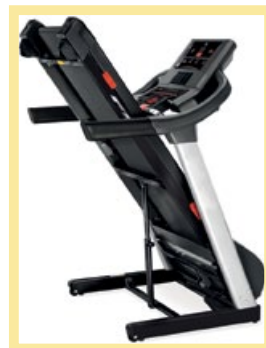

Length: 184 cm Width: 94 cm Height: 149 cm

Weight: 108 kg

Maximum recommended user weight: 130 kg

XXL tread surface: 140 cm x 51 cm

Voltage: 220-240V / 50Hz. For 110-127V / 50-60 Hz transformer is required.

# GETTING AROUND - WALKING

**PARALLEL BARS - F.51**

**PARALLEL BARS WITH SEPARATION PLATE - F.50**

**ADJUSTABLE WIDTH PARALLEL BARS - F.51-B**

**SINGLE-RAIL PARALLEL BARS - F.52**

**PARALLEL BARS WITH FOOT GRILLE - F.53**

The sturdy metal frame and the thick material used, combined with the weighted baseplate, make this highly stable.

The baseplates have been designed to be as close to the floor as possible to make it easy for the user to access the walking area.

Height is adjustable (68-98 cm) via pins concealed in the upper columns. Folds away easily.

Chrome and polyester finishing.

Length: 350 cm. Width: 70 cm.

The F.50 model is fitted with a flat guide separator, which steers and prevents the patient from walking sideways. This can be removed easily.

Model F.51-B - Width adjustable from 60 to 100 cm.

Model F.52: Includes a mono-rail with suspension harness to control and encourage walking for adults plus a flat guide separator, which directs the patients' steps and prevents them from crossing their legs as they walk.

Model F.53 - All of the components that make up the gridded track can be disassembled to facilitate folding of the parallel bars.

F.51

F.50

F.51-B

F.52

F.51-S

**STANDARD PARALLEL BARS - F.51-S**

Adjustable height (68-98 cm) and easy fold away.

The baseplates have been designed to be as close to the floor as possible to make it easy for the user to access the stepping area.

Metal frame with chrome and polyester finish.

Length: 300 cm. Width: 70 cm.

F.53

**STAIRCASE WITH HANDRAIL - F.93**

Consists of three steps, a landing and a ramp.  
 Wooden frame with non-slip surface.  
 Tubular steel handrail with polyester finish.  
 Dimensions: 244x61x37 cm.

**MODULAR STAIRCASES:**

Modular construction for assembly in a range of positions.  
 Height-adjustable handrail.  
 Adjustable support points to ensure the staircase is level.  
 Ramp covered with non-slip material. Metal frame and handrail with chrome and polyester finish.  
 Wooden steps with non-slip protectors (4 steps in the large module and 3 in the small one).  
 Modules are sold separately.

**LANDING MODULE (60x60x63cm.) - F.95-1**

**RAMP MODULE (200x60x63 cm.) - F.95-3**

**LONG STAIRCASE MODULE (80x60x63 cm.).**

Height of steps 15 cm. - **F.95-5**

**SHORT STAIRCASE MODULE (58x60x63 cm.).**

Height of steps 20 cm. - **F.95-7**

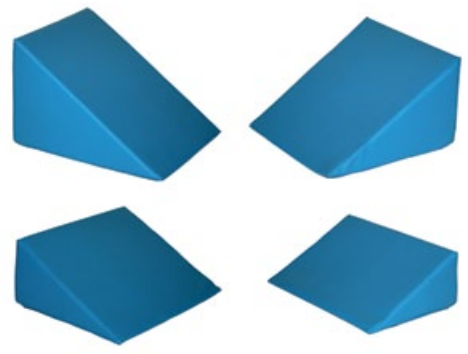

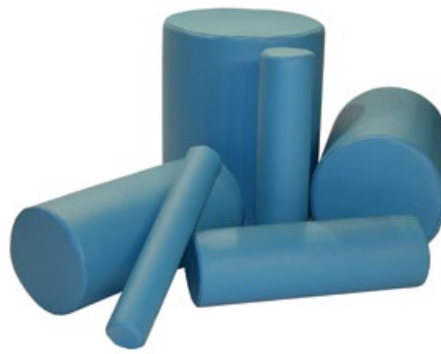

# ADD-ONS AND ACCESSORIES

## ROLLERS, WEDGES AND MATS

### ROLLER CUSHION:

- (65x10 cm.) - F.70-10N
- (65x15 cm.) - F.70-15 N
- (65x20 cm.) - F.70-20 N
- (65x30 cm.) - F.70-30 N
- (65x40 cm.) - F.70-40 N
- (65x50 cm.) - F.70-50 N

### WEDGE CUSHION:

- (30x50x15 cm.) - F.76/15
- (40x50x20 cm.) - F.76/20
- (50x50x30 cm.) - F.76/30
- (60x50x40 cm.) - F.76/40

- WEDGE-SHAPED HEADREST (20x30x10 cm.) - F.75
- ANTI-LORDOSIS HALF-LEG CUSHION (40x25x10 cm.) - F.79
- FACE CUSHION WITH BRACE (25x25x8 cm.) - F.80
- RECTANGULAR PILLOW (40x20x10 cm.) - F.81

Non-crushable sponge material interior.  
Fireproof external upholstery.

- MAT 180x58x1 cm. - F.87
- MAT 180x58x1,8 cm. - F.87-1

Non-slip mat made from closed-cell foam rubber. Environmentally friendly. Suitable for hydrotherapy. Non-liquid absorbent. Antibacterial protection. Fitted with grommets for hanging.

### MATS:

- (200x100x10 cm.) - F.85
- (200x100x5 cm.) - F.85-5
- (200x200x10 cm.) - F.85/B
- (190x100x8 cm.) - F.86

### PRESSED MATS:

- (200x100x10 cm.) - F.85-1
- (200x100x5 cm.) - F.85-6
- (190x100x8 cm.) - F.86-1

Fitted with handles and breathing holes. Inside foam rubber density: 30 or 100 kg (pressed). M2 fireproof upholstery.

### AIREX NON-SLIP MAT:

- 200 x 100 x 2,5 cm. - F.89/X
- 185 x 60 x 1,5 cm. - F.89/Z

Made from closed cell foam rubber. Light, non-slip, easy to clean and roll up.

Anti-bacterial and anti-mould treatment.

Airex foam is completely impermeable to water, and the mats do not absorb moisture or attract dust or dirt.

## MIRRORS

**MOBILE MIRROR WITH GRIPS - F.90**

**MOBILE MIRROR - F.90-1**

**SQUARE MIRROR WITH HANDLES - F.90-2**

**SQUARE MOBILE MIRROR - F.90-3**

Tilting mirror on a metal frame.

Fitted with grips at the front to provide support while allowing the patient to move it along the floor like a Zimmer frame. (F.90 and F.90-2).

The squares are etched by sandblasting. (F.90-2 and F.90-3)

Metal frame with polyester cover.

**MIRRORS MADE TO MEASURE, PLAIN OR WITH SQUARES, TO BE MOUNTED DIRECTLY ON THE WALL (Enquire for details)**

F.90

F.90-3

## STOOLS

**STOOL WITH:**

**1 STEP - C.4-4**

**2 STEP - C.4-5**

**3 STEP - C.4-6**

Step with non-slip PVC coating.

Metal structure with chrome finish.

**DE-LUXE ERGONOMIC STOOL - F.36**

**SWIVEL CHAIR - F.37**

**SWIVEL CHAIR WITH BACKREST - F.37/1**

**HIGH CHAIR WITH FOOTREST AND BACKREST - F.38/1**

Adjustable height via a gas spring.

Metal structure with chrome finish.

Fireproof upholstery.

Five casters (can be supplied fixed to order).

F.37 and F.37/1 - Adjustable: 55-75 cm.

F.38/1 Adjustable: 60-87 cm.

**PHYSIOTHERAPY CHAIR - F.39**

Comfortable structure.

F.36

F.37/1

F.37

# ADD-ONS AND ACCESSORIES

## ACCESSORIES

- TWO-PANEL FOLDING SCREEN - C.4-2**
- THREE-PANEL FOLDING SCREEN - C.4-3**

Each screen panel folds independently, made from plastic-coated fabric.  
Fitted with 50 mm rotating wheels.  
Chrome steel frame.

### SET OF SHOELIFTS - C.5

Made from beech wood on a metal base.

Includes the following insoles: 2 x 2 cm, 1 x 1.5 cm, 1 x 1 cm and 1 x 0.5 cm.

### GONIOMETERS:

- SMALL JOINTS - C.8/C**
- LARGE JOINTS - C.8/L**

Different sizes and shapes for measuring any joint easily.  
Stainless steel construction.

**SNAP HOOK - G.17000**

**S SHAPES - G.18122**

**TIGHTENER - SYNTHETIC MATERIAL - G.18120**

**WOODEN TIGHTENER PEG - G.18121**

**ROPE FOR PULLEYS - G.18123**

**DOUBLE ROLLER NYLON PULLEY - G.18200**

**HANDGRIP - G.17001**

Accessory for working with pulleys and pulley frames.

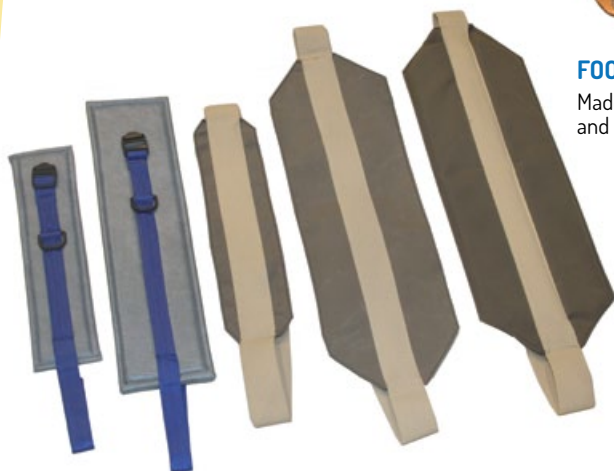

**FOOT STRAP - G.17002**

Made of leather. Metal buckle and ring.

**PULLEY GRIP MITT - G.17003**

Helps the user to keep a firm grip during exercises.

**PELVIC STRAP - G.18020**

**PADDED PELVIC STRAP - G.18020-1**

**KNEE STRAP - G.18021**

**PADDED KNEE STRAP - G.18021-1**

**PADDED ANKLE STRAP - G.18022**

**PADDED THIGH STRAP - G.18022-1**

For traction or suspension exercises.

**TWIN-JAW BUCKLE**

**5 cm. - G.18001**

**10 cm. - G.18002**

**15 cm. - G.18003**

**20 cm. - G.18004**

For working with straps; 5-20 cm wide.  
Chrome finish.

**HAND SLING - G.18030**  
**FOOT SLING - G.18030-1**  
**FOREARM AND LEG SLING - G.18031**  
**ARM AND THIGH SLING - G.18032**  
**TORSO SLING - G.18033**

G.18860

G.18865

**THORACIC TRACTION BELT - G.18860**  
**PELVIC TRACTION BELT - G.18865**

Adjustable weight and length.

G.18300-1

G.18300

**PADDED HEAD SLING - G.18300**  
**PLAIN HEAD SLING - G.18300-1**  
**TRACTION SPREADER BAR FOR HEAD SLING - G.18305**

Simple chinstrap for cervical traction exercises.

**WEIGHTED SACKS:**

- 1/4 Kg. - G.18700-250**
- 1/2 Kg. - G.18700-500**
- 1 kg. - G.18701**
- 2 kg. - G.18702**
- 3 kg. - G.18703**
- 4 kg. - G.18704**
- 5 kg. - G.18705**
- 10 kg. - G.18710**

Colour-coded with weight of sandbag engraved on the outside.  
 Protected with double chamber.  
 Made from fireproof material.

**SPRINGS:**

- 2,5 Kg. - G.18800**
- 5 Kg. - G.18801**
- 7,5 Kg. - G.18802**
- 10 Kg. - G.18803**
- 12,5 Kg. - G.18804**
- 15 Kg. - G.18805**
- 17,5 Kg. - G.18806**
- 20 Kg. - G.18807**
- 25 Kg. - G.18808**

Made from cadmium steel precision wire, with double rings and dog clips at each end.  
 Interior fitted with a stop to prevent loss of tension.

**BARBELL WEIGHTS:**

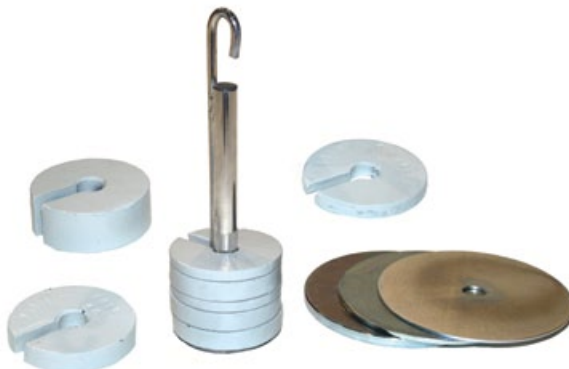

- 1/2 kg. - G.18400**
- 1 kg. - G.18401**
- 2 kg. - G.18402**
- 3 kg. - G.18403**

**GROOVED WEIGHTS:**

- 1/2 Kg. - G.18500**
- 1 Kg. - G.18501**
- 2 Kg. - G.18502**

**WEIGHT RACK - G.18510**

Metal construction with chrome plating.  
 Weights not included.

# HYDROTHERAPY

## MOBILE WHIRLPOOLS:

**(60L) - G.18951/A**

**(80L) - G.18951/B**

**(100L) - G.18951/C**

**(170L) - G.18951/D**

**(320L) - G.18951/E**

## ADJUSTABLE HEIGHT:

**(60L) - G.18951/A-1**

**(80L) - G.18951/B-1**

Constructed entirely from AISI 316 grade stainless steel.

Adjustable turbine height and pressure regulator to regulate the bubbles.

Thermometer for water temperature.

The unit is fully mobile (fitted with 4 wheels, 2 with brakes).

The height can be adjusted by means of a lifting mechanism, which is helpful for treatment of the lower and upper limbs (G.18951/A-1 y G.18951/B-1).

Motor: 0.75 AC - 0.55 KW - 3.000 RPM - 550W - 3,5A.

Water flow 220 l / m.

IP55 protection. Class F insulation. Class B temperature rising. Hospital-grade power supply lead.

Voltage: 220-240V / 50Hz. On request 220-240V / 60Hz, 110-127V / 50-60Hz.

Measurements in cm.: Length x Width x Depth.

Class II Product.

**EC Certificate Ila n° ES13/15115.**

BASIN DIMENSIONS:	G.18951/A & G.18951/A-1	G.18951/B & G.18951/B-1	G.18951/C	G.18951/D	G.18951/E
	Capacity: 60 litres	Capacity: 80 litres	Capacity: 100 litres	Capacity: 170 litres	Capacity: 320 litres
	64 x 33 x 38	71 x 38 x 46	71 x 38 x 53	81 x 38 x 64	122 x 51 x 64

Whirlpool turbine with vertical height adjustment, as well as adjustment of direction of agitation and water flow.

Thermometer with dual scale (Celsius and Fahrenheit).

Stainless steel whirlpools baths with satin finish.

Rounded edge for comfort.

Castor wheels with brakes.

**LIFT FOR WHIRLPOOLS - G.18951/T**

Valid for G.18951/A and G.18951/B models.

**HYDROTHERAPY SEAT - G.18960**

Specially designed for treatments involving contrast baths and whirlpools. Fixed seat, backrest and armrests (not adjustable) made from ABS material. Frame made from steel tubing with black enamel coating. 5 removable feet to adjust level (wheels optional). Hermetically sealed gas spring. Height can be adjusted from 54 to 80 cm.

# HYDROTHERAPY

## HUBBARD TANK - G.18957

### HUBBARD TANK WITH SKIMMER - G.18957-A

Constructed entirely from AISI 316 grade stainless steel.

Fitted with handrails along the sides at several points.

Fitted with 6 adjustable feet to keep it level and reduce vibrations.

With overflow and drain outlet.

Thermometer in degrees °C and F° to monitor the temperature.

Equipped with two height-adjustable supports to attach two hydromassage turbines, cat. no. G.18957/3.

Dimensions: 260 x 195 x 90 cm. Max. capacity: 1600L.

Class II Product.

**EC Certificate IIa n° ES13/15115.**

**MODEL G.18957-A:** This model is required if you intend to install the water maintenance unit, cat. no. G.18957/4.

Includes skimmer, grille filter, 2 jet nozzles and 2 suction nozzles for water re-circulation. Includes a fill valve and thermostatic mixing valve (flow rate: 180 l/m).

### OPTIONAL ACCESSORIES:

#### HEADREST - G.18957/1

Adjustable height.

Made from stainless steel with plastic-coated sling.

#### FILLING UNIT - G.18957/2

Includes cascade-shaped tap for cold/hot water and showers.

#### HYDROMASSAGE TURBINE - G.18957/3

Adjustable height. With pressure control to regulate bubbles. Water flow rate: 220 l/m.

Motor: 0.75 AC - 0.55 KW - 3000 RPM - 550W - 3,5A.

Voltage: 220-240V / 50Hz. On request 220-240V / 60Hz.

IP55 protection. Class F insulation. Class B temperature rising. Hospital-grade power supply lead.

#### WATER MAINTENANCE UNIT - G.18957/4

Compact water filtration unit (mounted on a platform measuring 120 x 100 x 100 cm) comprising:

- Self-priming pump 1/3 HP single phase.
- Chlorine regulating pump and chlorine dosing valve.
- 3 kW electric exchanger.
- Sand filter, manual selecting valve.
- pH dosing pump.
- Rx/pH control and regulating panel.
- Single-phase electric protection board.
- Voltage: 220-240V / 50Hz. Other voltages on request.

**CONTRAST BATHS:**

**ARMS - G.18953**

**ARMS WITH THERMOMETER - G.18953/A**

**LEGS - G.18954**

**LEGS WITH THERMOMETER - G.18954/A**

Made from AISI 304 stainless steel.

Two basins, each fitted with separate hot and cold water taps.

Each basin is fitted with a thermometer for instant temperature control. (G.18953/A and G.18954/A).

Overflow and drainage in the same unit.

Dimensions: 92 x 61 cm (width x depth), Height: 56cm (legs) or 90 (arms).

G.18953/A

G.18954

# THERMOTHERAPY

## COMPRESS HEATER:

### MEDIUM - G.18912/M

### LARGE - G.18912/L

Constructed entirely from AISI 304 grade stainless steel.

Screen temperature display. Adjustable from  $-45^{\circ}$  to  $+130^{\circ}\text{C}$ .

Mobile (fitted with handles and wheels).

Heater automatically switches OFF if the thermostat probe breaks.

Voltage: 220-240V / 50-60Hz. On request 110-127V / 50-60Hz.

IP20 protection for the entire apparatus and IP52 for the front section.

L

M

### G.18912/M

56cm wide x 56cm deep x 86cm long.

Capacity: 8 different-sized compresses or 16 small compresses (15 x 15 cm / 13 x 19 cm.).

Contains 8 compresses and rack for compresses:

2 uds. (15x15 cm.) - G.18926

2 uds. (13x19 cm.) - G.18927

2 uds. (19x29 cm.) - G.18928

2 uds. (24x19 cm.) - G.18929

### G.18912/L

62cm wide x 56cm deep x 86cm long.

Capacity: 12 different-sized compresses or 24 small compresses (15 x 15 cm / 13 x 19 cm.).

Contains 12 compresses and rack for compresses:

3 uds. (15x15 cm.) - G.18926

3 uds. (13x19 cm.) - G.18927

3 uds. (19x29 cm.) - G.18928

3 uds. (24x19 cm.) - G.18929

**COMPRESS COOLER:**

**MEDIUM – G.18918/M**

**LARGE – G.18918/L**

Fitted with rack on the inside for storing compresses from cold to an appropriate temperature.

Adjustable temperature settings: from -32° to -15°C.

Voltage: 220-240V / 50Hz. On request 110-127V / 50-60Hz.

G.18918/M

G.18918/L

**G.18918/M** – 62.4 x 55.3 x 63.1 cm. (70 L)

Capacity: 12 different-sized compresses or 32 small compresses (15 x 15 cm).

Contains 12 compresses and rack for compresses:

3 uds. (15x15 cm.) – G.18926

3 uds. (13x19 cm.) – G.18927

3 uds. (19x29 cm.) – G.18928

3 uds. (24x19 cm.) – G.18929

**G.18918/L** – 62.4 x 55.3 x 85.1 cm (98 L)

Capacity: 20 different-sized compresses or 50 small compresses (15 x 15 cm).

Contains 20 compresses and rack for compresses:

5 uds. (15x15 cm.) – G.18926

5 uds. (13x19 cm.) – G.18927

5 uds. (19x29 cm.) – G.18928

5 uds. (24x19 cm.) – G.18929

**HOT/COLD COMPRESS  
(45x20 cm.) – G.18925**

With 5 segments. Velcro fastener.

**HOT/COLD COMPRESSES:**

**KNEE (15x15cm.) – G.18926**

**ANKLE (13x19cm.) – G.18927**

**THIGHS (19x29cm.) – G.18928**

**ABDOMEN/BACK (24x19cm.) – G.18929**

Adapt to any body shape.

No coverings required.

# THERMOTHERAPY

## PARAFFIN BATH (30L.) - G.18907

Paraffin heater using the "bain-marie" method.  
 Mobile (four twin casters with brakes).  
 Both tank interior and basin exterior made from AISI 304 stainless steel.  
 Insulating wooden rim.  
 Safety mechanism to prevent boiling.  
 Thermostat: range from 0 to 90°.  
 Water level gauge for the internal basin visible from the side.  
 Front panel equipped with on/off switch, pilot switch and thermostat.  
 Maximum filling capacity 30L. Recommended: 22 liters.  
 Convenient paraffin and water emptying system via drain outlets on the underside of the basin.  
 Voltage: 220-240V / 50-60Hz. On request 110-127V / 50-60Hz.  
 Class II Product.  
**EC Certificate Ila n° ES13/15115.**

### OPTIONAL:

#### REMOVABLE TROLLEY FOR PARAFFIN BATH - G.18907/1

Fitted with two trays, two handles and four wheels. Stainless steel construction.

#### PARAFFIN FILTER - G.18907/2

Filter impurities from the paraffin, keeping it clean for longer.

Stainless steel construction, fitted with handles.

#### 1 kg. PARAFFIN WAX BAR - G.18910

## PARAFFIN BATH (2L.) - G. 18908

Fitted with on/off switch and power on indicator light.  
 Capacity: 2 litres.  
 Includes: Paraffin, 100 plastic bags and 2 mitts.  
 Voltage: 220-240V / 50-60Hz. For 110-127V / 50-60 Hz transformer is required.

## INFRA-RED LAMP - G.18900

### INFRA-RED LAMP WITH TIMER - G.18900-A

Multi-directional focus. Anodized aluminium reflective screen.  
 Adjustable height. Moveable base fitted with 5 wheels.  
 Equipped with timer from 0 to 60 minutes, programmable with automatic cut-off.  
 (Model G.18900-A).  
 Voltage: 220-240V / 50-60Hz. On request 110-127V / 60Hz  
 Class II Product.  
**EC Certificate Ila n° ES13/15115.**

### TABLE-TOP INFRA-RED RAY LAMP - G.18901

Voltage: 220-240V / 50-60Hz. For 110-127V / 50-60 Hz transformer is required.

**ULTRASOUND UNIT 2 CHANNELS (200 PROG.) - EL.29-UT**  
**ULTRASOUND UNIT 1 CHANNEL (200 PROG.) - EL.30-UT**  
**ULTRASOUND UNIT 1 CHANNEL (50 PROG.) - EL.31-UT**

Multi-frequency head operates at 1.3 MHz with contact control, waterproof for administering treatments under water.

Output of 0-2 Wcm<sup>2</sup> in continuous mode and 0-3 Wcm<sup>2</sup> in pulse mode.

Models EL.29-UT and EL.30-UT: Option to connect the unit to electro-therapy units EL.19-EL, EL.20-EL and EL.22-EL for combined applications.

Model EL.31-UT: Option to connect the unit to electro-therapy unit EL.18-EL for combined applications.

Voltage: 220-240V / 50-60Hz. On request 110-127V / 50-60Hz.

EL.29-UT

**EL.29-UT and EL.30-UT**

Memory card reader. 200 programs in memory + 200 free programs on each card.

**EL.31-UT**

Memory card reader. 50 programs in memory + 50 free programs on each card.

**Accessories included**

**EL.29-UT:**

2 head (1.3 MHz) with an emitter area of 5cm<sup>2</sup> with contact sensor.  
 1 Smart Card

**Accessories included**

**EL.30-UT:**

1 head (1.3 MHz) with an emitter area of 5cm<sup>2</sup> with contact sensor.  
 1 Smart Card

**Accessories included**

**EL.31-UT:**

1 head (1.3 MHz) with an emitter area of 5cm<sup>2</sup> with contact sensor.

EL.30-UT

EL.31-UT

To see more technical specifications and optional accessories please visit our website: [www.ortotecsa.com](http://www.ortotecsa.com)  
 Software of equipment available in: Spanish, English, French, Italian and German.

# ELECTRO-STIMULATORS

## PORTABLE TENS UNIT - 2 CHANNELS - EL.05-TN

2 independent channels.

Supplied with 12 pre-defined programs, 3 customizable programs and 1 program for Ionophoresis.

Dynamic stimulation. Impulse duration 70-300  $\mu$ s.

Protection system to prevent the patient from changing any parameters.

Supplied with 4 AAA batteries.

## ELECTRO-STIMULATOR + PORTABLE TENS - EL.10-ETN

2 channels. 5 pre-set protocols (3 of which are treatments for incontinence). 2 wave forms (symmetrical or asymmetrical biphasic wave).

Easy-to-read LCD screen and digital keyboard.

Includes timer and protection system that prevents the patient from changing any parameters.

Includes: 2 electrode connection leads, 1 bag containing 4 reusable adhesive electrodes and 4 AA batteries.

## ELECTRO-STIMULATION 2 CHANNEL (23 WF.) - EL.18-EL

## ELECTRO-STIMULATION 2 CHANNEL (21 WF.) - EL.19-EL

## ELECTRO-STIMULATION 2 CHANNEL (26 WF.) - EL.20-EL

## ELECTRO-STIMULATION 2 CHANNEL (36 WF.) - EL.21-EL

## ELECTRO-STIMULATION 4 CHANNEL (26 WF.) - EL.22-EL

AC and DC operating modes.

I/T curve with the capability to compare the values at the start and finish of the treatment.

Voltage: 220-240V / 50-60Hz. On request 110-127V / 50-60Hz.

### EL.18-EL

2 independent channels. 23 wave forms (low and medium frequency).

50 programs in memory + 50 free programs on each card.

### EL.19-EL

2 independent channels. 21 wave forms (low frequency).

Memory card reader. 80 programs in memory + 200 free programs on each card.

### EL.20-EL

2 independent channels. 26 wave forms (low and medium frequency).

Memory card reader. 80 programs in memory + 200 free programs on each card.

### EL.21-EL

2 independent channels. More than 36 wave forms (Low and Medium frequencies)

High Voltage, Microcurrents, APS and others).

Memory card reader. 80 programs in memory + 200 free programs on each card.

### EL.22-EL

4 independent channels. 26 wave forms (low and medium frequency).

Memory card reader. 80 programs in memory + 200 free programs on each card.

Option to connect this equipment with the ultrasound unit (EL.29-UT and E1.30-UT) for combined applications. (Except model EL.21-EL).

Option to connect this equipment with vacuum therapy unit (EL.75-VC) for combined applications.

To see more technical specifications and optional accessories please visit our website: [www.ortotecs.com](http://www.ortotecs.com)  
Software of equipment available in: Spanish, English, French, Italian and German.

EL19-EL + EL20-EL

EL18-EL

EL21-EL

EL22-EL

**Accessories included**

**18-EL:**

- 4 electrodes: 60 x 85mm.
- 4 sponge covers for electrodes: 60 x 85mm.
- 4 electrodes: 50 x 50mm.
- 4 sponge covers for electrodes: 50 x 50mm.
- 2 elastic straps: 1000 mm.
- 2 elastic straps: 600mm.
- 1 electrotherapy output cable.

**Accessories included**

**EL19-EL + EL20-EL + EL21-EL:**

- 1 Smart Card
- 4 electrodes: 60 x 85mm.
- 4 sponge covers for electrodes: 60 x 85mm.
- 4 electrodes: 50 x 50mm.
- 4 sponge covers for electrodes: 50 x 50mm.
- 2 elastic straps: 1000 mm.
- 2 elastic straps: 600mm.
- 1 electrotherapy output cable.

**Accessories included**

**EL22-EL:**

- 1 Smart Card
- 8 electrodes: 60 x 85mm.
- 8 sponge covers for electrodes: 60 x 85mm.
- 8 electrodes: 50 x 50mm.
- 8 sponge covers for electrodes: 50 x 50mm.
- 4 elastic straps: 1000 mm.
- 4 elastic straps: 600mm.
- 2 electrotherapy output cable.

 Software of equipment available in: Spanish, English, French, Italian and German.

# COMBINED THERAPY

## COMBINED UNIT ELEC.+ULT. (16 WF.) – EL.24-ELUT

## COMBINED UNIT ELEC.+ULT. (26 WF.) – EL.25-ELUT

## COMBINED UNIT ELEC.+ULT.+LAS. (30 WF.) – EL.26-ELUT

This equipment can be used to administer electrotherapy (2 channels) and ultrasound at 1.3 MHz (1 channel) in combination or separately. Model EL.26-ELUT also combines laser (1 output).

Multi-frequency head operates at 1.3 MHz with contact control, waterproof for administering treatment under water.

Option to connect the unit to the vacuum therapy unit (EL. 75-VC) for combined applications (Models EL.24+EL.25).

Voltage: 220-240V / 50-60Hz. On request 110-127V / 50-60Hz.

EL.24-ELUT

### Electrotherapy:

AC and DC operating modes.

I/T curve with the capability to compare the values at the start and finish of the treatment.

Distribution of all medium and low frequency currents.

### Ultrasound:

Output of 0-2 Wcm<sup>2</sup> in continuous mode and 0-3 Wcm<sup>2</sup> in pulse mode.

### Laser:

905 nm.

EL.25-ELUT

### EL.24-ELUT

16 wave forms (low and medium frequency).

Over 500 suggested therapeutic applications (electro-therapy and ultrasound).

### EL.25-ELUT

26 wave forms (low and medium frequency).

Over 100 suggested therapeutic applications (electro-therapy, ultrasound, combined protocols).

Memory card reader. 100 programs in memory + 200 free programs on each card.

### EL.26-ELUT

30 wave forms (low and medium frequency).

Over 400 suggested therapeutic applications (electrotherapy-ultrasound, ultrasound-combined protocols).

Usb Key 4Gb. 400 programs in memory + 400 free programs on each card.

EL.26-ELUT

### Accessories included

#### EL.24-ELUT:

- 1 multi-frequency head at 1/3 MHz and 5 cm<sup>2</sup> emitter area with contact sensor.
- 4 electrodes: 60 x 85mm.
- 4 sponge covers for electrodes: 60 x 85mm.
- 4 electrodes: 50 x 50mm.
- 4 sponge covers for electrodes: 50 x 50mm.
- 2 elastic straps: 1000 mm.
- 2 elastic straps: 600 mm.

### Accessories included

#### EL.25-ELUT:

- 1 Smart Card
- 1 multi-frequency head at 1/3 MHz and 5 cm<sup>2</sup> emitter area with contact sensor.
- 4 electrodes: 60 x 85mm.
- 4 sponge covers for electrodes: 60 x 85mm.
- 4 electrodes: 50 x 50mm.
- 4 sponge covers for electrodes: 50 x 50mm.
- 2 elastic straps: 1000 mm.
- 2 elastic straps: 600 mm.

### Accessories included

#### EL.26-ELUT:

- 1 USB Key 4 Gb
- 1 multi-frequency head at 1/3 MHz and 5 cm<sup>2</sup> emitter area with contact sensor.
- 4 electrodes: 60 x 85mm.
- 4 sponge covers for electrodes: 60 x 85mm.
- 4 electrodes: 50 x 50mm.
- 4 sponge covers for electrodes: 50 x 50mm.
- 2 elastic straps: 1000 mm.
- 2 elastic straps: 600 mm.
- 1 laser probe 100 mW
- 2 Laser safety goggles
- 1 Interlock

Software of equipment available in: Spanish, English, French, Italian and German.

## MODULAR MULTI-THERAPY UNIT – EL.61-ML

Innovative design. This unit has been developed to be compact and lightweight and the result is a portable multi-therapy apparatus that can be built to cater for the needs of each user. Thanks to its modular design, it can be expanded at any time.

Case made from ABS (Acrylonitrile-Butadiene-Styrene) – a light and sturdy material.

Software can be updated via USB 4 Gb (Included).

Size: 61 x 37 x 23 cm.

Voltage: 220-240V / 50-60Hz. On request 110-127V / 50-60Hz.

## BATTERY (not included) – EL.61-ML/1

Rechargeable battery, lasts 4-5 hours.

Percentage charge meter software.

**Modular system means 1 or more of the following technologies can be incorporated into a single carrying case:**

## TECAR THERAPY MODULE – EL.61-ML/7

Operating modes: Capacitive and resistive.

Output power up to 200W.

Emission mode: Continuous or pulsed.

**Includes:** 1 Resistive probe, 1 Resistive electrodes kit (30-50-70 mm Ø), 1 Capacitive probe, 1 Capacitive electrodes kit (30-50-70 mm Ø), 1 Conductive cream 1000 ml. and 1 Stainless steel plate.

## ULTRASOUND MODULE – EL.61-ML/2

1 channel.

Multi-frequency 1.3 MHz head with built-in contact sensor.

Automatic head recognition.

Emission mode: Continuous or pulsed.

**Includes:** 1 ultrasound probe 1.3 MHz, 5 cm<sup>2</sup> – self-calibrating and water-resistant.

## ELECTROTHERAPY MODULE – EL.61-ML/3

### ELECTROTHERAPY MODULE PRO – EL.61-ML/6

2 independent channels. 2 channel synchronization function.

EL.61-ML/3: 25 wave forms low and medium frequency.

Operation: CV – Constant voltage, CC – Constant Current.

EL.61-ML/6: 28 wave forms low and medium frequency.

Operation: CV – Constant voltage, CC – Constant Current, Micro currents /APS/HPVC/NMES.

**Includes:** One 2-channel cable (2mm), four 50 x 50 rubber electrodes, four foam rubber covers, four 60 x 85 rubber electrodes, four 60 x 85mm foam rubber covers, two 1000 x 50mm elastic bandages and two 600 x 50mm elastic bandages.

## LASER THERAPY MODULE (905 nm) – EL.61-ML/4

1 channel.

Frequency: 100 Hz to 10,000 Hz.

Continuous or pulsed emission.

Automatic yield calculation (in Joules).

The generator can control monodiodic or multidiodic heads.

Automatic head recognition.

**Includes:** One 25 mW laser probe with contact sensor, One safety glasses and one security key.

## MAGNETIC THERAPY MODULE – EL.61-ML/5

1 channel (2 applicators).

Maximum power: 100 Gauss.

Maximum power: 200 Hz.

Continuous or pulsed emission modes.

**Includes:** One emissions control magnet for magnet fields, pair of applicators and two 1000 x 50 mm elastic bandages.

To see more technical specifications and optional accessories please visit our website: [www.ortotecsa.com](http://www.ortotecsa.com)

Software of equipment available in: Spanish, English, French, Italian and German.

# MICROWAVES & VACUUM THERAPY

EL.39-MS

## MICROWAVES UNIT (100 PROG.) - EL.39-MS

### MICROWAVES UNIT (50 PROG.) - EL.40-MS

Continuous and pulsed emission.

Power range 0-250 W.

Option to connect the 3-D irradiator for treatments of the shoulder and neck as well as the spinal column, and the rectangular irradiator for applications in extensive areas such as the lower and upper parts of the body, the spinal column and for the treatment of brachialgia (arm pain).

EL.39-MS: Memory card reader. 100 programs stored in memory and space for 200 more programs in memory.

EL.40-MS: 50 programs stored in memory and space for 50 more programs in memory.

Voltage: 220-240V / 50-60Hz. On request 110-127V / 50-60Hz.

#### Accessories included

##### EL.39-MS:

- 1 irradiation supporting arm.
- 1 circular irradiator 17 cm diameter.
- 1 output cable.
- 1 Smart Card

#### Accessories included

##### EL.40-MS:

- 1 irradiation supporting arm.
- 1 circular irradiator 17 cm diameter.
- 1 output cable

EL.40-MS

## VACUUM THERAPY UNIT - EL.75-VC

2-channel vacuum therapy unit for use with electro-therapy units.

Suction caps with automatic fasteners.

Adjustable lowering and suction frequency.

Vacuum circuit is self-regulating with automatic pump cut-off.

Suction power: 0-0.6 Bars.

Frequency: 1 to 100 impulses/minute.

Voltage: 220-240V / 50-60Hz. On request 110-127V / 50-60Hz.

#### Accessories included:

- 4 vacuum cups: 60 mm Ø
- 8 sponges: 60 mm Ø
- 2 red-white output cables
- 2 black-blue output cables
- 1 Electrotherapy connection cable

To see more technical specifications and optional accessories please visit our website: [www.ortotecs.com](http://www.ortotecs.com)

Software of equipment available in: Spanish, English, French, Italian and German.

**SHORT-WAVE CONTINUOUS AND PULSED EMISSION ELECTROTHERAPY UNIT (100-300 Hz) - EL.71-0C**

The unit is suitable for both heat therapy and non-heat therapy treatments. It is used in continuous mode for deep heat effect and in pulse mode to activate the molecules without a heat effect (e.g. in cases involving inflammation or in the presence of osteosynthesis material). Its modern conception and great reliability mean that it can be used with any type of short-wave electrodes. Its design is consistent with the latest worldwide safety and radio frequency standards.

Digital power output reading in both continuous and pulse mode.  
Microprocessor-controlled patient safety system.

**Accessories included:**

- 2 adjustable arms to support the electrodes
- 2 Disc electrodes with Ø130 mm.
- 2 Flexible electrodes 12 x 18 cm.
- 2 electrode connecting cables
- 2 Felt padding cushions 12 x 18 cm.
- 1 Velcro sash 1m.

EL.81-CH

**SHOCKWAVES UNIT (4 BARS - 15 Hz) - EL.80-CH**

**SHOCKWAVES UNIT (5 BARS - 20 Hz) - EL.81-CH**

20 protocols in memory.

Internal memory with memory capacity of up to 200 programs.

Voltage: 220-240V / 50-60Hz. On request 110-127V / 50-60Hz.

EL.80-CH: Pressure up to max. 4 bars. Frequency up to 15 Hz.

EL.81-CH: Pressure up to max. 5 bars. Frequency up to 20 Hz.

**Accessories included**

**EL.80-CH:**

- 1 SWT applicator
- 1 x 9 mm multi-focused transmitter
- 1 x 15mm focused transmitter
- 115 mm multi-focused transmitter
- 1 Gel 260 ml
- 14 Gb USB key

**Accessories included**

**EL.81-CH:**

- 1 SWT applicator
- 1 x 9 mm multi-focused transmitter
- 1 x 15 mm focused transmitter
- 115 mm multi-focused transmitter
- 1 Gel 260 ml
- 14 Gb USB key
- 1 interchangeable kit

EL.80-CH

Software of equipment available in: Spanish, English, French, Italian and German.

# LOW POWER LASER

**LASER 1 CHANNEL (50 PROG.) - EL.43-LS**  
**LASER 2 CHANNELS (200 PROG.) - EL.44-LS**  
**LASER 1 CHANNEL (200 PROG.) - EL.45-LS**

Frequency can be regulated from 200 to 10.000 Hz.  
 Wavelength 905 nm.

Automatic energy output calculation in Joules.

Probe with automatic contact sensor.

A range of optional applicators can be connected (monodiode or multi-diode) up to a maximum power output of 800 mW.

Voltage: 220-240V / 50-60Hz. On request 110-127V / 50-60Hz.

**EL.43-LS**

1 channel.

50 suggested therapeutic applications. Internal memory with memory capacity of up to 50 programs.

**EL.44-LS**

2 independent channels. Ability to work with 2 probes of different power and frequency.

Memory card reader. 85 suggested therapeutic applications. 200 programs stored in memory and space for 200 more programs in memory.

**EL.45-LS**

1 channel.

Memory card reader. 85 suggested therapeutic applications. 200 programs stored in memory and space for 200 more programs in memory.

EL.43-LS

**Accessories included**

**EL.43-LS:**

- 125 mW probe with contact sensor.
- 2 pairs laser protection glasses
- 1 security key

**Accessories included**

**EL.44-LS + EL.45-LS:**

- 125 mW probe with contact sensor.
- 2 pairs laser protection glasses
- 1 security key
- 1 Smart Card

EL.44-LS

EL.45-LS

To see more technical specifications and optional accessories please visit our website: [www.ortotecnica.com](http://www.ortotecnica.com)  
 Software of equipment available in: Spanish, English, French, Italian and German.

**SCANNING LASER (808 & 940 nm.) 4 W. - EL.46-LS**

**SCANNING LASER (940 nm.) 8 W. - EL.47-LS**

**SCANNING LASER (808 nm.) 500 mW. - EL.48-LS**

Frequency can be regulated from 200 to 10.000 Hz.

Automatic energy output calculation in Joules.

Scanning area can be adjusted up to 400 cm<sup>2</sup>.

85 programs in memory. Internal memory with memory capacity of up to 200 programs.

Option to connect an external monodiode or multi-diode head.

Voltage: 220-240V / 50-60Hz. On request 110-127V / 50-60Hz.

**EL.46-LS**

2 laser sources, with 808 nm. continuous emission and 940 nm. pulsed emission.

2.2W power diodes. Maximum power absorption 60VA.

**EL.47-LS**

1 laser source with 940 nm. continuous and pulsed emission.

1.8W power diode. Maximum power absorption 60VA.

**EL.48-LS**

1 laser source with 808 nm. continuous and pulsed emission.

1.500 mW power diode. Maximum power absorption 25VA.

**Accessories included**

**EL.46-LS + EL.47-LS:**

- 2 pairs laser protection glasses
- 1 Smart Card
- 1 security key
- 1 emergency button

**Accessories included**

**EL.48-LS:**

- 2 pairs laser protection glasses
- 1 Smart Card
- 1 security key

 Software of equipment available in: Spanish, English, French, Italian and German.

# HIGH POWER LASER

**LASER (940 nm.) 4W. - EL.100-LS**

**LASER (940 nm.) 8W. - EL.101-LS**

**LASER (810 & 980 nm.) 6W. - EL.102-LS**

**LASER (810 & 980 nm.) 12W. - EL.103-LS**

Frequency can be regulated from 100 to 10.000 Hz.

Automatic energy output calculation in Joules.

32 suggested therapeutic applications. Internal memory with memory capacity of up to 200 programs.

Voltage: 220-240V / 50-60Hz. On request 110-127V / 50-60Hz.

## **EL.100-LS + EL.101-LS**

Operates with a single wavelength: 940 nm.

Maximum power absorption 70VA.

14W power diode (EL.100-LS) or 8W (EL.101-LS).

Memory card reader. Space for 200 more programs in memory.

## **EL.102-LS + EL.103-LS**

combines 2 wavelengths, 810+980 nm, to be used in combined therapy.

Maximum power absorption 75VA.

16W power diode (EL.102-LS) or 12W (EL.103-LS).

USB Key with 4Gb space for programs in memory.

EL.100-LS

EL.101-LS

## **Accessories included**

### **EL.100-LS + EL.101-LS:**

- 2 Laser protection goggles
- 1 Multispot laser probe
- 1 Smart Card

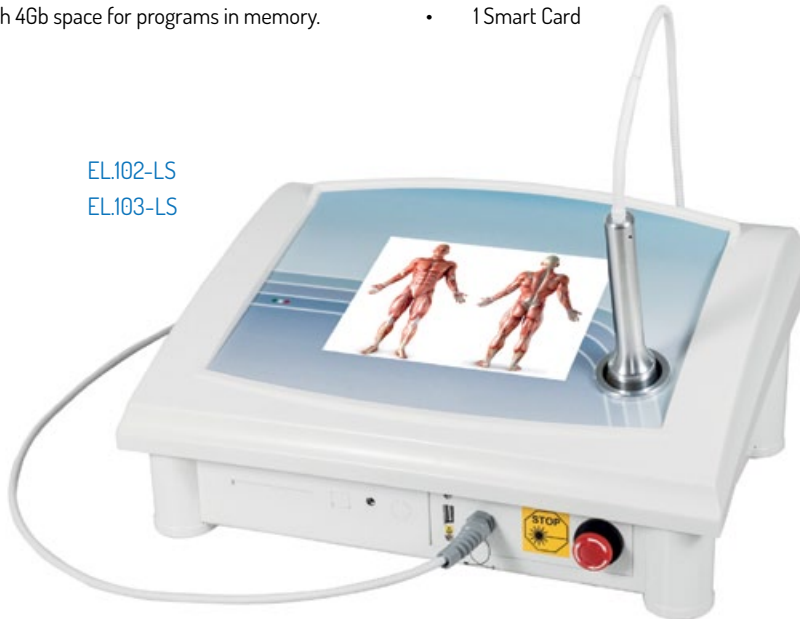

## **Accessories included**

### **EL.102-LS + EL.103-LS:**

- 2 Laser protection goggles
- 1 Laser probe of optical fibre
- 1 USB Key 4Gb
- 1 Interlock
- 1 Pedal protection

EL.102-LS

EL.103-LS

**LASER UNIT MOBILE 25W. - EL.104-LS**

**LASER UNIT DESK 12 W. - EL.105-LS**

32 suggested therapeutic applications. Internal memory with memory capacity of up to 200 programs. USB Key with 4Gb space for programs in memory.

Voltage: 220-240V / 50-60Hz. On request 110-127V / 50-60Hz.

**EL.104-LS**

Maximum power absorption 280VA.  
125W power diode.

**EL.105-LS**

Maximum power absorption 75VA.  
112W power diode.

**Accessories included**

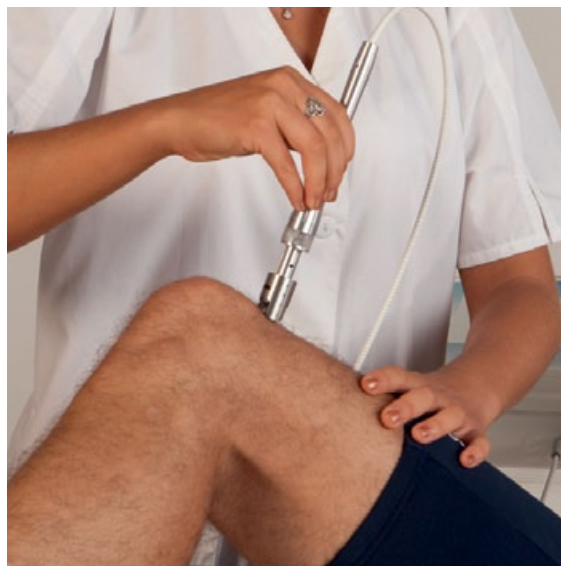

**EL.104-LS:**

- 2 Laser protection goggles
- 1 Defocused Laser probe (detachable)
- 1 USB Key 4Gb
- 1 Interlock
- 1 Pedal protection

**Accessories included**

**EL.105-LS:**

- 2 Laser protection goggles
- 1 Defocused Laser probe
- 1 USB Key 4Gb
- 1 Interlock
- 1 Pedal protection

# MAGNETOTHERAPY

## MAGNETOTHERAPY 2 CHANNELS

(200 PROG.) - **EL.50-MG**

## MAGNETOTHERAPY 4 CHANNELS

(200 PROG.) - **EL.51-MG**

## MAGNETOTHERAPY 2 CHANNELS

(50 PROG.) - **EL.52-MG**

Frequency: 1 to 100 Hz.

Power output up to 100 Gauss per channel.

Voltage: 220-240V / 50-60Hz. On request 110-127V / 50-60Hz.

### EL.50-MG:

Magnetotherapy unit with 2 independent channels.

81 programs in memory. Internal memory with memory capacity of up to 200 programs.

### EL.51-MG:

Magnetotherapy unit housed in a portable cabinet with 4 independent channels.

81 programs in memory. Internal memory with memory capacity of up to 200 programs.

### EL.52-MG:

Magnetotherapy unit with 2 independent channels.

50 programs in memory. Internal memory with memory capacity of up to 50 programs.

EL.50-MG

EL.52-MG

EL.51-MG

### Accessories included

#### EL.50-MG + EL.51-MG:

- 1 metal control ring.
- 1 Smart Card

### Accessories included

#### EL.52-MG:

- 1 metal control ring

For correct use, the unit requires a bed, catalogue number: EL.50-51/1 or /2.

## MAGNETIC THERAPY BED (1 GUIDE / 1 SOLENOID) - EL.50-51/1

## MAGNETIC THERAPY BED (2 GUIDES / 2 SOLENOIDS) - EL.50-51/2

Hi-tech bed made from light aluminium alloy.

Solenoids are 60cm in diameter and 30cm wide.

Maximum output 100 Gauss per channel.

Mobile cylinders.

Dimensions: Length 196 cm, Height 7 cm, Depth 65 cm

Exclusive patented design which concentrates the lines of force inside the solenoid thus preventing leakage to the exterior.

EL.50-51/1 - Fitted with 1 guide 1 solenoid.

EL.50-51/2 - Fitted with 2 guides and 2 solenoids, ideal for full-body treatments.

Software of equipment available in: Spanish, English, French, Italian and German.

**PRESSURE THERAPY UNIT 12 SECTORS – EL.54-PR**  
**PRESSURE THERAPY UNIT 9 SECTORS – EL.55-PR**  
**PRESSURE THERAPY UNIT 7 SECTORS – EL.56-PR**

Generator mounted on casters for pressure therapy, peristaltic sectorial massage for venous, lymphatic and circulation drainage with 9 sectors whose pressure can be regulated completely independently.

Maximum pressure for each sector is 150 mm Hg.  
 Voltage: 220-240V / 50-60Hz. On request 110-127V / 50-60Hz.

**EL.54-PR:**

12 completely independent sectors.  
 21 available protocols. Programs in memory with capacity of Key USB 4 GB. Internal memory with memory capacity of up to 100 programs.  
 2 outputs.  
 Possibility to perform total body treatments at the same time.

**EL.55-PR:**

9 completely independent sectors.  
 21 available protocols. 100 programs in memory. Internal memory with memory capacity of up to 100 programs.

**EL.56-PR:**

7 completely independent sectors.  
 21 available protocols. 100 programs in memory. Internal memory with memory capacity of up to 100 programs.

EL.56-PR

EL.54-PR

## TECARTHERAPY

EL.92-TC

**TECARTHERAPY UNIT 200 W. - EL.90-TC****TECARTHERAPY UNIT 300 W.- EL.91-TC****TECARTHERAPY UNIT MOBILE 300 W. - EL.92-TC**

Operating modes: Capacitive (It works actively on soft tissue rich of water) and resistive (effective action on tissues with the highest resistance, having low water content).

Voltage: 220-240V / 50-60Hz. On request 110-127V / 50-60Hz.

**EL.90-TC:**

Output power up to 200W.

Memory card reader with 20 predefined programs. 200 programs in memory + 100 free programs on each card.

**EL.91-TC and EL.92-TC:**

Output power up to 300W.

48 predefined programs. USB Key with 4Gb space for programs in memory. 200 free programs on memory.

EL.92-TC: Exclusive applicator for resistive and capacitive treatments with integrated power regulating button.

EL.91-TC

EL.90-TC

**Accessories included****EL.90-TC:**

- 1 Resistive probe
- 1 Resistive electrodes kit (30-50 mm Ø)
- 1 Capacitive probe
- 1 Capacitive electrodes kit (30-50 mm Ø)
- 1 Conductive cream 1000 ml
- 1 Stainless steel plate
- 1 Smart Card

**Accessories included****EL.91-TC:**

- 1 Resistive probe
- 1 Resistive electrodes kit (30-50-70 mm Ø)
- 1 Capacitive probe
- 1 Capacitive electrodes kit (30-50-70 mm Ø)
- 1 Conductive cream 1000 ml
- 1 Stainless steel plate
- 1 USB Key 4Gb

**Accessories included****EL.92-TC:**

- 1 Resistive probe
- 1 Resistive electrodes kit (30-50-70-80 mm Ø)
- 1 Capacitive probe
- 1 Capacitive electrodes kit (30-50-70-80 mm Ø)
- 1 Conductive cream 1000 ml

### VIBRATING MASSAGE PAD - F.35/0

Combines optimal ergonomic design and cooling system.  
Synthetic easy-clean and shock-resistant material.  
Voltage: 220-240V / 50-60Hz. For 110-127V / 50-60 Hz transformer is required.

#### Includes:

- Smooth rubber cover - F.35/R" for enhanced deep layer effect. Recommended for sensitive areas of the skin.
- Nylon bristle brush - F.35/S: Provides a stimulating effect to the area of the skin. Enhances circulation and removes dead skin cells.

#### OPTIONAL ACCESSORIES:

##### SOFT RUBBER JACKET WITH CUPS - F.35/P

For techniques that call for deeper penetration.

##### NATURAL BRISTLE BRUSH - F.35/Q

Enhances circulation and removes dead skin cells.

##### FOLD-AWAY CARRY TABLE - EL.35-T

Comes with three shelves. Wheels with brake.  
Dimensions: 58 x 36 x 85 cm.  
Can be disassembled.

##### SEAT FOR ELECTRIC MEDICINE THERAPY - G.18905

##### TABLE FOR ELECTRIC MEDICINE - G.18905-2

##### SINGLE-STEP FOOTREST - G.18905-5

Made of beechwood. Facilitates diverse electric medicine treatments.  
Thanks to its design, the seat, cat. no. G.18905, leaves the dorso-lumbar area free.

G.18905

G.18905-2

G.18905-5

Software of equipment available in: Spanish, English, French, Italian and German.

# VERTICALIZATION

## TILTING BOARD FOR CHILDREN - F.10N

The layout of the board and its components allows exercises to be performed in both the prone and supine position.

Reclines from the vertical to the horizontal by means of a telescopic system.

Removable footrest to allow breathing exercises to be carried out.

Removable headrest.

Includes strap to secure the thorax and two straps for the arms and legs.

Four casters (2 with brake).

Metal frame with chrome and polyester finish. M2 fireproof upholstery.

Dimensions: 60 x 115 (150 cm with headrest).

F.10N-F

## OPTIONAL ACCESSORIES:

**TRAY - F.10N-A**

**SET OF HEAD SUPPORTS - F.10N-B**

**SET OF THORAX SUPPORTS - F.10N-C**

**LEG SEPARATOR - F.10N-D**

**ABDUCTION ROLLER - F.10N-E**

**FOOTREST FOR CHILDREN - F.10N-F**

## PRONE-SUPINE SUPPORT BOARD

**MEDIUM - T.P.1311-B**

**CHILDREN - T.P.1311-BN**

Reclines from the vertical to the horizontal by means of a telescopic system.

Cushioned and varnished wooden board, with grooves in the centre and on the side to adapt and adjust the required accessories.

Adjustable foot rest with adjustable guards.

Includes strap to secure the thorax and two straps for the arms and legs. Four wheels (2 with brake).

Metal frame with chrome and polyester finish. M2 fireproof upholstery.

Dimensions:

T.P.1311-B: 75x112x130 cm. (with extending component T.P.1311-B/7 - length:160 cm.).

T.P.1311-BN: 61x112x118 cm. (with extending component T.P.1311-BN /7 - length:150 cm.).

PRONO

T.P.1311-B

SUPINO

T.P.1311-B

### OPTIONAL ACCESSORIES:

<b>SET OF SPINAL COLUMN BRACES</b>	T.P.1311-B/1	T.P.1311-BN/1
<b>PELVIS BRACE STOP</b> (Required order leg separator)	T.P.1311-B/2	T.P.1311-BN/2
<b>ABDUCTION ROLLER</b>	T.P.1311-B/3	T.P.1311-BN/3
<b>LEG SEPARATOR</b>	T.P.1311-B/4	T.P.1311-BN/4
<b>SUPINE POSITION TRAY</b>	T.P.1311-B/5	T.P.1311-BN/5
<b>PRONE POSITION TRAY</b>	T.P.1311-B/6	T.P.1311-BN/6
<b>BOARD EXTENDING COMPONENT</b>	T.P.1311-B/7	T.P.1311-BN/7

T.P.1311-BN

### CHILDREN'S WALL LADDER - F.14-1N

Vertical and cross bars made of Melix pinewood.

Fixed to the wall with standard bolts.

Dimensions: 180 x 68 x 10 cm.

# TABLES

## BOBATH-TYPE ELECTRIC TABLE - F.28-EB

## BOBATH-TYPE HYDRAULIC TABLE - F.28-HB

Tilting headrest, fitted with a ventilation opening to enable the patient to breathe.

Moveable base with dual brake lever.

Height is adjustable via an electric power control (electric stretchers) or hydraulic power control unit on both sides (hydraulic stretchers).

Metal frame with chrome and polyester finish. Fireproof upholstery.

Maximum recommended weight: 180 kg.

Dimensions: 200 x 100 x 50-100 cm.

Voltage: 220-240V / 50-60Hz. On request 110-127V / 50-60Hz.

## BOBATH DE-LUXE ELECTRIC TABLE - F.28-8EB

## BOBATH DE-LUXE HYDRAULIC TABLE - F.28-8HB

Their design and dimensions are especially intended for use in providing treatments using Bobath techniques. Extra-large headrest to provide support for the upper back if required.

Headrest and sections can be adjusted using a gas-powered spring system.

Headrest has a ventilation opening which can be moved in two directions (up and down).

Moveable base with centralized wheel lifting mechanism, operated with a single lever.

Height is adjustable via an electric power control (electric stretchers) or hydraulic power control unit on both sides (hydraulic stretchers).

Metal frame with chrome and polyester finish. Fireproof upholstery.

Maximum recommended weight: 180 kg.

Dimensions: 200 x 100 x 50-100 cm.

Voltage: 220-240V / 50-60Hz. On request 110-127V / 50-60Hz.

**CHILDREN'S PARALLEL BARS - F.55N**

**CHILDREN'S PARALLEL BARS WITH SEPARATION BOARD - F.54N**

**CHILDREN'S PARALLEL BARS WITH HANDRAIL - F.56N**

**CHILDREN'S PARALLEL BARS WITH OBSTACLE COURSE - F.58N**

Its sturdy metal frame and the thick material used, combined with the weighted baseplate, make this highly stable.

The baseplates have been designed to be as close to the floor as possible to make it easy for the user to access the walking area. Height is adjustable (45-66 cm) via pins concealed in the upper columns. Folds away easily.

Chrome and polyester finishing.

Length: 250 cm. Width: 50 cm.

Model F.54N - Includes a friendly and attractive caterpillar that acts as a separation board to guide the feet, thereby preventing them from crossing over while walking. The unit can be disassembled easily.

Model F.56N: Includes a handrail with harness to guide and encourage children while doing walking exercises, as well as a separation board in the form of a friendly caterpillar, which guides the child and prevents walking with feet crossed.

Model F.58N: Fitted with a separation board, that steers and prevents the patient from crossing their legs. This can be removed easily. The height of the obstacle course can also be adjusted independently. Its design permits each of the components to be removed (the course and the separation board) which makes it easy to fold away.

F.56N

F.58N

F.54N

F.55N

## GETTING AROUND - WALKING

**ROLLER CHAIR FOR GUIDING WALKING - F.65-N**

Contoured, functional seat.  
Backrest adjustable in proximity and height.  
Fitted with four casters with brakes.

**STAIRCASE WITH HANDRAIL - T.P.1401-A**

Consists of three steps, a landing and a ramp.  
Steps coated in polyester in several colours with non-slip protection.  
Twin handrails (two different heights).  
Metal frame with polyester cover.  
Dimensions: 200x50x30 cm.

**STAIRCASE FOR EARLY YEARS STIMULATION - T.P.1400**

Consists of three steps, a landing and a ramp.  
The inside is made from high-density rubber foam that keeps its shape.  
M2 fireproof upholstery on the outside.  
Dimensions: 200x50x30 cm.

**CRAWLING BOARD - (35x25x15 cm.) - F.18/2AN**  
**CRAWLING BOARD - (50x40x23 cm.) - F.18/2BN**

Fitted with a strap to keep the thorax securely in position.  
 Ergonomically cushioned and upholstered in M2 fireproof material.  
 Fitted with 4 casters.

**PRONE POSITION CRAWLING BOARD (60x30 cm.) - F.18/2CN**

Fitted with adjustable pads to secure the torso in place and strap with double guide.  
 Cushioned and upholstered wooden board in M2 fireproof material.  
 Fitted with 4 casters.

**CRAWLER BOARD (90x30 cm.) - F.18/2FN**

Lightly cushioned and upholstered wooden board in M2 fireproof material.  
 Fitted with 4 casters.

**SCOOTER (30x30 cm.) - F.18/3AN**  
**SCOOTER (40x40 cm.) - F.18/3BN**

**ADJUSTABLE CRAWLER - F.60-2N**

Adjustable height and tilt.  
 Removable sling.  
 Metal frame with chrome and polyester finish.  
 M2 fireproof upholstery.

**SLIDING BOARD CRAWLER - F.60-4N**

For training children how to crawl.  
 The four sliding boards are fitted with ball-bearings for the child to move sideways or across.  
 The baseboard is made from varnished wood with aluminium rails and cushioned boards.

# — CREEPING AND VESTIBULATION

## CREEPING

### CRAWLING SADDLE - F.60-5N

Helps to correct posture of the lower limbs when crawling on hands and knees.  
Cushioned interior.  
Removable, washable outer cover.  
Adjustable velcro straps.

### HANDPRINTS AND FOOTPRINTS GAME - F.59/2

Twelve footprints and 8 handprints for posture and direction control training exercises.

### POP-UP FOLDABLE CRAWLING TUNNEL - T.P.1675

Crawling tunnel in vivid colours made from translucent, breathable material.  
The aim is to encourage children to enjoy crawling exercises in a fun and highly stimulating way. Dimensions: 180 x 70 cm.

## VESTIBULAR STIMULATION

### TILTING STIMULATING BOARD - F.15-N

Dimensions: 122 x 60 x 10 cm.

### SENSORY STIMULATION TILTING BOARD - F.15/3N

Dimensions: 152 x 76 x 55 cm.

#### Materials:

Wooden frame.

Padded and upholstered with M2 fireproof materials.

**TILTING COORDINATION TRAINING BOARD - F.16-N**

Dimensions: 61 x 61 x 10 cm.

**KEEP YOUR BALANCE BOARD - F.17/01N**

"Floats" on springs so the user has to make adjustments to keep their balance.

Central dampener column.

Dimensions: 90 x 90 cm.

**CIRCUMDUCTION STIMULATION BOARD - F.18-N**

Fitted with a dual-layer disc to prevent the board from scraping the floor.

Dimensions: 85 cm Ø.

**OSCILLATING BOARD - T.P.1900**

Its flat hexagonal shape facilitates treatment of vestibular lesions through play.

It is fitted with three straps to secure the thorax and lower limbs.

Also fitted with four handles.

High-density foam rubber padding and two-tone fireproof upholstery.

Dimensions: 130 x 40 cm.

# VESTIBULAR STIMULATION - BALANCE

**THERAPY BALL (90 cm. Ø) - T.P.1905**

**THERAPY BALL (120 cm. Ø) - T.P.1906**

Fitted with many handles to allow for its use while ensuring maximum safety.

Covered in M2 fireproof material, in two colours.

**"BARREL ROLL" STIMULATION CYLINDER - T.P.1652**

The inside is made from shape-retaining high-density rubber foam material.

M2 fireproof upholstery on the outside.

Dimensions: 56 x 56 x 28 cm.

**BALANCE AND STIMULATION TRAINER 60 cm. Ø - F.40/60**

Designed for exercises to develop the muscles and sense of balance, improving the sensation of balance, coordination and motor skills. Can be used standing up, kneeling or seated for exercising the foot and ankle.

Sensory stimulation is provided by the bumps on its surface.

**BALANCE TRAINING DISC 41 cm. Ø - T.P.1670**

The upper section has a slot in which a ball slides around the rim.

Made of lacquered wood in vivid colours.

**WALKING BEAM ON RAMP - F.18/6N**

This equipment is intended to help patients re-learn to maintain their balance.  
This walking beam is on a ramp and gets progressively narrower.  
Made from varnished wood with high-profile coloured markings to guide the walker.

**GABLED WALKING BOARDS - F.18/7N**

This equipment is intended to help the user correct their walking.  
Equipped with metal fittings that can alter the angle of the slope.  
Made from varnished wood with high-profile coloured markings to guide the walker.

**NUMBERED STEPPING-STONES - T.P.1680**

Six large templates with etched numbers from 1 to 6.  
An excellent psycho-motor circuit which also helps young learners with their numbers.

**"SNAKE" TYPE BALANCING BEAM - T.P.1688**

A set of 10 PVC blocks in vibrant colours, recommended for working on coordination, balance, moving along raised surfaces, with sensations felt through the soles of the feet. This helps children to delimit spaces as well as to keep their balance. The blocks are easy to assemble to form either a straight or curved path of up to 300 cm.

**SMALL STEPPING STONES BALANCING ACT - T.P.1690**

Set of six stepping stones in different attractive colours with a non-slip base.  
They are water-resistant and can be used outdoors.

# POSITIONING

## POSITIONING SYSTEM - T.P.1313

Made up of twelve different modules, allowing work to be performed in 18 different positions.

Details: 1 flat cushioned base (150 x 60 cm), 4 casters with brakes, 3 wedges in a range of sizes (50 x 50 x 20, 40 x 40 x 15 and 20 x 20 x 7 cm), 1 half-leg module (120 x 25 x 18 cm), 2 ¼-curls (350 x 10 x 10 cm), 3 abduction modules in a range of sizes, 1 trapezoidal, 1 rectangular, 2 large belts, 1 belt to go round the pelvis, 1 pulling strap and 1 decubitus (lying position) strap.

High-density foam padding that will not lose its shape.  
Upholstered in multi-coloured M2 fireproof material.

## PAEDIATRIC POSITIONING - T.P.1320

Set of nine parts comprising: 1 base board: (100 x 50 cm), 1 half-cylinder cushion: (100 x 50 cm), 1 back rest (50 x 50 x 25 cm), 2 half-crown positioning aids, 1 table board with mirror, 2 straps in different sizes (75 x 10 cm and 50 x 5 cm).

High-density foam padding that will not lose its shape.  
Upholstered in multi-coloured M2 fireproof material.

**SIDEWAYS LYING POSITIONER - T.P.1325**

Module for correcting thoracic posture, adjustable for proximity and slope. Fitted with two cushions and two belts to set the posture securely. Padded and upholstered in fireproof material. Dimensions: 120x55x30 cm.

**POSITIONING WEDGE - T.P.1330**

Extendable and adjustable for height. Includes the following accessories: extending cushion, head strap, 2 sets of adjustable securing straps (for the torso and limbs), 1 leg separator, 1 posture wedge and 1 mat. Varnished wooden frame with natural colour, chromed metal parts with polyester finish. M2 fireproof upholstery. Dimensions: 112-125x55 cm.

**WEDGE WITH BELTS AND ABDUCTOR - T.P.1335**

High-density foam rubber filling that will not lose its shape. Fireproof upholstery. Adjustable abduction wedge. Dimensions: 35x67x70 cm.

## ADD-ONS

### MATS:

- (200x100x10 cm.) - F.85
- (200x100x5 cm.) - F.85-5
- (200x200x10 cm.) - F.85/B
- (190x100x8 cm.) - F.86
- (150x90x8 cm.) - F.86N
- (110x60x5 cm.) - F.86N-1

### PRESSED MATS:

- (200x100x10 cm.) - F.85-1
- (200x100x5 cm.) - F.85-6
- (190x100x8 cm.) - F.86-1

Fitted with handles and breathing holes.  
Inside foam rubber density: 30 or 100 kg (pressed).  
M2 fireproof upholstery.

### CHILDREN'S MIRROR WITH HANDLES - F.91N SQUARE MIRROR FOR CHILDREN WITH HANDLES - F.91N-2

Tilting mirror on a metal frame.  
Fitted with grips at the front that provide support while allowing the patient to move along the floor like a Zimmer frame.  
The squares are etched by sandblasting. (F.91N-2)  
Metal frame with polyester cover.

### MIRRORS MADE TO MEASURE, PLAIN OR WITH SQUARES, TO BE MOUNTED DIRECTLY ON THE WALL (Enquire for details)

### AIREX NON-SLIP MAT: 200 x 100 x 2,5 cm. - F.89/X 185 x 60 x 1,5 cm. - F.89/Z

Made from closed cell foam rubber. Light, non-slip, easy to clean and roll up.  
Anti-bacterial and anti-mould treatment.  
Airex foam is completely impermeable to water, and the mats do not absorb moisture or attract dust or dirt.

### WRIST WEIGHTS - ANKLE WEIGHTS FOR CHILDREN:

- (250 Gr.) - G.18751-N
- (500 Gr.) - G.18751-N-1
- (750 Gr.) - G.18751-N-2
- (1 Kg.) - G.18751-N-3
- (1,5 Kg.) - G.18751-N-4
- (2 Kg.) - G.18751-N-5

Colour-coded with external stamp indicating the weight of each wrist weight.  
Made from fireproof material.

F.89

**SAFETY TABLE:**

**SMALL - T.P.1000**

**LARGE - T.P.1000/G**

**SMALL TILTING TABLE - T.P.1000-E**

**LARGE TILTING TABLE - T.P.1000/G-E**

Adjustable height.

Board with decorated safety rim.

Can be used sitting down or standing up.

The tiltable models can be adjusted like a lectern or music stand.

T.P.1000/G-E

T.P.1000

**4-PLACE SAFETY TABLE - T.P.1004**

Their design assists the instructor when carrying out therapeutic work or group training.

2 spaces 33 x 22 cm, and 2 of 41 x 22 cm.

Height is adjustable, from 60 to 80 cm.

Overall dimensions: 244-170 x 74 x 60-80 cm. 244-170 x 74 x 60-80 cm.

# CHAIRS - SEATS

### MOBILE POSTURE TRAINING SEAT:

**SMALL - T.P.1100**

**MEDIUM - T.P.1100/1**

**LARGE - T.P.1100/2**

Designed to slot in a range of accessories, which are listed at the end.

The backrest sidebars are designed for arm suspension fittings to slot in.

Their measurements are designed to match those of the safety boards.

Their height can be adjusted and are fitted with footrests fitted with fastening straps.

Four casters (2 with brake)

Chrome-plated metal frame with polyester finish. M2 fireproof upholstery.

### OPTIONAL ACCESSORIES:

SET OF BELTS	T.P.1100-A	T.P.1100/1-A	T.P.1100/2-A
SET OF TORSO CONTROLLERS	T.P.1100-B	T.P.1100/1-B	T.P.1100/2-B

# SPEECH LANGUAGE THERAPY

## SENTENCE FORMING - L.5060

179 cards to work on oral expression by forming phrases and sentences with cards containing illustrations, pictograms and words.

Available in: Spanish/English/French.

## LITTLE FROG MIRROR - L.5003

Cute little frog with a safety mirror inside.

Very useful for speech therapy and visual stimulation. Stimulates ocular attention and face recognition.

L.5034

L.5032

L.5033

## MAZE BLOWING BOARD - L.5030

## MULTI-COLOURED BLOWING BOARD - L.5031

30x30x2 cm.

## WINDING BLOWING BOARD - L.5032

48x27x2 cm.

## GAPS BLOWING BOARD - L.5033

52x29x2 cm.

## RING-THE-BELL BLOWING BOARD - L.5034

48x19x2 cm.

L.5030

L.5031

These are boards with grooves along which the ball is blown.

The children have to blow the ball in the desired direction - to improve blowing strength and direction control, thereby strengthening the mouth muscles.

## BLOW LOTTO - L.5045

Push the ball through the pigeon holes until you complete the course.

## TURBINE - L.5040

You have to make the blades turn and stop them at the right point by blowing on one side and the other.

**SPEECH THERAPY SET - L.5090**

It is important to teach how to control the flow of air as one breathes out so the subject learns how to articulate phonemes correctly.

The kit may vary according to the stock of elements that comprise it. In any case, replacement elements will have the same characteristics and perform the same function.

**Includes:**

- PVC kazoo (1 Ud.) - E.M.3107**
- Wooden whistle (1 Ud.) - E.M.3110**
- Long whistle (1 Ud.) - E.M.3111**
- Three-tone whistle (1 Ud.) - E.M.3109**
- Plastic siren whistle (1 Ud.) - E.M.3112**
- Harmonica (1 Ud.) - E.M.3739**
- Flute (1 Ud.)- E.M.3736**
- Balloons (20 U.) - L.5635**
- Bubble-blowing pipe (1 Ud.) - L.5636**
- Maze-blowing board (1 Ud.) - L.5030**
- Gaps-blowing board (1 Ud.) - L.5033**
- Blow Lotto (1 Ud.) - L.5045**
- Little frog mirror (1 Ud.) - L.5003**
- Coloured blowing board (1 Ud.) - L.5031**
- Winding blowing board (1 Ud.) - L.5032**
- Bells blowing board (1 Ud.) - L.5034**
- Turbine wind game (1 Ud.) - L.5040**
- Sentence-forming activity (1 Ud.) - L.5060**

### LAZARIM STANDING WALKING FRAME - T.O.170

The patented LAZARIM system is the result of several years of research by Ortotecsa in collaboration with the Spanish Council for Advanced Scientific Research (CSIC) and other user support groups with a range of pathologies.

High-autonomy elevation and movement bi-pedal walking frame, **especially designed for regular wheelchair users**, allowing them to stand up from a seated position and vice versa, remain in the standing position on both feet while moving at the same time. All of this can be done autonomously in many cases, or with the simple assistance of a caregiver without requiring great effort on the caregiver's part.

This equipment is intended to assist many patients with medullar lesions, elderly persons with degenerative neurological illnesses or with brain damage, among others, provided there is no cognitive impairment or major handling issues.

#### Technical Features:

- User height: 1.50 to 1.95m (4ft 9 in to 6ft 4in):
- Maximum weight: 120 kg
- Movement speed can be regulated from 0.1 to 0.4 m/s
- Elevation/lowering time: 45 s.
- Turning radius: 74 cm
- Measurements: width 60 cm, length 82 cm
- Weight: 60 kg.
- Battery autonomy: 10 hours (elevation-lowering work cycles of 15%)
- Replaceable, rechargeable 24 V battery with 2.9 Ah.
- Voltage: 220-240V / 50Hz. Other voltages on request.

Includes: Elevation harness and lumbar harness for the lower back.

#### OPTIONAL: HARNESS WITH PERINEAL SUPPORT - T.O.170/A

**STANDING FRAME - T.O.175**

Enables the user to stand upright safely, steadily and independently.

Standing upright helps to stretch the muscles and tendons to prevent spasms, improves circulation and stretches the abdominal cavity so the processes of breathing and digestion operate easily while assisting in the evacuation of the rectum.

The tray and set of hip stabilisers and pelvic buffer are all adjustable for height and proximity.

Adjustable height. Adjustable leg stops.

Non-slip foot rest with adjustable guard and strap.

Metal frame, with chrome and polyester finish.

All components cushioned with fireproof upholstery.

**OPTIONAL ACCESSORY:**

**SET OF ADJUSTABLE HIP CONTROLLERS - T.O.175/A**

**STANDING FRAME: AGE 5-12 YEARS - T.P.1250**

Decorated tray that can be adjusted for height and proximity.

Set of hip controllers and waist stop that can be adjusted for width and proximity.

Adjustable leg stops.

Non-slip foot rest with adjustable guard and strap.

Metal frame, with chrome and polyester finish.

All components cushioned with fireproof upholstery.

**OPTIONAL ACCESSORY:**

**ADJUSTABLE PELVIC SUPPORT - T.P.1250/A**

MOBILITY

**STABILIZER:**

**FROM 2 TO 8 YEARS - T.P.1006**

**FROM 6 TO 12 YEARS - T.P.1006/B**

**OVER 12 YEARS - T.P.1006/C**

All components are adjustable.

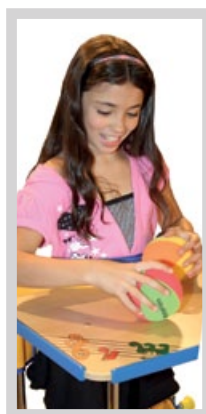

Cushioned leg posture restrainer.

Cups to hold feet in place fitted with straps, adjustable for width and proximity.

Adjustable straps.

Varnished wooden frame fitted with 4 casters with brake.

Metal frame with chrome and polyester finish, M2 fireproof upholstery.

**OPTIONAL ACCESSORY:**

**ADJUSTABLE DECORATED TRAY - T.P.1006-1**

**ADJUSTABLE DECORATED TRAY - T.P.1006/B-1**

**ADJUSTABLE DECORATED TRAY - T.P.1006/C-1**

## CHILD'S TETRAPOD WALKING STICK - G.6610-P

Ambidextrous stick - can be held in the left or right hand.

Made from aluminium with 10 handle adjustment settings to set the height from the floor (from 56 to 88 cm).

Special muffled walking system.

G.6681-P

G.6610-P

## CRUTCH WITH FOREARM - G.6681

Made from aluminium.

Length from elbow to hand: 24cm.

10 height settings to adjust the distance between the hand and the floor (from 75 to 98 cm).

Max. weight supported: 125 kg.

G.6681

## TETRAPOD WALKING STICK - G.6610

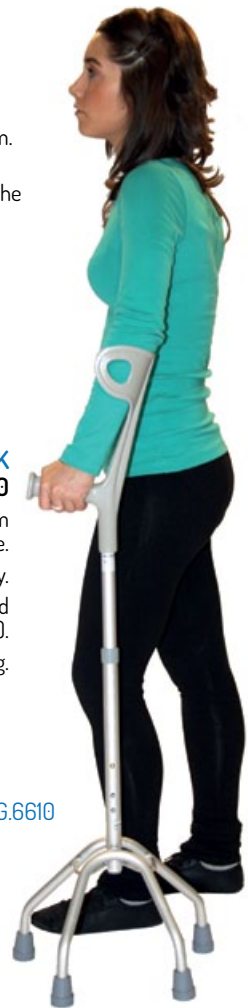

Stick with elbow support, made from aluminium. Height is adjustable.

Fitted with 4 feet for greater stability.

Height can be adjusted between hand and floor level (from 77 to 100 cm).

Max. weight supported: 100 kg.

G.6610

## CHILD'S ADJUSTABLE CRUTCH - G.6681-P

Lightweight in fun colours.

3 adjustment settings from the hand to the elbow rest (from 16 to 21 cm) and 10 height adjustments settings from hand to floor level (from 51 to 73 cm).

Special muffled walking system.

Handle is reflective for greater safety.

## CHILDREN'S WALKING FRAME - G.6700P POSTURAL CHILDREN'S WALKING FRAME - G.6701P

Foldable with height adjustable from 48 to 62 cm, total width 46 cm.

Metal frame with chrome and polyester finish.

G.6701P- Its structure enables the user to use the frame in a different positions, which helps to correct posture. Adjustable front handle height of 54-70 cm.

## FOLDABLE ADJUSTABLE WALKING FRAME - G.6701

Height can be adjusted from 69 to 89 cm.

The wheels enable the user to move around simply by pulling on the walker, which makes the user feel safe at all times without needing to support their own weight.

Max. weight 125 gr.

G.6700P

G.6701P

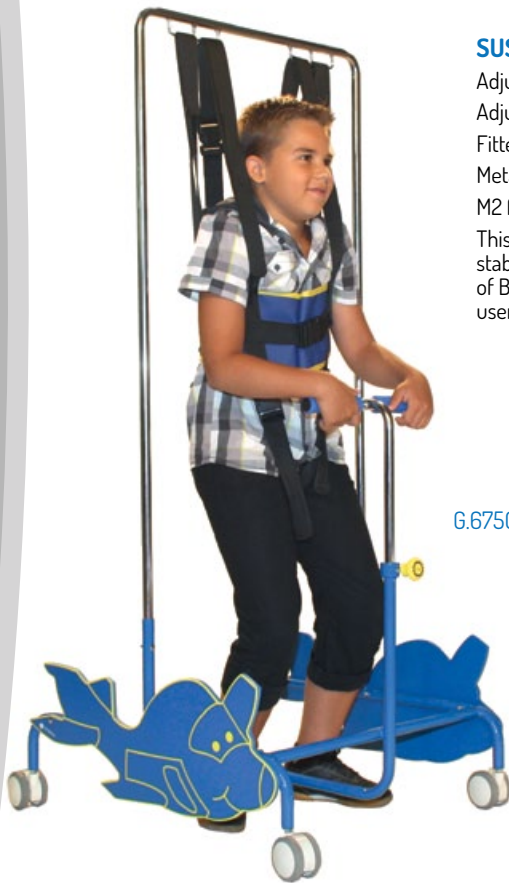

G.6701

# MOBILITY

## SUSPENSION WALKING FRAME - G.6750-BP

Adjustable suspension harness.  
Adjustable front grip (with built-in walking bar).  
Fitted with casters with brakes.  
Metal frame with chrome and polyester finish.  
M2 fireproof upholstery.  
This walking frame has undergone several different stability and endurance tests by the Valencia Institute of Biomechanics, with favourable results (maximum user weight: 50 kg).

G.6750-BP

G.6750-AP

G.6750-AP/1

## ADJUSTABLE WALKING FRAME - G.6750-AP

Provides the necessary safety and confidence to motivate patients to walk by helping them to maintain good posture.  
Adjustable height.  
Padded around the rim, made in two parts for better fit around the torso.  
Adjustable safety truss.  
Separation board to guide feet.  
Fitted with casters with brakes.

This walking frame has undergone several different stability and endurance tests by the Valencia Institute of Biomechanics, with favourable results (maximum user weight: 50 kg).

Dimensions: 64 x 65 x 62-88 cm.

**OPTIONAL ACCESSORY:**  
**UNDERARM SUPPORT WITH ADJUSTABLE GRIP - G.6750-AP/1**

## ADJUSTABLE WALKER MEDIUM - G.6760 LARGE - G.6770

Recommended for persons with serious stability problems.  
Adjustable padded chest and pelvis supports.  
Adjustable safety truss.  
Adjustable height.  
Grip handle can be adjusted for proximity.  
4 wheels. Rear wheels fitted with brake.  
Metal frame with chrome and polyester finish.  
Dimensions:  
G.6760 - 60x80x75-120 cm.  
G.6770 - 70x100x100-160 cm.

**MANUALLY-POWERED TRICYCLE:**  
**MEDIUM - T.P.1666/A**  
**LARGE - T.P.1666/B**

For children 100-130cm in height. (T.P.1666/A) and 120-150 cm in height. (T.P.1666/B).

- Adjustable seat, upholstered and cushioned, fitted with a safety belt.
- Adjustable backrest fitted with a seat belt.
- Pedals with base and fastening straps.
- Metal frame with chrome and polyester finish.
- M2 fireproof upholstery.

T.P.1666

T.P.1667

**FOOT-POWERED TRICYCLE**  
**MEDIUM - T.P.1667/A**  
**LARGE - T.P.1667/B**

For children 100-130cm in height. (T.P.1667/A) and 120-150 cm in height. (T.P.1667/B).

Brake lever adjustable to the ergonomics of the hand.

The design of the grip handle makes it possible to handle the tricycle with the torso upright and to grip it in different ways.

Extra-long comfortable seat with springs.

Backrest is fitted with a safety belt.

Includes rear-mounted basket pannier.

**OPTIONAL ACCESSORIES:**

<b>LARGE SADDLE WITH ABDUCTOR DOWEL</b>	T.P.1667/A-1	T.P.1667/B-1
<b>SET OF HAND-SECURING STRAPS</b>	T.P.1667/A-2	T.P.1667/B-2
<b>STEERING GRIP HANDLE FOR CARER</b>	T.P.1667/A-3	T.P.1667/B-3

**ELEVATOR / TRANSPORTER:  
HYDRAULIC POWER - G.6500  
ELECTRIC - G.6505  
ELECTRIC IP65 - G.6506**

Recommended for use in hospitals, retirement and convalescent homes, in the patient's own home, etc. The legs can be opened to different widths by pressing a pedal at the rear, which helps users get closer to chairs, the lavatory or to pass through narrow spaces.

Easy to assemble and disassemble, for transport in the trunk of any saloon car.

Casters with brakes at the rear, 125 mm in diameter to make it easier to handle the crane when loaded.

Twin casters at the front, 75 mm in diameter to make it easy to pass through areas up to 12cm high.

Height adjustable arm from 65 to 180cm. so the patient can be picked up from the floor.

Chassis made from stainless steel, partly covered in polyester.

Maximum recommended loading: 175 kg. Includes a sling.

**Electrical specifications:**

The unit fitted on the elevator meets all standards applying to electric cranes. Safety factor 4 according to standard EN60601-1.

Safety bolt in drive mechanism.

Mechanical clutch release.

Maximum force lock.

Emergency release.

Low battery charge sound alert.

Emergency button.

Includes a set of batteries and push-button control unit.

Model G.6505 - IP54 Protection.

Model G.6506 - IP65 Protection. Suitable for working in damp or humid environments such as swimming pools, bathtubs and Hubbard tanks.

Voltage: 220-240V / 50-60Hz. On request 110-127V / 50-60Hz.

**JACKET WITH PERINEAL SUPPORT - G.6707**

Recommended for persons who are prone to slipping forward or to prevent falls.

**FOLDABLE WHEELCHAIR - G.6705**

Removable arm and foot rests.

Foldable chromed frame.

58cm diameter rear wheel with double ring.

Chair measurements: 89 x 60 cm.

Seat measurements: 42 x 42 cm. From ground to seat: 49 cm.

**SHEEPSKIN HEEL PROTECTORS (PAIR) - 0.9452**

Recommended for the prevention of bed sores.  
Sheepskin lining.  
Hand or machine wash with neutral liquid soap.

**WRIST AND ANKLE SECURING PADS (PAIR) - V.H.25200-4**

With sheepskin strap.

**MAGNETIC LOCKING VEST - V.H.25225**

Tamper-proof safety buttons.  
Cotton wool filling.  
Plastic coated canvas exterior.  
Fitted with straps to restrain the thighs to prevent slipping.  
Includes two buttons and a key.

**COMPLETE BRACING SYSTEM - V.H.25218**

Includes belt, shoulder braces, wrist and ankle straps.  
Includes 10 buttons and 2 keys.

This system enables bed-ridden patients to have full freedom of movement to change posture without any risk of falling out of the bed.  
Fitted with tamper-proof safety buttons that can only be opened using the magnetic key, which is included with each set.  
The straps are padded for comfort.  
Stainless steel buckles.  
Non-shrink material, washable at any temperature.

**SECURITY BELT - V.H.25214**

Fitted with pull-straps to facilitate shifts in posture.  
Includes 3 buttons and 1 key.

**SET OF SHOULDER BRACES - V.H.25215**

Includes 1 button.

**SET OF WRIST STRAPS - V.H.25216**

Includes 2 buttons.

**SET OF ANKLE STRAPS - V.H.25217**

Fitted with 4 buttons.

**MAGNETIC LOCKING BUTTON - V.H.25219**

Tamper-proof safety buttons that can only be opened using the magnetic key.  
Stainless steel buckles.

**MAGNETIC KEY - V.H.25220**

For unlocking magnetic buttons V.H.25219.  
Stainless steel buckles.

V.H.2520

# WASHROOM

## **WASHING TROLLEY: HYDRAULIC - 0.9200 ELECTRIC - 0.9200-E**

Its adjustable height allows the trolley to be positioned at the same level as the bed, thereby greatly facilitating the caregiver's task.

The sidebars are foldable to minimize the need to move the patient.

Foldable headrest.

Upper plate tilts by means of a gas spring, to facilitate correct drainage.

Four wheels with brake.

Zinc coated metal frame with polyester finish.

Stainless steel table.

Dimensions: 1950x790x620-880 mm.

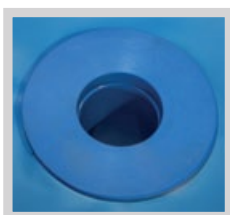

Includes mat - cat. no. 0.9200/1.

Voltage: 220-240V / 50-60Hz. On request 110-127V / 50-60Hz.

## **WASHING TROLLEY MAT - 0.9200/1**

Cushioned interior. Waterproof material cover that is pleasant to the touch.

Clear, unobstructed drainage hole 50 mm in diameter.

0.9360

**PORTABLE HAIR WASHING TRAY FOR BED-RIDDEN PATIENTS - 0.9360**

To help wash people's hair when they are confined to a bed.  
Two inflatable rings and an opening for the neck.  
Includes a run-off pipe to dispose of the water.

**PORTABLE HAIR WASHING - 0.9355**

Enables hair to be washed while the patient is seated in a wheelchair.  
ABS tray with strap to fasten it to the neck.

**MOBILE SHOWER AND LAVATORY SEAT - 0.9137-1**

Can be used as a toilet or be placed over the lavatory pan.  
The seat's U-shape facilitates intimate hygiene.  
Foldable armrests to facilitate sideways shifts of position.  
Armrests are foldable and removable.  
Plastic laminate frame.  
Fitted with 4 x 125mm diameter casters, the rear ones with brake.  
Maximum weight: 120 kg.  
Seat measurements: 45 x 34 x 47 cm.  
Total measurements: 56 x 62 x 85 cm

**FOLDABLE SHOWER STOOL - 0.9140**

Folds up against wall, plastic coated seat with holes to facilitate water run-off.  
The seat's U-shape facilitates intimate hygiene.  
Adjustable supporting feet following wall mounting.

**SHOWER AND BATH STOOL WITH BACKREST - 0.9144**

**SHOWER AND BATH STOOL - 0.9145**

Seat fitted with run-offs and handles for better hygiene and safety.  
Adjustable height, thigh straps to prevent slipping.  
Made from aluminium and PVC, completely stainless and very lightweight.  
Maximum weight: 100 kg.  
Seat measurements: 48 x 28 x 36-46 cm.  
Total measurements: 42 x 43 cm.

**BATH STOOL - 0.9150**

Dimensions: 43 x 23 x 20-27 cm.  
Maximum weight: 150 kg.

0.9150

# WASHROOM

**RAISED TOILET SEAT FOR LAVATORY - 0.9131-2**

**RAISED TOILET SEAT FOR LAVATORY (WITH ARMS) - 0.9131-4**

The soft material used for the side bars helps the user keep a secure grip while its large rear incision for the coccyx facilitates a comfortable posture and easy access for personal hygiene.

Easily adjustable to any toilet by simply tightening the side brackets. No tools required.

Height: 10cm (0.9131-2) 12 cm (0.9131-4)

Maximum weight: 130 kg.

**BATHROOM GRIP RAIL:**

**(30cm.) - 0.9300**

**(40cm.) - 0.9301**

**(60cm.) - 0.9302**

**(80cm.) - 0.9303**

Manufactured from steel with corrosion-resistant coating.

**STAINLESS STEEL BATHROOM GRIP RAIL :**

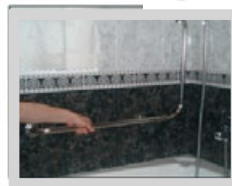

**(30cm.) - 0.9300-1**

**(45cm.) - 0.9301-1**

**(60cm.) - 0.9302-1**

**(90cm.) - 0.9303-1**

Non-slip surfaces provide extra safety.

**ANGLED GRIP HANDLE - 0.9304**

Made of stainless steel.

Dimensions: 70 x 50 cm.

**GRIP HANDLE (1 HANDLE) - 0.9305**

**GRIP HANDLE SET (2 HANDLES) - 0.9306**

**GRIP HANDLE SET (3 HANDLES) - 0.9307**

Made with white, non-slip ABS.

Each handle is 20 cm.

**FOLDING GRIP HANDLE - 0.9310**

Folds away when not in use, remaining in an upright position.

Non-slip support areas.

Length: 73 cm. Wall mounting plate 10 x 23 cm.

**HINGED SUPPORT WITH FOOT - 0.9315**

Foldable, adjustable height to cater for any need.

Dimensions: 15 x 75 x 72 - 92 cm.

- KNIFE - 0.9030**
- FORK - 0.9031**
- SPOON - 0.9032**

The upper part of the knife is ergonomically shaped for the index finger to help the user control the direction.

Dishwasher safe.

- BENDABLE FORK - 0.9035**
- BENDABLE SPOON - 0.9036**
- KNIFE WITH THICK HANDLE - 0.9037**

Very practical for either left or right-handed persons as it is fitted with a flexible section that enables it to be folded at any angle.

The soft handle helps the user to grip it comfortably and securely, which is especially useful for persons with mobility problems (Parkinson's Disease, spasticity, etc.).

The knife has an angled blade for cutting with one hand and minimum effort.

- ANGLED KNIFE - 0.9039**
- "NELSON" FORK-KNIFE - 0.9040**

Recommended for people who can only operate it with one hand or who have limited movements.

**ADJUSTABLE ADAPTER - 0.9045**  
Provides a secure grip on a range of shapes and sizes, such as cutlery, pencils, brushes, combs, etc.

**HOLDER TUBE - L.5610**  
Specially designed to fit the handles of a range of items, such as cutlery, kitchen utensils, etc.

External diameter 30 mm. Internal diameter 12 mm.

Supplied in 1-metre rolls.

Dishwasher safe.

**DYCEM NON-SLIP MATTING - L.5625**

Recommended for resolving problems of stabilization and grip for persons with one arm, muscular weakness or limited coordination, among others.

Supplied in rolls measuring 1 metre long by 40 cm. wide. Colour: blue.

**PLATE RIM - 0.9050**

Helps for eating with one hand.

Suitable for plates and dishes from 20 to 30 cm. Ø.

**OVAL PLATE - 0.9090**

Plate with sloped bottom and rubber base which prevents it from slipping.

Ideal for persons who can use only one hand.

Dishwasher friendly.

Microwaveable.

**1. ADAPTED TUMBLER - 0.9085**

Leaves space for the nose, recommended for persons with difficulty in leaning their head back.

**2. 2-HANDLED GLASS - 0.9091**

Includes two lids, one anti-spill and the other with a beak for drinking.

The glass is microwaveable and dishwasher ready.

**3. 2-HANDLED CUP - 0.9092**

Highly stable thanks to its broad base and two ergonomic angled handles. Lid with teat, very useful for persons with trembling issues.

Transparent to permit the water level to be seen.

**WEEKLY TABLET ORGANIZER - 0.9095**

Eight receptacles, one for every day of the week and one standby.

Satin-finish base for note-taking.

Plastic wallet with Velcro fastener.

**TABLET DIVIDER AND SHREDDER - 0.9098**

Can be used to shred tablets or divide them in half.

Compartment in the upper part for tablet storage.

The lower section can be used as a glass tumbler.

# ERGOTHERAPY

## ADJUSTABLE LECTERN - L.5455

Ergonomic table top lectern with support for reading and writing.  
Adjustable angle with elastic cords to secure books and papers.  
Made from varnished wood. Dimensions: 60 x 45 x 36 cm.

## COMPLETE TABLE-TOP LOOM - T.O.100

The rotation of any of the controls of the warp makes all the others rotate in a synchronised manner, hence this synchronisation allows the user to carry out combined active assisted exercises with both limbs.

The weft is taken up by the horizontal displacement of the approach and separation of the batten (the frame of the comb), a movement that facilitates active or active assisted flexing and extension of the elbow and shoulder.

Includes shuttle and threading tool.

## FREE-MOVING PEDAL LOOM - T.O.102

Fitted with four independent pedals, four fabric frames and a batten with a comb to take up the weft.

Since this loom requires the use of the upper and lower limbs, it is very useful for general psychomotor skills co-ordination, in other words the co-ordination of the eye, hand and foot.

## OPTIONAL ACCESSORIES FOR LOOMS:

**FRAME FOR PREPARING THE WARP - T.O.103-1**

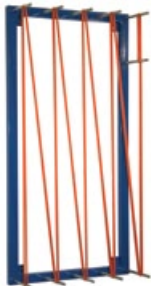

**SHUTTLE FOR LOOM - T.O.103-3**

**SHUTTLES FOR LOOMS (30cm.) - T.O.103/A**

**SHUTTLES FOR LOOMS (40cm.) - T.O.103/B**

**SHUTTLES FOR LOOMS (50cm.) - T.O.103/C**

**SHUTTLES FOR LOOMS (60cm.) - T.O.103/D**

## POTTER'S WHEEL

- T.O.210

The wheel is operated by flexing and extending the knee.

The front handle has a brake for placing resistance.

Seat and backrest are adjustable for height and angle.

Wooden board and baseplate, with synthetic material finish.

## PEDAL-OPERATED SAWING MACHINE - T.O.110

By moving the seat closer or further away, or by lowering it, the user can vary the extent of flexo-extension of the head and knees.

Two sidebars with posture securing fittings.

The saw cuts vertically with the assistance of an air pump to ensure the cut line is always in plain sight.

Can cut lengths of up to 300 mm with a maximum thickness of 20 mm.

Centrally mounted tray to collect sawdust and other waste material.

## REPLACEMENT PARTS:

**SAWBLADE FOR BIPEDAL SAWING MACHINE - T.O.110-1**

**TWO-LEVEL WOODEN WORKBENCH - T.O.152**

This is designed in such a way that work can be done facing to the right or left.

All parts made of wood: worktop, drawers, presses, trays.

Metal housing base with chrome and polyester finish.

Dimensions: 150 x 60 x 85 cm.

T.O.152

T.O.151

**ADJUSTABLE TILTING TABLE - T.O.151**

Tilting table that can be adjusted for height using the slide rails on either side.

Sturdy metal frame for secure positioning.

T.O.220

**MULTI-USE ADJUSTABLE TABLE - T.O.220**

Adjustable height, mounted on rear telescopic legs.

Very robust metal frame with chrome and polyester finish.

**MOBILE SUPPORTING FRAME WITH ARM SLINGS - T.O.180-B**

The arm slings can be adjusted for turning, height and depth.

The frame is fitted with wheels and a weight rack at the rear.

Also equipped with a brake and locking device with double stirrups at the sides.

Metal frame with chrome and polyester finish.

**MECHANICAL BOARD - T.O.225**

For re-training of the upper limbs.

The 18 spring-loaded elements provide progressively increasing resistance.

Includes four commonly used tools.

# MOTRICITY

## ADL

G.6200-A

### ADL (Activities of Daily Living) BOARD - G.6200-A

Adjustable height.  
Includes electrical control accessories for use in the home as well as manually operated items, e.g. door handles, locks, taps etc.  
Varnished wooden box mounted on a metal frame that displays the accessories with chrome and epoxy finish.

### PORTABLE ADL BOARD - G.6201

For wall mounting or table top use.  
Fitted with items regularly handled in the home.  
Made of wood with natural colour varnish finish.  
Dimensions: 60 x 35 cm.

G.6201

T.P.4306

### THE HOUSE OF LOCKS - G.6202

Fitted with a range of items that need to be handled in the home.

### ACTIVITIES PANEL - T.P.4306

Provides practice of the various activities that one encounters in daily living: getting dressed, fastening a belt, tying laces, etc. Also features a panel for intertwining strings of attractive colours, which calls for coordination of both hands.  
Dimensions: 122x61 cm.

G.6210

### SET OF ADL BOARDS - G.6210

The set comprises three upholstered and padded boards, with a sloping wedge to make them easier to work with.

### SHOES FOR LACING - T.P.4320

Stimulates finely-tuned psycho-motor movements.  
Dimensions: 30 x 22.5 cm.

**PET DRAGON FASTENING TOY - T.P.4303**

This toy has all of the most usual fastening systems, which will help children learn how to dress themselves (press studs, buttons, zips, buckles, etc.).  
46 cm. high.

**MAZES - ABACUSES**

T.O.500

**PRE-WRITING BOARD - T.O.500**

Develops fine-tuned motor skills, sharpens observation and visual discrimination ability.

T.O.501

**SET OF TRACKING BOARDS - T.O.501**

To sharpen observation and visual discrimination skills.

Develop wrist motor control, as the user has to follow the track with their hand.

T.O.503

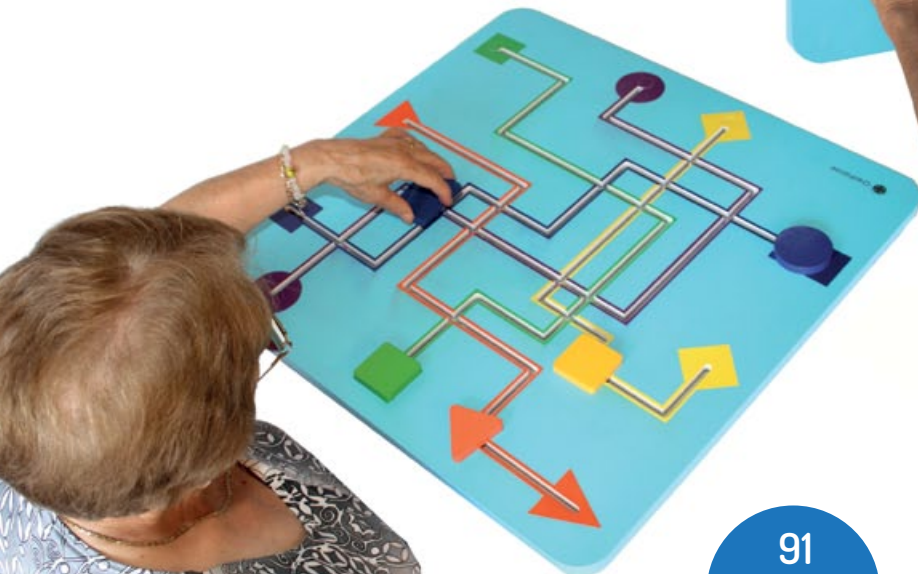

**GEOMETRIC SHAPE MAZE - T.O.503**

Excellent for hand/eye co-ordination and for working on arm motor skills.

Can be used on a table or mounted on a wall.

Dimensions: 60 x 60 cm.

# MOTRICITY

## HAND-FOOT MAZE - T.O.504

## HAND-FOOT SPIRAL - T.O.505

The user inserts a hand or foot in the moving part and follows it through the maze.

A game of skill to exercise upper or lower limbs. Can be played on a table or wall. The height can easily be adjusted for use with the upper or lower limbs while standing or sitting.

T.O.504

T.O.505

T.O.510

## MAGNETIC MAZE - T.O.508

Choose a passageway and move the ball to the end using a magnetic pencil.

Made of wood with transparent PVC coating. Includes activities card.

T.O.508

## MARBLE MAZE - T.O.510

A relaxing activity that helps to develop dexterity and encourages concentration and creativity

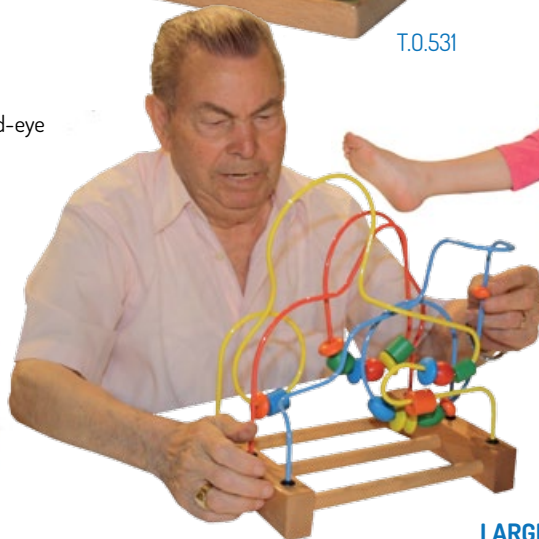

T.O.531

## MANUAL SPIRAL - T.O.532

Specially developed for working on hand-eye coordination for movement.

T.O.532

T.O.530

## LARGE SHAPES MAZE - T.O.530

## MEDIUM SHAPES MAZE - T.O.531

Designed to work on fine-tuning motor skills and perceiving forms and colours. The user has to exercise their arms to do this.

Large: 21 x 29 x 34.5 cm.

Medium: 23 x 19 x 13 cm.

**5-ACTIVITY DICE - T.P.4264**

Includes 5 different activities: the maze of colours, blackboard, clock, geometric figures and the labyrinth.

Ideal for the orientation of gestures, colour recognition and sense of rhythm.  
Dimensions: 30 x 30 x 55 cm.

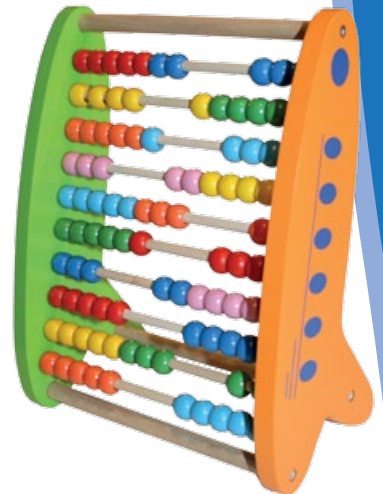

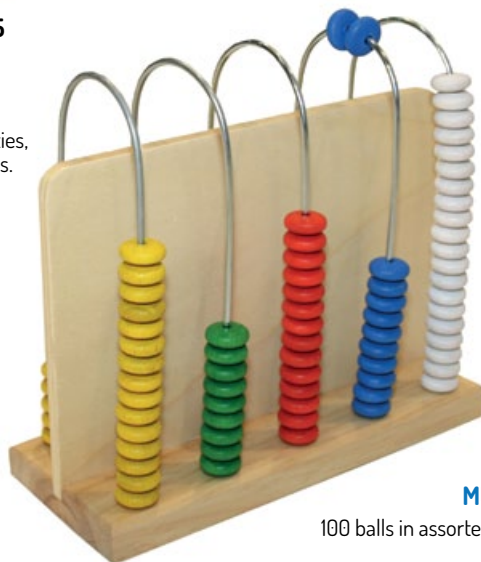

**FIVE-COLUMN ABACUS - T.O.525**

For identifying, knowing the positional value and how to break large numbers down.

100 discs for working on shifting activities, developing the precision of movements.

Dimensions: 23 x 24 x 10 cm.

**MULTI-COLOURED ABACUS - T.O.526**

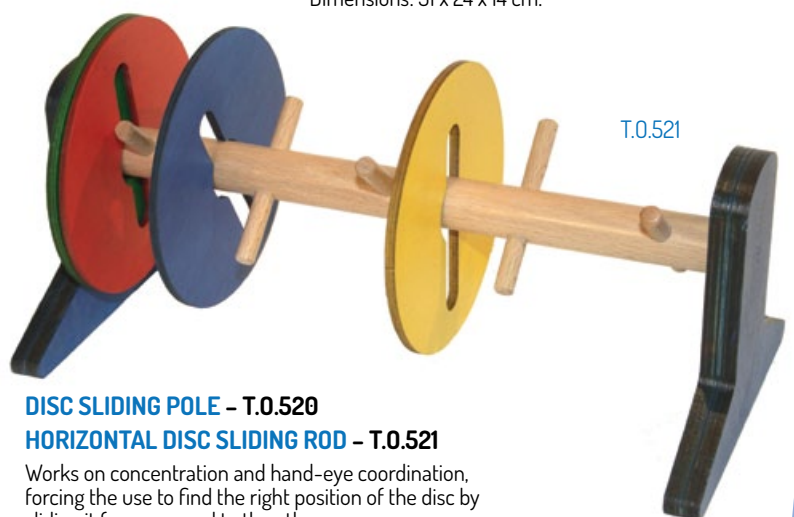

100 balls in assorted colours to promote visual stimulation as well as exercising hand-eye coordination.

Of great help in developing and exercising the notion of number and colour recognition.

Dimensions: 31 x 24 x 14 cm.

T.O.520

T.O.521

**DISC SLIDING POLE - T.O.520**

**HORIZONTAL DISC SLIDING ROD - T.O.521**

Works on concentration and hand-eye coordination, forcing the use to find the right position of the disc by sliding it from one end to the other.

Three large discs (14 cm. in diameter) in different colours.

# MOTRICITY

## LINKING ACTIVITIES

### MATCH AND SCREW - T.O.515

A dexterity exercise comprising 48 different coloured geometric parts to match and screw together. Works on motor skills, association and concentration-building.

### THREAD THE ALPHABET - T.O.535

Fine-tuned motor skills exercise, developing the precision of movements, concentration and hand-eye coordination. Each template includes its matching letter in capital and lower-case form, thereby familiarizing the user with reading and writing.

### PLAITED LACES - T.P.4347

Container with 60 1m-long laces in bright colours with plastic ends.

### LARGE NEEDLES FOR THREAD - T.P.4350

Cien agujas para complementar y facilitar el trabajo de enlazado y de cosido.

### THREAD THE GEOMETRIC SHAPES - T.O.536

Fine-tuned motor skills exercise, developing the precision of movements, concentration and hand-eye coordination.

### BUTTONS ON A STRING - T.O.540

Contains 140 large, brightly coloured buttons with 1 to 5 holes, 10 x 1 m. long strings and activity cards. The number and its representation are etched in braille.

### CHARM BRACELET - T.P.4328

Develops precision of movements. Contains 60 different pieces in attractive colours and shapes + 10 threads 1 m. in length with plastic ends.

### SHAPES FOR THREADING - T.O.541

A game in which the user threads together shapes of different sizes, beneficial for hand-eye coordination. Contains 180 varied shapes in bright colours and braided threads 1m in length with plastic ends.

**CHAIN LINKS - T.O.546**

Benefits hand-eye coordination, enhances attention span and concentration.  
Set of 60 large links (64 mm.) in a range of colours,  
Includes 22 full-colour cards with sequencing and sorting activities.

T.O.546

T.P.4338

**GIANT CHAIN LINKS - T.P.4338**

Large pieces for working on early stage manipulation exercises, visual and tactile stimulation (each link has a different texture).  
Set of 16 large links + 12 activity cards.

**LINKING BEADS - T.O.550**

In different textures and varied colours, these help the child to differentiate basic shapes and colours.  
16 large beads, 18 mm. in diameter, which fit together with gentle pressure.  
Includes 12 cards with different activities.

T.O.550

**SET OF STRAIGHT RODS - J.T.11010**

This activity benefits observation ability, eye-hand coordination, precision, and the discrimination of shapes and sizes.  
Varnished wooden board with inserted calibrated steel rods, with chrome finish.

**TRIOLO WORKSHOP - T.O.523**

An activity that works on vertical manipulation, ideal for developing the imagination and eye-hand coordination.  
Comprises 24 large pieces in 4 shapes and 3 colours which the child can stack vertically on the three mast-like rods mounted on the board.

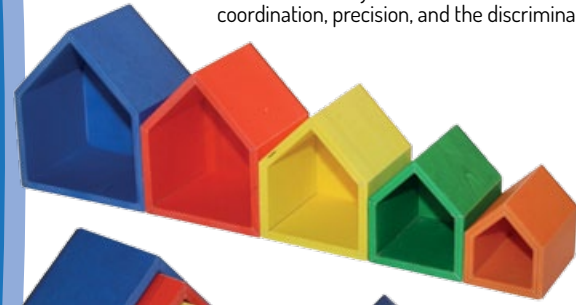

# MOTRICITY

## SLOTTABLES

### MESHING GEARS - T.P.4216

This activity benefits observation ability, eye-hand coordination, precision, and the discrimination of shapes and sizes.

### INTERLOCKING HOUSES - T.O.570

Comprises five houses in different shapes and sizes. This game helps us to develop spatial orientation by slotting the smaller house into the larger one, as well as benefitting the sense of progression by placing the houses in ascending order from smallest to the biggest, or in reverse.

T.O.573

### GEOMETRIC SHAPES AND BOARD - T.O.573

Set of 16 geometric shapes to slot in to position on a wooden base board.

Their different sizes, shapes and colours are designed to work on distinguishing shapes and colours.

T.O.575

### SHAPES AND COLOURS - T.O.575

Recommended for working on motor skills, logic and shape and colour discrimination.

Tray comprising 4 black pieces + 18 pieces in different shapes and colours to slot into the corresponding holes.

### NUMBER PEGS AND HOLES - T.O.580

Wooden peg and hole puzzle with ten pieces. Double layer base illustrated with the number of each animal that fits in its own hole. This puzzle stimulates the imagination and discovery of the surrounding environment.

Base measuring 28 x 28 cm., 10 pivoting numbers to work on positioning one's fingers in a pincer movement.

### NUMBERS + ALPHABET PEGS AND HOLES - T.P.4204

Teaches the child to relate upper and lower-case letters and numbers with points, which is beneficial for the child's powers of observation.

### ALPHABET PEGS AND HOLES - T.O.581

For review of the letters of the alphabet, working on fine-tuning the motor skills and visual stimulation.

The letters stand out from the base for ease of handling.

**ANIMAL SOUND PUZZLE - T.P.4186**

**VEHICLE SOUNDS PUZZLE - T.P.4189**

Peg and hole matching puzzle recommended for exercising hearing ability.

Dimensions: 28 x 28 x 3 cm. (7 pieces).

## STACKABLE ITEMS - MOSAICS

**BALANCING TOWER - T.P.4231**

A game that combines handling skill and association. 60 pieces of fruit to match up with the tray and put into stacks.

**THE GIANT TOWER OF CUBES - T.P.4234**

85cm tall tower for exercises involving skill, association and sequencing.

Sequences can also be formed with the tower laid flat.

**ARCHITECTURE GAME (54 pieces) - T.P.4360**

Construction workshops help users to develop motor skills, build spatial structures, manage concepts such as bigness, smallness, height, shortness, shorter/longer, geometric shapes, similarities, etc. Also acquired are notions such as balance, symmetry and resistance

**CIRCLE MOSAICS IN 3 SIZES - T.O.560**

Good for eye-hand coordination. Contains 50 large, 60 medium and 250 small circles. Includes cards illustrating various examples to build.

T.O.560

T.O.565

**GIANT MOSAIC - T.O.565**

Recommended for working on spatial organization and eye-hand coordination.

Board measures 84 x 70 cm. for working while seated or for mounting on the wall.

**ACCESSORIES NOT INCLUDED:**

**SET OF SKEWERS (270 pieces) - T.O.566**

270 large (40 mm.) skewers in 4 colours and 4 shapes, to practise manipulation and fitting in place on the grid board.

**SET OF PRINTS (set of 12) - T.O.567**

12 plastic prints with two sides, very easy to change.

# MOTRICITY

## JIGSAW PUZZLES

### TIME SEQUENCES PUZZLE - T.P.412

Contains 10 x 3-part puzzles with sequential illustrations.

### ALPHABET FLOOR PUZZLE - T.P.4161

Manipulation activity that motivates young children at the pre-reading, pre-writing stage. Encourages the formation of relationships between objects - initial letters - words. Develops the skills of observation and association.

Comprises 28 letter pieces + 28 matching object pieces to put together to solve the puzzle, a poster-size solution to the puzzle and a colouring sheet.

Dimensions: 70 x 48 cm.

Available in: Spanish or French.

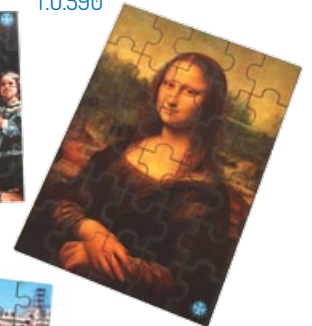

### COUNTING FROM 1 TO 10 (55 piece set) - T.P.4100

Puzzle for small ones to learn to recognize numbers in a fun way.

T.0.590

### ADDING AND SUBTRACTING (64 piece set) - T.P.4103

Puzzle for small ones to learn to add and subtract in a fun way.

T.0.592

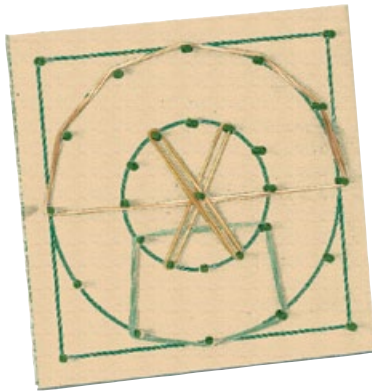

### WORKS OF ART PUZZLE (30 piece set) - T.0.590

### REGIONAL PARTIES PUZZLE (45 pieces) - T.0.592

Set of 3 large puzzles measuring 35 x 25 cm.

Includes a wooden box with three sections.

## ACTIVITIES WITH NUMBERS

### 25-POINT GEO-BOARD - T.O.670

This activity works on spatial orientation through the formation of different geometric shapes while developing manual skills and dexterity.

### SEQUENCING GAME - T.O.680

Manipulation game to develop logical reasoning, visual perception, shape and colour recognition.

Consists of replicating the various sequences shown in the templates on the horizontal or vertical plane.

92 pieces in different shapes and colours + 10 templates.

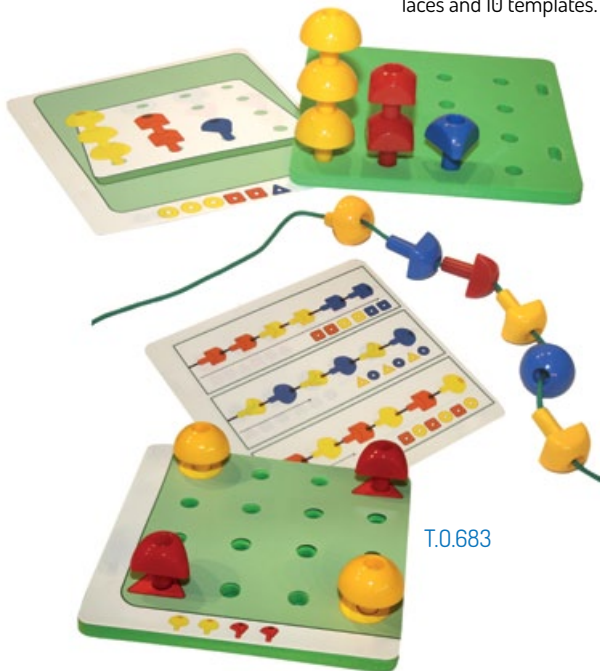

T.O.680

### SLOTTABLE SHAPES - T.O.681

Can be used on its own for manipulation exercises or in combination with the sequencing game (T.O.680).

130 pieces in different shapes and colours, 10 laces and 10 templates.

T.O.683

T.O.681

### CLASSIFICATION AND SEQUENCING - T.O.683

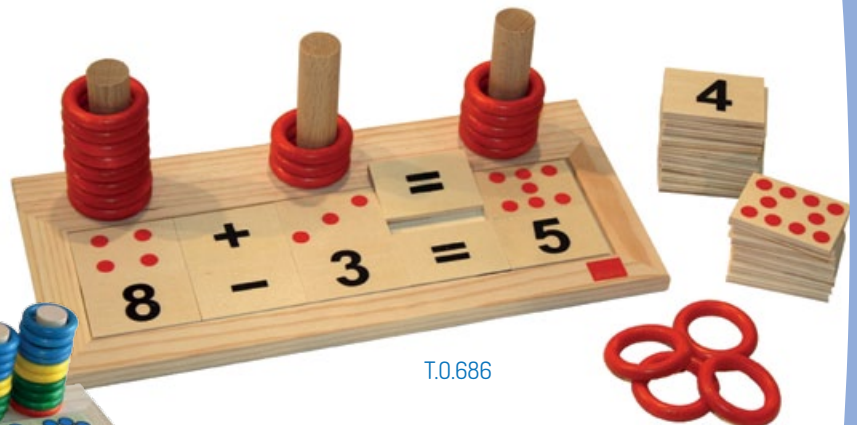

Pegs of different shapes and colours with 36 suggested activities on plastic laminated cards for working on vertical sections, interlocking sequences, relating numbers to pictures and spatial orientation exercises.

144 pegs, 18 cards, 4 boards and 10 strings.

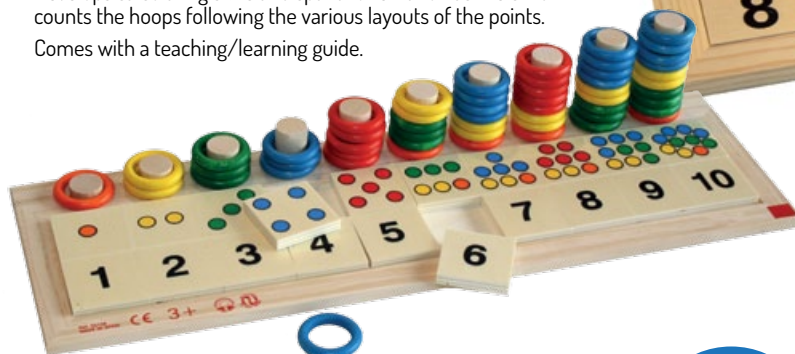

### HOOPS, POINTS AND NUMBERS (74-piece set) - T.O.685

Develops calculating skills and spatial orientation as the child counts the hoops following the various layouts of the points.

Comes with a teaching/learning guide.

T.O.686

### ADD AND SUBTRACT RINGS - T.O.686

Recommended for practising simple sums and subtractions, associating and relating the concepts of number and quantity.

Comprises a baseboard, 10 figure pieces, 10 answer pieces, 6 sign pieces and 20 rings.

# COGNITIVE OCCUPATIONAL THERAPY

T.O.695

## ARITHMETIC WORKSHOP - T.O.690

Recommended for recognition of numbers from 0 to 100 and to practise doing simple calculations.

Contains 216 cards - printed on both sides and in two colours.

## ACTIVITIES WITH EUROS - T.O.695

An excellent game to practise the association of coins and banknotes with their written form in figures, the elements that make up the Euro, visual discrimination and selecting the appropriate notes/coins according to different criteria.

Comprises 18 large cards with different activities (3 different games: I'll buy it, Euro Bingo, and the Market Game), 48 coins and 42 banknotes, washable and unbreakable, real size teaching and learning guide.

18 illustrated cards (21 x 29,7 cm).

## CLOCK WITH CALENDAR - AZ.2030

Clock with a system of moving cards (these cannot be taken out to ensure they are not lost), which helps to learn the months, seasons, the weather, days of the week, times, hours and minutes.

Dimensions: 44 x 44 x 3 cm.

## ACTIVITIES WITH LETTERS

### THE ALPHABET - T.O.645

216 cards, distributed according to their frequency of use that enable users to make words and sentences, promoting the use and mastery of language.

Capital letters are in black on one side and lower-case letters in blue on the other side.

### MAGNETIC WHITE/BLUEBOARD, DOUBLE SIDED - T.P.4003

Can be used in horizontal or vertical position; the blank face can be written or drawn on using a felt-tip pen while the blue side can be written on with chalk.

The magnetic letters and numbers provided can also be used on both sides.

Includes 36 letters, 27 numbers with +/- signs, 1 felt-tip pen, 1 sponge eraser and a box of chalk containing 3 pieces.

Dimensions: 47 x 36 cm.

### NOUNS - T.O.646

### VERBS - T.O.647

Contributes to improving, extending and enriching one's vocabulary by matching photos to words.

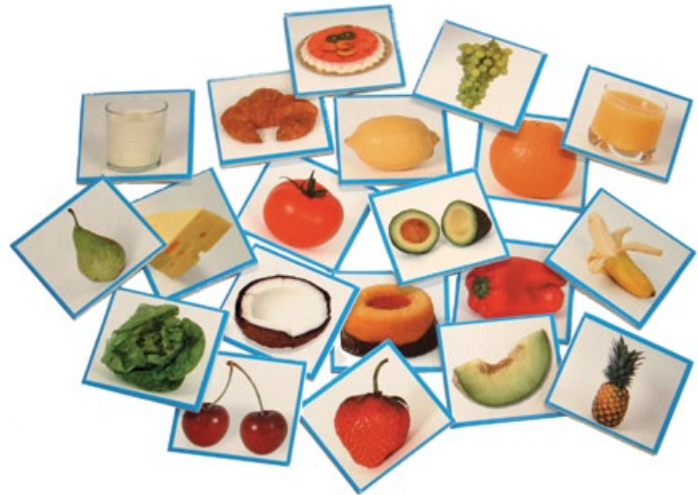

108 photographs and 108 words matching the nouns/verbs illustrated in the images.

Self-correction cards and teaching/learning guide.

Available in: Spanish/English/French.

## ASSOCIATIONS

**PAIRS CARD GAME, FOOD (40 items) - T.O.611**

**PAIRS CARD GAME, ANIMALS (110 items) - T.O.612**

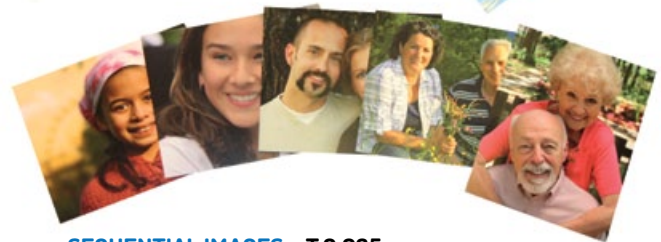

Wonderful photos for pairs, ideal for developing visual memory, stimulating observation skills and the ability to relate images to one another.

T.O.655

T.O.635

**SEQUENTIAL IMAGES - T.O.635**

The photographs will help to reinforce the concept of time and chronology, tackling notions such as successive events (before, now, after) and simultaneous occurrences.

40 colour photos measuring 15 x 12 cm.

### DAILY LIFE - T.O.655

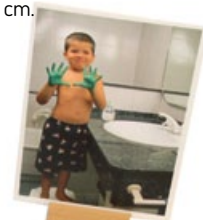

A series of photographs to work on recalling and stimulating dialogue. Contains sequences of the most common situations elderly persons encounter in daily life (e.g. walking, sewing, reading and washing). Wooden box containing 30 highly durable photographs measuring 10 x 15 x 0,5 cm.

### ORDERING SEQUENCES - T.P.4045

50 photographs depicting sequential activities that will help notably in working on chronological perception.

Includes a teaching/learning guide and stand to secure the photographs.

T.P.4045

# COGNITIVE OCCUPATIONAL THERAPY

## FACIAL EXPRESSIONS - T.O.650

Triggers conversation through questions and reflections about a range of facial expressions, or can be used to identify the 10 different expressions, associating them with four real people. Comprises 10 master cards, 40 cards with photographs and teaching/learning guide.

## IDENTIFY THE FIVE SENSES - T.O.705

Observation game with activities involving classification, identification and sorting. Contains 10 master cards of each of the five sense organs and 40 photographs. Comes with a teaching/learning guide.

## BEFORE AND AFTER - AZ.2010

Game comprising 90 photographs distributed in 30 "before-during-after" sequences. Each sequence comprises 3 photographs. Includes self-correction system and pedagogical guide.

## RIGHT AND LEFT - T.O.625

This game enables the user to start working on distinguishing right from left in him/herself and in others by manipulating photographs showing people from the front and the rear and objects on one side or the other. Includes a teaching/learning guide, 16 worksheets, 4 wrist straps and 1 stand to hold the photograph of the person and the objects.

## COLOUR ASSOCIATIONS (30 items) - T.O.616

Strengthens attention, works on sorting, differentiation and association.

# COGNITIVE OCCUPATIONAL THERAPY

## THE SENSES

### SPATIAL ORIENTATION - T.O.702

An excellent game for developing spatial orientation, observation, positional awareness and tactile differentiation.

Contains 7 solid geometric figures, 7 photographs of the geometric figures and 28 cards with photographs of objects of the surrounding environment that represent the geometric figures encountered in daily life.

Includes a teaching/learning guide with details of the figures and how to paint them, cut them out and assemble them, plus an opaque bag to work on recognizing objects with the sense of touch.

T.O.700N

### TACTILE ASSOCIATION AND PERCEPTION - T.O.700

### TACTILE ASSOCIATION AND PERCEPTION - T.O.700N

This activity is specially recommended for working on association, memory, reasoning and tactile/visual recognition.

Washable fabric bag containing 24 x 3-dimensional wooden shapes and 12 playing cards (12 panels, each of which shows the silhouette of two identical figures).

T.O.700

### TOUCH-PHOTO ASSOCIATION - T.O.716

Develops the sense of touch, establishing a visual-tactile relationship between photographs and the sense of touch.

Also search for the matching card from a photograph using a sense of touch while wearing a mask.

Contains 16 cards for touching, 16 photographs and 2 masks.

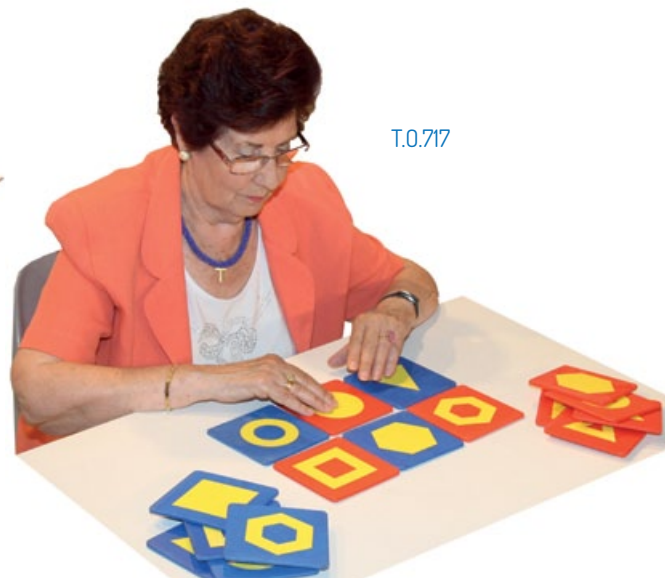

T.O.716

### RECOGNIZE BY TOUCH (STEREOGNOSIS) - T.O.715

For recognizing objects using the sense of touch.

Arouses interest, investigation and discrimination between objects.

The user inserts both hands inside a box and describes the hidden objects.

T.O.717

### TACTILE MEMORY - T.O.717

This activity works on the recognition of different materials and geometric shapes through touch.

Comprises 16 large square pieces (11.5 x 11.5 x 0.5 cm.) in pairs, divided into two colours (red and blue) used in a similar way to a set of dominoes.

### FRUIT AROMAS - T.O.707

Real-life photos enable a relationship to be established between the pictures of fruit and their smells.  
12 pots of aroma with 24 photographs of the different fruit, whole and cut in pieces.

T.O.707

### BOX OF SMELLS - T.O.708

A box containing twelve different essences: cinnamon, coconut, eucalyptus, strawberry, lemon, mandarin, peach, orange, rosemary, rose, vanilla and violet.

### SOUNDS OF ACTIONS AND MUSICAL INSTRUMENTS - T.O.710

### ANIMAL AND NATURE SOUNDS - T.O.711

### HOUSEHOLD AND STREET SOUNDS - T.O.712

For auditory discrimination and learning to recognize, differentiate between and name sounds.  
Contains 25 different sounds on a CD, 25 photographs on both sides, 150 red cards and a teaching/learning guide.

T.O.712

T.O.710

T.O.711

# SPECIAL ALZHEIMER'S

## PHOTOGRAPHS

### FOOD PHOTOS - AZ.2045

50 photographs of food - the images show two different states of each food. The user acquires a fuller understanding of foods and develops the language needed to describe them: "whole", "cut", "one", "two", "several", etc.

A.Z.2051

### HOUSEHOLD OBJECTS, PHOTOS (50 items) - AZ.2047

### EVERYDAY OBJECTS, PHOTOS (46 items) - AZ.2051

### MEANS OF TRANSPORT, PHOTOS (45 items) - AZ.2053

Photographs of everyday objects and means of transport. Very useful for the development of oral expression and the alphabet.

A.Z.2047

### SET OF COMMON ANIMALS - AZ.2020

Facilitates the development of symbolic play, motivating interest in and learning about the world of animals, their habits and characteristics.

### OCCUPATIONS - AZ.2015

Association game for recalling different jobs and learning to relate them to the clothing, gear and tools used in each job. Set comprising: 12 job cards + 48 cards to match with the occupations.

**SYMBOLIC GAMES**

**THE MARKET KIT - AZ.2150**

Especially recommended for enhancing the memory and thinking processes, as well as working on recall with patients suffering from Alzheimer's Disease.

This symbolic activity re-enacts daily situations encountered in a market (e.g. buying, selling and paying) related to dietary habits, acting out professions, etc.

**Cabinet on wheels containing:**

**FRUITS - AZ.2100**

**VEGETABLES - AZ.2105**

**DRIED FRUITS AND NUTS - AZ.2110**

**TINNED FOODS (IN TINS) - AZ.2115**

**PACKAGED FOODS (JARS AND CARTONS) - AZ.2120**

**COOKED MEAT - AZ.2125**

**RAW MEAT - AZ.2130**

**FISH - AZ.2135**

**CAKES AND PASTRIES - AZ.2140**

**"MARKET" SIGNS (SET OF 3) - AZ.2145**

**ACTIVITIES WITH EUROS - T.0.695**

**EURO SET - T.0.696**

The Kit may vary according to the stock of elements that comprise it. In any case, replacement elements will have the same characteristics and perform the same function.

**FRUITS - AZ.2100**

15 life-size pieces of fruit.

**VEGETABLES - AZ.2105**

11 life-size vegetables (e.g. pepper, carrot, tomato and garlic).

**DRIED FRUITS AND NUTS - AZ.2110**

30 assorted life-size dried fruits and nuts.

**PACKAGED FOODS (IN TINS) - AZ.2115**

5 life-size tins of food.

**PACKAGED FOOD (JARS AND CARTONS) - AZ.2120**

12 different life-size jars and cartons.

**COOKED MEAT - AZ.2125**

16 pieces of life-size different kinds of cold meat.

**RAW MEAT - AZ.2130**

6 pieces of different kinds of raw meat.

**FISH - AZ.2135**

12 pieces of different kinds of fish.

**DESSERTS - AZ.2140**

15 assorted life-size desserts.

**MARKET SIGNBOARD - AZ.2145**

Board with the word "MARKET" engraved, to write the name of a particular kind of shop (greengrocer, fishmonger, bakery, etc), the price of an item or other alternatives such as "SPECIAL OFFER", etc. 15 x 15 cm. erasable board with a wooden stand. Includes marker.

**SET OF EURO BANKNOTES AND COINS - T.0.696**

Comprises 28 banknotes in denominations of 5, 10, 20, 50, 100, 200 and 500 euros (4 of each) and 80 coins of 0.01 to 2 Euro (10 of each), actual size. Made from hygienic and durable, washable material.

## SPECIAL ALZHEIMER'S

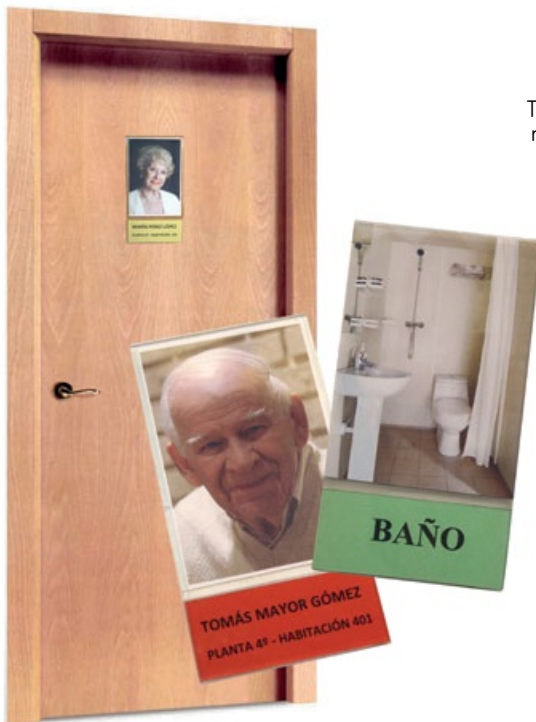

**TALKING PHOTO ALBUM – AZ.2040**

24-page photo album with 10 seconds' recording time per page.

Ideal for remembering our loved ones with a personalized voice message for each of them.

Can also be used to record various memory-jogging messages or to create a step-by-step instruction manual.

15 x 10 cm. (A5)

**SIGNS AS MEMORY AIDS – AZ.2340**

In two sections: at the top is a picture, while the bottom has the corresponding name and room. Can also be used to denote different rooms by placing simple drawings for recognition; e.g. a washbasin to signal the bathroom.

Removable, transparent adhesive signs that can be attached to doors without causing damage.

10 transparent signs measuring 18 x 10 x 0.5 cm.

**PROGRESSIVE PUZZLES (4, 8, 12 pieces) – T.O.587**

Set of 3 large puzzles with 4, 8 and 12 pieces measuring 35 x 25 cm., depicting regional fiestas.

Includes a wooden box with three sections.

**MEMORY RECALL – AZ.2001**

Cognitive stimulation programme aimed at improving memory in adults.

The aim of this programme is to acquire a series of resources that stimulate memory and subsequent recall of information, as well as using these strategies more generally in daily situations.

Available in Spanish only.

**MEMORY RECALL – AZ.2003**

This book includes a range of exercises to develop one's memory, enhance the brain's memory storage capacity as well as its ability to select data which enables it to pin down the event it is looking for among a host of data. The exercises work on the use of willpower and self-control to be able to select memory data and acquire a good awareness of sensory experiences.

Available in Spanish only.

Recall therapy or interventions that target the emotions, mainly consist of working on past experiences in an individual or group setting using photographs, objects from the home, recordings, songs, games and other items from the past.

Highly recommended for working on the most advanced cognitive impairments. This can prove beneficial for cognitive reconstruction and mood, by reducing anxiety and challenging behaviour.

By working on distant memories, the identity of the user is reinforced, and especially continuity. As lived experiences, both past and present, are linked; thus helping to establish continuity in a person's life story.

**BEFORE AND NOW - AZ.2065**

The object of this game is to match 20 pairs of photographs from the past and their corresponding contemporary object (e.g. an iron, radio, automobile, train and telephone).

Wooden box containing 40 extra-thick durable photographs measuring 10 x 15 x 0.5 cm.

**BEFORE AND NOW - CUBAN EDITION - AZ.2065/C**

**CELEBRITIES FROM THE 1960s - AZ.2200**

Using photographs of the most famous people and newspapers from Spain in the years 1950 to 1970, recall of memories and experiences are stimulated, as well as the feelings and emotions associated with those memories.

Wooden box containing 46 highly durable photographs, measuring 15 x 10 x 0.5 cm.

**ADVERTS FROM THE 1960s - AZ.2205**

Collection of photographs compiled from the most famous advertisements and TV commercials seen in Spain from the 1950s to the 1970s.

The aim of this entertaining collection is to trigger memories, feelings and emotions among the elderly.

Wooden box containing 47 highly durable photographs, measuring 15 x 10 x 0.5 cm.

# ALZHEIMER - REMINISCENCES

## GUESS WHO? - AZ.2210

Recommended for people with memory loss or mild-moderate, early stage Alzheimer's disease.

An excellent activity for working on memory, recalling feelings and emotions by matching the person to the card. 25 numbered cards of people who were famous in Spain from 1950 to 1970, with 25 matching cards showing their full name.

Wooden box containing 25 highly durable photographs measuring 15 x 10 x 0.5 cm., with 25 cards and a guide for the therapist

## GUESS WHO? CUBAN EDITION - AZ.2210/C

## POPULAR SAYINGS - AZ.2211

21 sayings divided into 2 cards that have to be joined correctly to complete the saying.

Recommended for working on memory.

Wooden box containing 61 numbered cards with a guide for the therapist.

Available in Spanish only.

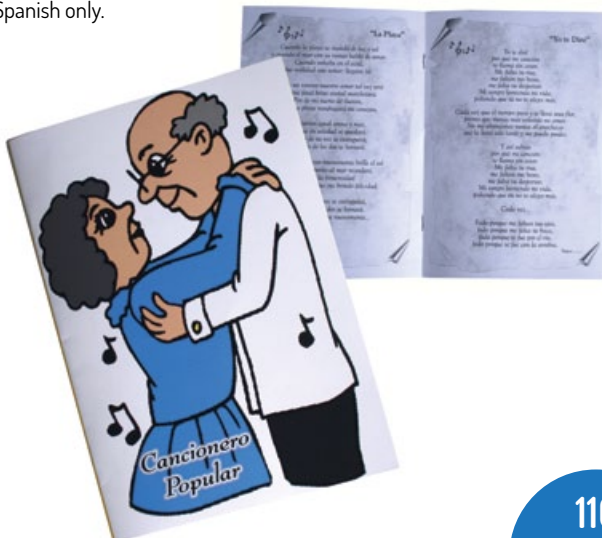

## POPULAR SONGS - AZ.2220

Contains 56 popular songs from years gone by, to help arouse emotions and recover identity; stimulating powers of attention and bodily expression.

This is an excellent technique for group stimulation.

Available in Spanish only.

## TRADITIONAL SONGS FOR GAMES - AZ.2230

44 songs that were sung to accompany traditional popular games in the earliest stages of life that will help to recall memories of early childhood, adolescence and youth.

Learning songs from the past with a high linguistic content, now virtually forgotten, and taking part in various musical games to stimulate the memory and cognitive abilities.

Available in Spanish only.

**REMINISCENCES KIT - AZ.2240**

The process of recalling, evoking lived experiences, is one of the most beneficial techniques used with the elderly, especially those suffering from Alzheimer's disease, and can result in notable progress in cognitive, social, mood and behavioural aspects.

This box of memories, containing objects that were used and needed throughout their lives, will be highly satisfying for users (they can tell each other about them and gain importance within the group); for well-being and self-affirmation.

**GAMES OF YESTERYEAR**

Games from another generation that our elders will surely recognize.

Without a doubt, this collection will stimulate memories, lived experiences and emotions from the past; as well as being a form of recreation, reinforcing relationships, dialogue and above all fun, which is of such importance in combatting loneliness or depression.

Includes an instruction manual.

- BOTTLE CAPS - AZ.2250**
- KNUCKLEBONES (JACKS) - AZ.2255**
- MARBLES - AZ.2260**
- TIDDLYWINKS - AZ.2265**
- CUP AND BALL - AZ.2270**
- SPINNING TOP - AZ.2275**
- MAZE - AZ.2300**
- TANGRAM - AZ.2305**
- MIKADO - AZ.2310**
- CUT-OUT DOLLS - AZ.2320**

2 cut-out dolls with wooden support.  
Cardboard cut-outs of garments to dress the dolls.

# PLAY THERAPY

### ANATOMICAL ADAPTER - L.5613

Its anatomical shape forces the person to use their fingers correctly. Supplied in bags containing three items.

### DIFFERENT BOXES - T.0.330

Sturdy cardboard boxes in 5 different shapes (round, star, square, rectangle and hexagon). Dimensions: 10 x 6 x 5 cm.

### KEY RINGS - T.0.335

Set of four wooden pieces (fish, flower, car and heart) to decorate with felt-tip pens or paint. 6 cm in length.

### EGG BOXES - T.0.340

10 wooden egg boxes for decorating. Dimensions: 4.5 x 4.5 cm.

### LARGE SET OF COLOURING PENCILS - T.0.375

The pencils are made especially thick to be easier to grip. 12 assorted colours.

### MARKERS - T.0.380

Thick-tipped for colouring. 12 assorted colours.

### EMBOSSING FELT-TIP PENS - T.0.385

Their thick texture makes it possible to apply them directly from the tube, producing a striking effect of volume. Can be used on any surface.

6 assorted colours.

### SCISSORS WITH ROUND HANDLE - 0.9481

These scissors require a minimum of effort, and can be used by left or right-handed persons.

The round handle re-opens the scissors automatically when the user stops pressing on it.

Rounded points for safety.

### T-SHAPED SCISSORS - 0.9485-1

Desk scissors, designed for use with one hand exercising slight pressure.

### DUAL CONTROL SCISSORS - 0.9486

Safety blades (rounded points).

### STRAIGHT SCISSORS FOR CHILDREN - 0.9494

Safety scissors with rounded points in attractive colours.

### FANTASY STICKERS - T.0.370

1,400 stickers in eight models and eight different colours for decorating.

### ACRYLIC PAINTS - T.0.400

Gloss acrylic paint which solidify on contact with air to form a glossy and waterproof film when dry. 5 x 250 ml. pots (red, green, yellow, blue and white).

Can be cleaned off with water before they dry.

### NON-SPILL PAINT POTS - T.0.405

6 pots of different colours.

**DRAUGHTS SET WITH PERFORATED BOARD - J.T.11000**

Set of draughts that can be stuck into the holes on the perforated board, very useful in treatments that aim to improve psycho-motor abilities.

The pieces are designed to slot into one another.

Dimensions: 60 x 60 cm.

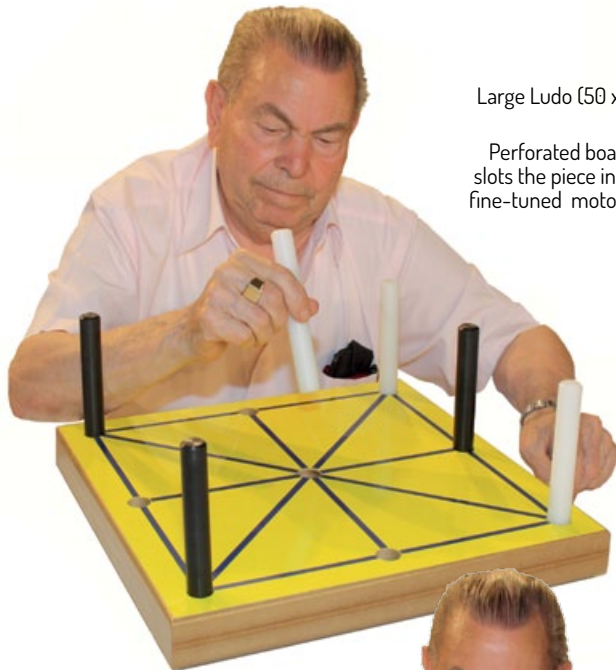

**DRAUGHT BOARD WITH 2-SIZED PIECES - J.T.11003**

Each piece comes in two sizes and is fitted with a pin for inserting on the board.

The size of the pieces enables flexing and stretching exercises to be performed while positioning the fingers

The board is perforated so that the users can work on psycho-motor and eye-hand coordination.

Dimensions: 60 x 60 cm.

**GIANT LUDO - J.T.11020**

Large Ludo (50 x 50 cm) with giant pieces for easy handling.

Perforated board in attractive colours. The player slots the piece into place, which involves the use of fine-tuned motor skills and hand-eye coordination

**3-IN-A-ROW - J.T.11030**

Six outsize pieces measuring 15 x 2 cm. for easy handling; very useful in the first steps of psycho-motor coordination.

Perforated board measuring 40 x 40 x 10 cm. to develop hand-eye skills.

**GIANT-SIZE TACTILE DOMINOES - J.T.11012**

The points are perforated and have different textures to work on tactile discrimination. Also recommended for visually impaired persons.

The large size of the pieces makes them easier to handle as more pressure can be exerted on them.

15 giant-sized solid wood pieces measuring 12 x 6 x 2 cm.

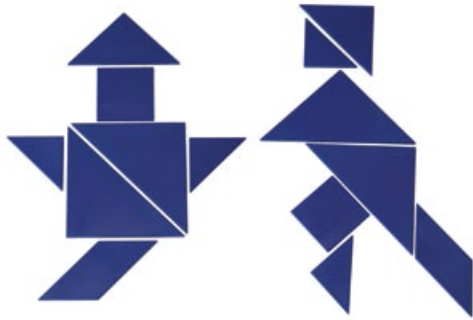

**GIANT-SIZE CARD DECK - J.T.11025**

40 cards in a cardboard pack.

Dimensions: 122 x 190 mm.

# RECREATION GAMES

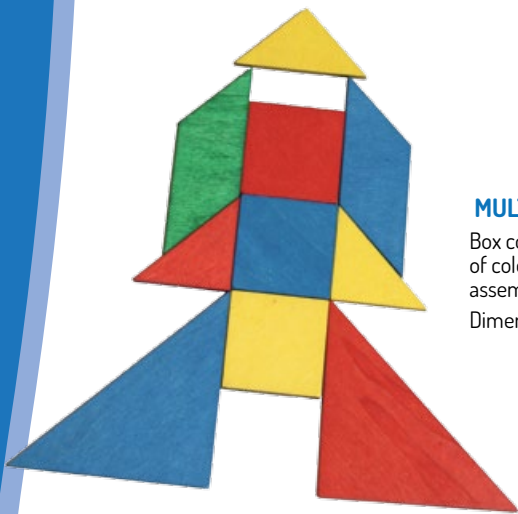

**TANGRAM – J.T.11115**

Forms over 200 shapes with seven pieces, following the full guide of examples that is included in the set.  
Dimensions: 16 x 16 cm.

**MIKADO – J.T.11065**

This game calls for great motor precision and a lot of patience. (12 pegs).

**MULTI-COLOUR TANGRAM – J.T.11117**

Box containing 4 large tangrams in a range of colours, as well as cards with figures to assemble.  
Dimensions: 22 x 22 cm.

**BOWLS – AZ.2560**

Set of six steel bowls, 73 mm. in diameter, with carrying case.

- CHESSBOARD – J.T.11050**
- LUDO AND GOOSE GAME BOARD – J.T.11055**
- LUDO AND DRAUGHTS BOARD – J.T.11060**

Wooden boards measuring 40 x 40 x 1 cm..

**ACCESSORIES NOT INCLUDED:**

**MEDIUM-SIZED CHESS PIECES – J.T.11051**

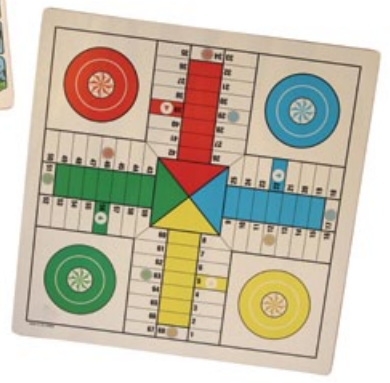

Made of wood, 7.5 cm. high.

**SET OF LARGE PIECES FOR PLAYING GOOSE LUDO – J.T.11056**

Box containing dice, cups and pieces. All extra-large size.

**DRAUGHTS – J.T.11061**

Made of wood, 2.7 cm in diameter.

**PACK OF CARDS - J.T.11085**  
**CARD HOLDER - J.T.11087**

Pack of traditional Spanish playing cards. High quality, in cardboard pack.

**CUP AND DICE GAME - J.T.11080**  
 Leather-lined cup and dice with dots. Six pieces.

**CLASSIC DOMINOES - J.T.11070**  
 Wooden presentation box.

T.0.718

**TOUCH DOMINO - T.0.718**

Dominoes game to work on recognition of different surfaces using the sense of touch. The object of the exercise is to match surfaces of the same type. 28 wooden dominoes with seven different textures.

T.0.721

**"TOPYCOLOUR" DOMINOES - T.0.722**

Wooden domino in lively colours to work on visual stimulation, discrimination and perception.

T.0.724

**MULTI-COLOURED DOMINOES - T.0.724**

The attractive lively colours of these dominoes makes them an excellent activity for working on visual stimulation.

**TABLECLOTH FOR BOARD GAMES - J.T.11090**

Felt mat measuring 50 x 50 cm. with non-slip surface and serigraphy design.

**DE LUXE BINGO - J.T.11135**

Bingo for group activities. Board and wooden balls. The numbers are etched on the balls so they will not wear away over time.

# RECREATION GAMES

### CHINESE CHECKERS – J.T.11095

Wooden board (29 cm. in diameter) for 2 to 6 players.

### 3-IN-A-ROW – J.T.11110

Traditional game that stimulates the memory, logical reasoning and hand-eye coordination.

Dimensions: 21 x 21 x 3 cm.

### CONNECT FOUR – J.T.11130

Dimensions: 27 x 20 x 12 cm.

### TOWER OF COLOURS – J.T.11120

48 wooden pieces in different colours.

### PICTURE MATCHING – J.T.11125

Set of 24 interchangeable playing cards with a range of themes that introduce children to mathematics, pre-reading, getting to know the body and animals.

**GIANT 3-IN-A-ROW - T.P.4430**

An attractive and educational vertical 3-in-a-row game with two sides - a different game can be played on each side.

On one side, the child can play 3-in-a-row with the happy/sad faces they know so well.

The other side teaches how to form words or count from 1 to 9.

The side panels are printed with the months of the year and days of the week.

Fun and educational game for the player to work on both sides at the same time, so the child learns letters, numbers, words, months and days of the week as he plays.

Dimensions: 123 x100 x 60 cm.

# SNOEZELLEN ROOMS

*Snoezelen rooms are physically and cognitively accessible environments fitted out to provide stimuli and trigger the arousal of the senses, thereby helping people understand the environment and themselves, leading to exploration.*

*Sensory stimulation techniques basically consist in stimulating the senses to enhance their functioning and thereby achieve a stronger response from the patients and a better understanding of the surrounding environment and the self.*

## The multi-sensory room will help you to work on...

- The senses - together or separately.
- Sensory integration.
- Basal stimulation, in the most complex cases.
- Relaxation.
- Emotions and memories.
- Developing self-confidence. Self-control.
- Promoting decision-making capability.
- Establishing good communications: understanding, description, relationships, lived experiences, etc.
- Responding to changing stimuli (visual, tactile, proprioceptive, etc).
- Rhythm and movement with music and visual support.
- Incentivising the exploration of one's creative abilities.
- Reducing changes and alterations in conduct.
- Increasing attention span, concentration, anticipation, etc.
- Recognizing persons and objects.
- Memory and visual interpretation.
- Psycho-motor skills, Exploration of the environment, Gross motor skills, Fine motor skills.
- Getting to know their bodies.

## Aimed at:

Persons of any age that have any kind of disability (intellectual, physical or sensory) or who suffer from any of a wide range of pathologies:

### 1. Users with disabilities:

- Genetic conditions (Down's Syndrome, Acoustic E.T....).
- Neurological conditions (Blindness, brain paralysis....).
- Occupational therapy centres.
- Special education centres.
- Associations.
- Various pathologies: Developmental problems, Autism, Mental illness, Brain damage, Chronic pain, etc.

### 2. Elderly persons::

- Day centres.
- Residential homes for the elderly.
- Neurodegenerative illnesses (Alzheimer's disease, Parkinson's disease, etc.).

### 3. Children - Early stimulation (0-6 years):

- Primary care centres.
- New-born wards in hospitals and clinics.
- Nurseries.
- Schools: PT classrooms (Learning Difficulties).
- Relaxation workshops.

**BUBBLE TUBES**

*Essential items in any multi-sensory room, they provide relaxation in addition to visual and tactile stimulation.*

*Provide smooth changes in colour through the effervescent water column.*

*Touch the tube and you will feel the vibration from the movement of the bubbles.*

*Bubble tubes help to recreate surroundings in which the colours, vibration, reflections and interactivity open up endless possibilities for visual tracking, motor skills training and cause-effect relationships.*

*They can be combined with plants and water systems to add to their attractiveness, which can also be achieved by placing many tubes in a row on the same base.*

**PASSIVE BUBBLE TUBE – EM.3306**

Bubble columns with automatic colour switching. The colours are repeated in cycles with no need to operate a switch. 120 x 10 cm.

Voltage: 220-240V / 50-60Hz + 110-127V / 50-60Hz.

**INTERACTIVE BUBBLE TUBE (4-BUTTON CONTROL UNIT):**

**1.2 m. (REMOTE CONTROL UNIT WITH CABLE) – EM.3307**

**1.75 m. (REMOTE CONTROL UNIT WITH CABLE) – EM.3308**

**1.75 m. (WIRELESS CONTROL UNIT) – EM.3308/1**

**2 m. (REMOTE CONTROL UNIT WITH CABLE) – EM.3309**

The interactive bubble towers are equipped with 4 buttons (27 x 7 x 20 cm.) to control the colour and bubbles.

The interactive tube has an automatic sequence whose speed can be increased or reduced.

Press any of the colour-control buttons to change it and make the bubble tube change colour: red, yellow, green and blue.

Voltage: 220-240V / 50-60Hz + 110-127V / 50-60Hz.

**PORTABLE BUBBLE TUBE – EM.3325**

Bubble columns with automatic colour switching. 66 x 12 cm.

Voltage: 220-240V / 50-60Hz + 110-127V / 50-60Hz.

# BUBBLE TUBES

## COLOURED BALLS FOR BUBBLE TUBES – EM.3329

## COLOURED FISHES FOR BUBBLE TUBES – EM.3330

12 fish or 15 balls that bob and down and wind through the bubbles in a serpentine motion. Totally transform the bubble tube with this accessory. The bubbles drive the fish and balls upwards, then they descend gently, creating a relaxing effect before they rise again. An extra stimulating effect.

## SAFETY STAND FOR BUBBLE TUBE – EM.3331

Can be fastened to the wall to hold the bubble tube more securely.  
21 x 40 cm.

## BUBBLE TUBE LIQUID – EM.3333

Helps to prevent bacteria and algae from accumulating in the water inside bubble tubes, enhancing the clarity and quality of the water. 25 litres.

## DRAINING PUMP – EM.3332

Empties the bubble tube easily.

## SQUARE BASE: FOR 1 BUBBLE TUBE

1x1x0.5 m.- EM.3335/1

## FOR 2 BUBBLE TUBES

1.2x1.2x0.5 m. – EM.3336/1

All of our bubble tubes are fitted with their own suction stand; however, we recommend you attach them to one of our padded bases so users can get closer to them and be seated comfortably around the tube.

## ACRYLIC MIRRORS – EM.3600

Ideal for creating an optical illusion around the space.

For example, placing the mirrors in a corner with a bubble tube will create the impression of having several bubble tubes.

Shatterproof mirrors with wooden backing so the image does not appear distorted.

Supplied in any size and any dimensions (to cater for customer needs) up to a maximum size of 2.40 x 1.20 cm.

**FIBRE OPTICS**

*The constant changes of colour are beneficial for the attention span and focus of the user and are particularly useful for persons with visual disability because they provide great visual stimulation.*

*Some suggested activities for fibre optics equipment: observation, touching, handling.*

*NB. Biting, sucking etc are not recommended.*

**FIBRE OPTICS:**

**100 UNITS (2 m.) - EM.3346**

**200 UNITS (2 m.) - EM.3354**

**400 UNITS (4 m.) - EM.3357**

Fibre-optic ensembles that change colour along their entire length.

Light source required for operation.

**FIBRE OPTICS FOR UV LIGHT (2 m.) - EM.3358**

An ensemble of one hundred fibre optic elements that change colour constantly along their full length.

Shine especially brightly in ultra-violet light.

Light source required for operation.

**FIBRE OPTICS LIGHT SOURCE - EM.3365**  
**INTERACTIVE LIGHT SOURCE WITH CONTROL UNIT - EM.3367**

The model EM.3365 provides a random cycle of colours for the fibre optics, whereas the interactive model EM.3367 allows the fibre optics' colours to be selected using the remote control supplied.

Voltage: 220-240V / 50-60Hz + 110-127V / 50-60Hz.

# FIBRE OPTICS

E.M.3376

## FIBRE OPTIC SHOWER WITH LIGHT SOURCE – EM.3376 INTERACTIVE FIBRE OPTIC SHOWER WITH LIGHT SOURCE – EM.3376/1

Its dazzling effects will make quite an impression on you.  
Can be used sitting down or standing up.  
183 x 60 cm<sup>2</sup> – 200 rods  
Includes a light source and chains to attach the unit securely to the ceiling.  
Voltage: 220-240V / 50-60Hz + 110-127V / 50-60Hz.

E.M.3386

## FIBRE-OPTIC CURTAIN – EM.3381

EM.3381

Impressive fibre-optic curtain – 90cm wide.  
Includes 100 fibre rods, light source and bracket.  
The wall bracket enables the curtain to be rotated through 90 degrees.  
Voltage: 220-240V / 50-60Hz + 110-127V / 50-60Hz.

## FIBRE OPTIC CURTAIN (m2) – EM.3390

Its bright fabrics create an impressive effect, providing an extraordinary visual and tactile experience.  
Maximum dimensions we can supply are 2 x 4 metres.  
Light source required.

EM.3390

## STAR-SPANGLED CURTAIN – EM.3386

The coloured stars shine and change constantly.  
The controller enables you to control a range of functions: shining, speed and 6 night-sky effects.  
2 m. long x 1 m. high. 48 LEDs  
Includes light source.  
Voltage: 220-240V / 50-60Hz. For 110-127V / 50-60Hz transformer required.

Now you can control all bubble tubes and fibre-optic devices wirelessly.

It's very simple: Combine up to 4 elements of your choice and control them at the same time or separately using 1 remote control unit.

You will need:

For example:

**Combines with the fibre-optic screen, the star-spangled mat, and two fibre-optic rods.**

You will need: One controller of your choice + the screen + the mat + the two fibre-optic rods with their light sources. (Apart from the rods, all of the other fibre-optic elements have a built-in light source already).

**Now you can combine 2 bubble tubes, a fibre-optic rod and the star-spangled mat.**

You will need: 2 bubble tubes + wireless receiver for each tube (no controller needed as it is built into the tubes) + wireless receiver for each tube + fibre optic rod and light source + star-spangled mat.

**A CONTROLLER:**

4 - button control handset.  
Or 1 cube.  
Or 1 joystick.

**ELEMENTS YOU CHOOSE:**

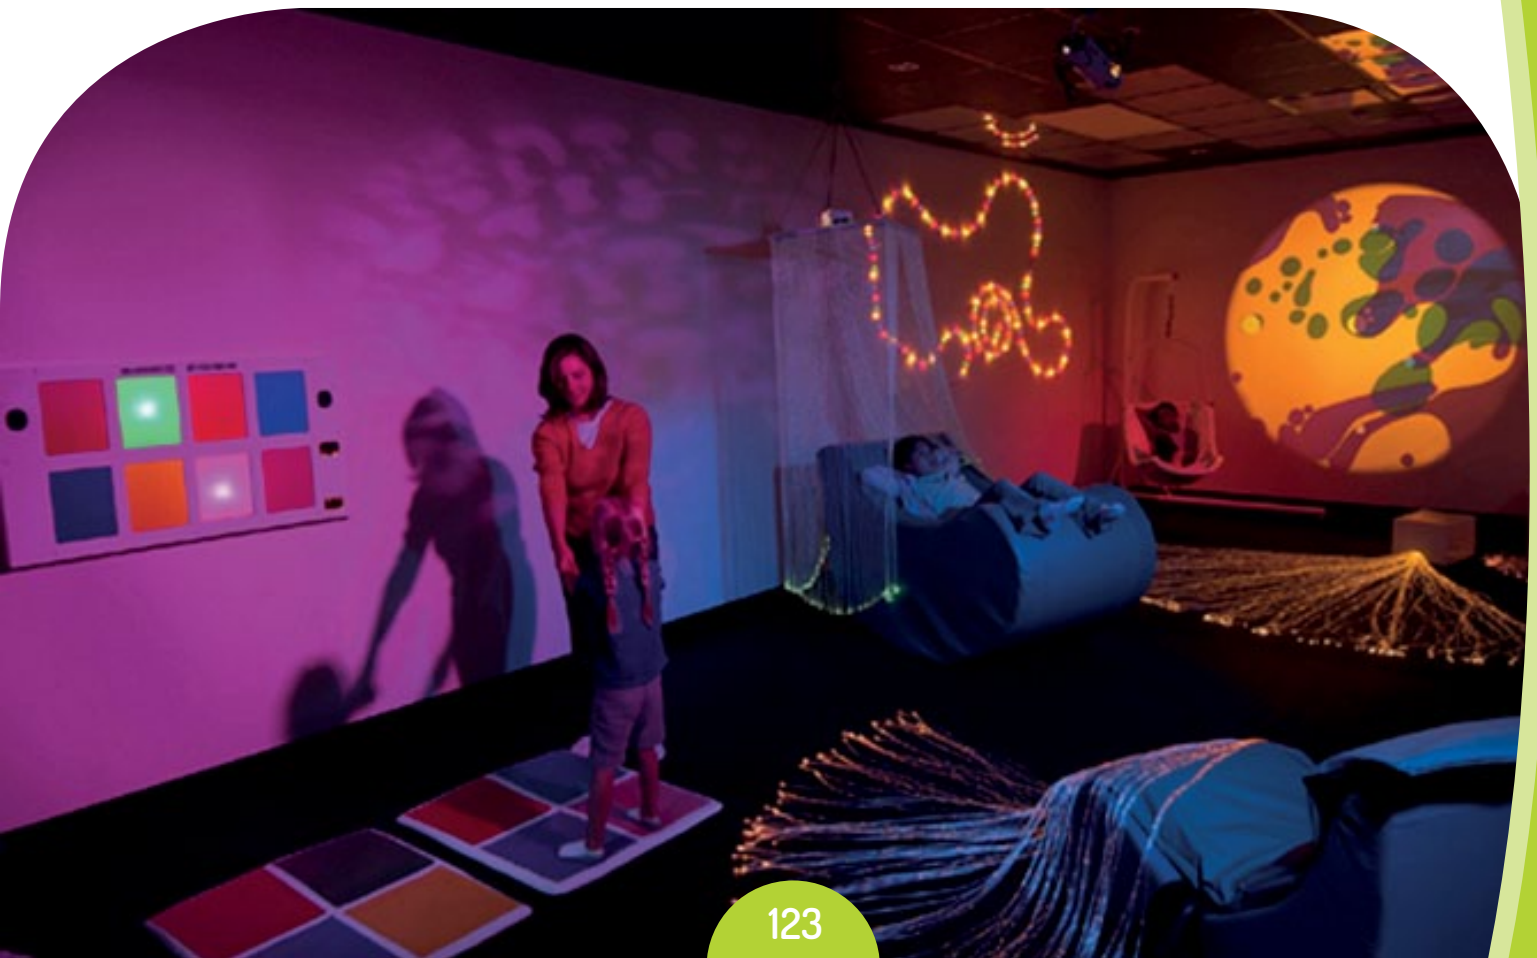

BUBBLE TUBE (Wireless receiver required)  
FIBRE OPTIC RODS OR MATS/SCREENS (with their respective light sources)

Combine up to 4 at a time!

And remember, our bubble tubes have a built-in 4-colour remote control handset, so no other control unit is required.

**WE CAN HELP YOU TO SELECT THE PRODUCTS THAT BEST RESPOND TO YOUR NEEDS.**

**FOR MORE INFORMATION PLEASE CONTACT WITH US**

# INTERACTIVE PANELS

*Interactive panels are ideal for developing communication and cause-effect relations. They combine stimuli and responses through colours, music, touch and light.*

*These are very appropriate resources for persons with visual and auditory discrimination impairment, for improving the attention span, providing tactile stimulation, etc.*

## MULTI-COLOURED LADDER – EM.3411

Comprises 15 coloured steps that change colour whenever anyone makes a noise such as clapping, shouting or singing.

The colour staircase is one of the speech therapist's favourite instruments as it encourages vocalization, breathing control and volume control using a simple visual effect.

Voltage: 220-240V / 50-60Hz + 110-127V / 50-60Hz.

107 x 38 x 20 cm.

### OPTIONAL ACCESSORY:

#### MASKS FOR THE COLOURED STAIRCASE – EM.3411/1

3 masks that bring the steps to life.

## THE ENDLESS TUNNEL – EM.3401

The Endless Tunnel is an optical illusion that is sensitive to sound, which presents the user with colours that give an impression of unlimited depth and provides visual stimulation. In addition, if the screen is touched this can even double the effect of the lights.

A large cause-and-effect toy that stimulates voice communication. Operates in different modes that enable different colour responses and images to be formed by different sounds.

Sensitivity control unit and microphone included.

Can be mounted on a wall or placed on the floor. 61 cm<sup>2</sup>.

Voltage: 220-240V / 50-60Hz + 110-127V / 50-60Hz.

## LIGHTSHOW PANEL – EM.3421

Interactive element that responds to the user's voice or ambient sound. Some or other colours are activated, depending on the tonality, forming an effect that could be described as a "colour storm".

The warm colours (red, orange, yellow) will be activated by bass sounds while the colours at the cold end of the spectrum (green, blue and purple) are triggered by high-pitched sounds.

Can be activated using a microphone (not included). Equipped with a socket for connecting another external microphone if desired.

Voltage: 220-240V / 50-60Hz + 110-127V / 50-60Hz.

60 x 60 x 10 cm.

**MUSICAL PANEL - EM.3422**

Each time a colour square is pressed on the panel or stepped on if placed on a rug, the coloured panel lights up and a note or musical sound is emitted. 16 different sound and note options. There are also 2 personalized modes for recording one's own sound bursts or compositions. Voltage: 220-240V / 50-60Hz + 110-127V / 50-60Hz. Rug 90 x 140 x 8 cm., Panel 92 x 60 x 17 cm.

EM.3423

**PALETTO - EM.3405**

Ideal for cause-effect experiences and listening, concentration and recognition skills.

Comprises 8 groups of sounds (64 sounds in all) of musical instruments, sounds from daily life, etc.

The sounds can be used to tell stories, for example.

Amplifier and speakers included. Adjustable volume.

122 x 86 x 8.5 cm.

Voltage: 220-240V / 50-60Hz. For 110-127V / 50-60Hz transformer required.

EM.3422

**SENSORY GRAVITY PANEL - EM.3424**

Designed to provide as much tactile stimulation as is needed while the child is having fun.

Also ideal for visual stimulation and the development of fine motor skills.

90 x 100 x 18 cm.

**LIGHTS AND AROMAS PANEL - EM.3423**

Ideal for stimulating the senses of smell and sight.

By pressing on one of the 4 lights or push-buttons, the player is rewarded with a pleasant fragrance. Ideal for exercising the memory since certain smells can be linked with certain colours or environments.

Can be placed on a table or wall. 61 x 30 x 20 cm.

Voltage: 220-240V / 50-60Hz + 110-127V / 50-60Hz.

# INTERACTIVE PANELS

## INTERACTIVE SYSTEM – EM.3426

Interactive education equipment which develops mobility, visual-motor coordination, perception and capacity of response through fun and learning.

All you need is an internet connection to use it. The interactive system projects a wide variety of dynamic games that enable the users to interact with the images and sounds in real time.

Very easy to use. An important tool for Snoezelen rooms, used in therapy and rehabilitation centres, schools and colleges, retirement homes, etc.

Includes a projector with a built-in movement sensor and computer. It is designed to allow for a wide range of applications in any room on a clear smooth surface (floor, tables, beds, wheelchair trays or any horizontal surface).

The size of the image displayed (approximately 2 x 3 m.) will depend on the height at which the device is suspended.

## INTERACTIVE PLATFORM FOR DOWNLOADING GAMES AND APPS

### Includes:

- Rehabilitation pack with 16 interactive games and 25 different levels.
- Movement detection system.
- Short-range projector.
- Built-in computer.
- Easy-to-use remote control (similar to a TV)
- USB, VGA jacks and LAN, audio interfaces.
- Can be suspended from the ceiling.
- Power lead.
- User manual.

### Rehabilitation Pack:

Designed for rehabilitation centres and in particular for Snoezelen rooms: Both for children with different degrees of impairment and for elderly persons, stimulating the participants' senses.

The games in this pack have been developed in collaboration with specialists in the fields of special education, rehabilitation and physiotherapy in a wide range of rehabilitation centres, adapting to the specific needs of these users.

Lively, bright colours, larger active elements, slowed-down movements. This makes the games more accessible for special education needs.

The applications provide two difficulty levels to choose from. The user is rewarded with a round of applause when the exercise is performed successfully.

Available voltages: 220-240V / 50-60 Hz, 110-127V / 50-60Hz.

Features of the activities:

- Focused on visual attention and motor skills.
- Development of spatial orientation.
- Encourages the expression of positive emotions.
- Develops major motor skills.

More information and features at: [www.ortotecsa.com](http://www.ortotecsa.com)

*The projector is the heart of the multi-sensory space, projecting slowly moving images and drawings on walls, the floor and any element in the way; creating a relaxing space, completely bathed in light.*

### STAR PROJECTOR - EM.3445

Laser projector that lights up the ceiling with hundreds of points that move slowly over a blue cloudy background, simulating a starry sky. Includes two adjustable glass lenses.  
Voltage: 220-240V / 50-60Hz. For 110-127V / 50-60Hz transformer required.

### SPACE PROJECTOR - EM.3440

Projects a pleasing circular image with liquid-like effects in a darkened room. The images can be projected onto the ceiling or walls.  
Produces an interesting effect for the audience to follow with their eyes and for working with colours.  
Includes 1 liquid wheel.  
Voltage: 220-240V / 50-60Hz. For 110-127V / 50-60Hz transformer required.

### SPECIAL EFFECTS PROJECTOR - EM.3430

The projector is supplied complete with its own rotating wheel (6" or 9" diameter), which can be speeded up, stopped or put into reverse.  
Voltage: 220-240V / 50-60Hz + 110-127V / 50-60Hz.  
14 x 24 x 38 cm.

### PROJECTION DISCS:

**FACIAL EXPRESSIONS - EM.3455/2**

**THE SEA BED - EM.3455/3**

**FARM ANIMALS - EM.3455/7**

**FRUITS - EM.3455/9**

**FIREWORKS - EM.3455/10**

### 6" DISC STORIES:

**THE THREE LITTLE PIGS - EM.3459**

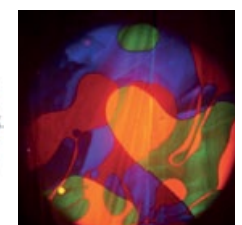

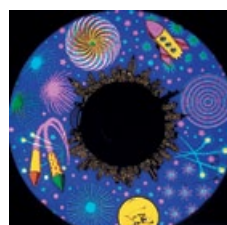

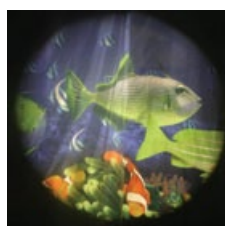

**CINDERELLA - EM.3459/1**

### LIQUID PROJECTION DISC - EM.3460

6" projection discs, used with projector EM.3430, which turns the discs slowly, projecting their contents.

These provide a great visual stimulus.

They demand little intellectual capacity of concentration, which enables users to relax with the images without needing to anticipate or decipher the shapes or patterns of the objects.

# LIGHTS AND ACCESSORIES

### PROJECTION BROLLY – EM.3480

White umbrella that enables you to create a projection screen instantly.  
123 cm. in diameter.

### PROJECTION SCREEN – EM.3485

Projection screens have a dual action as the image is projected onto the surface and also through the material.  
Ideal for fitting above a water bed, for sitting or lying down inside and relaxing with the colours.  
Dimensions: 200 cm. high x 280 cm. wide – Includes ceiling attachment.

### PROJECTION IGLOO – EM.3490

Projection surface ideal for creating a special atmosphere in which the child will want to sit or lie down.  
Dimensions: 190 x 100 x 100 cm.

## VISUAL STIMULATION

### MULTI-COLOURED BALL – EM.3507

Great for cause-effect relationships.  
Turns slowly, displaying a wide variety of coloured lights.  
The ball is activated by pressing the switch and will continue to turn for as long as it is pressed. 12V.

### MIRROR BALL 30 CM DIAMETER WITH MOTOR – EM.3500

Ideal for tracking activities in a sensory room.  
Designed to provide relaxation, visual stimulation and balance.  
Thousands of lights are created when a spotlight is focused on the mirror ball.  
The ball is attached to the ceiling and spins slowly powered by a motor.  
Voltage: 220-240V / 50-60Hz. For 110-127V / 50-60Hz transformer required.

**SPOTLIGHT FOR MIRROR BALL - EM.3510**

Spotlight ideal for use with a mirror ball.

Aim the beam of light at the underside of the ball to create points all over the floor and walls.

Voltage: 220-240V / 50-60Hz. For 110-127V / 50-60Hz transformer required.

EM.3510

EM.3511

**MULTI-COLOUR SPOTLIGHT - EM.3511**

Spotlight ideal for use with a mirror ball or can be used separately.

Wide range of colours. Comes with an infra-red remote control handset to control the colour, darkening, light, on/off and sound activation.

Voltage: 220-240V / 50-60Hz. For 110-127V / 50-60Hz transformer required.

EM.3520

**LED SPOTLIGHT - EM.3520**

Ideal for lighting small rooms and adding a touch of colour. Bright coloured, alternating reflectors with adjustable speed.

Voltage: 220-240V / 50-60Hz. For 110-127V / 50-60Hz transformer required.

**LASER SHOW SPOTLIGHT - EM.3521**

Creates a spectacular projection of between 3 and 30 metres in width with multi-coloured lasers.

Includes 4 different lenses and 39 projection combinations. Choose the lens, select the speed and let the show begin!

Voltage: 220-240V / 50-60Hz. For 110-127V / 50-60Hz transformer required.

16 x 15 x 13 cm.

**WATER SPOTLIGHT - EM.3522**

Projects multi-coloured water images.

Voltage: 220-240V / 50-60Hz. For 110-127V / 50-60Hz transformer required.

25 x 28 x 25 cm.

## LIGHTS AND ACCESSORIES

## ULTRAVIOLET

**ULTRAVIOLET LIGHT - EM.3526**

Powerful portable torch with two UV tubes that emit a high-intensity ultraviolet light. Rechargeable. Creates striking effects in dark rooms. Voltage: 220-240V / 50-60Hz. For 110-127V / 50-60Hz transformer required. 24 x 15 x 8 cm.

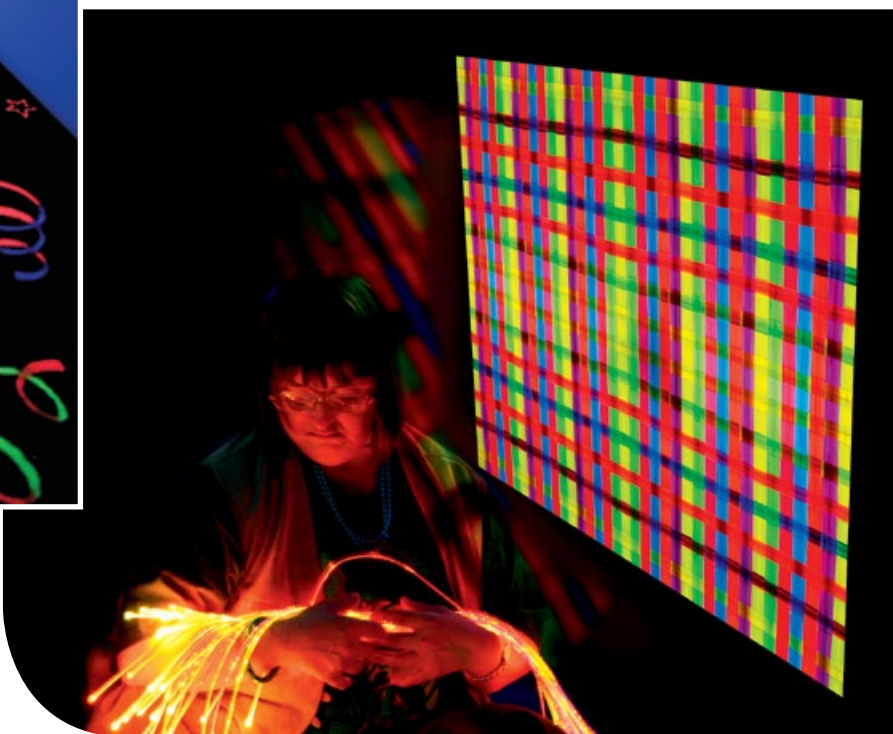

**ULTRAVIOLET LAMP - EM.3527**

Low output for close-up work. 17 cm.

**UV SCREEN/MAT (m2) - EM.3395**

Mat woven with fluorescent coloured threads. Very soft to the touch. Supplied in m2, to be laid in just one part of a room or to cover the whole floor area.

We recommend it be used in conjunction with an ultra-violet light: EM.3526 or EM.3527.

**UV MAT/CURTAIN - EM.3529**

Can be used as mat on the floor or on the wall to create the effect of stained glass window. 1 m2.

**UV CAVE - EM.3528**

A portable, fold-away cave. Ideal for sensory stimulation and perception games.

Dimensions: Cave dimensions- 1 x 1 x 1 m. Tunnel dimensions: 1.5 m. long x 48 cm wide.

**LUMINOUS TOYS (set of 6)  
- EM.3531**

Set of 6 soft figures with LED light that changes colour.

**UV MUSICAL MIRRORS ROUNDABOUT - EM.3532**

Strips of UV-sensitive acrylic mirrors. Each strip has a bell that chimes when it spins. 23 x 20 cm.

**UV COMMUNICATION SET - EM.3939**

Paints, Felt-tip Pen, Letters and Markers, all of which are UV light-sensitive.

**UV PROPIOCEPTION SET - EM.3940**

Fluorescent wrist bands, mitts, cloak and gloves.

**GROSS MOTOR SKILLS SET - EM.3941**

Football, beanbag, scarves, balls and a Slinky.

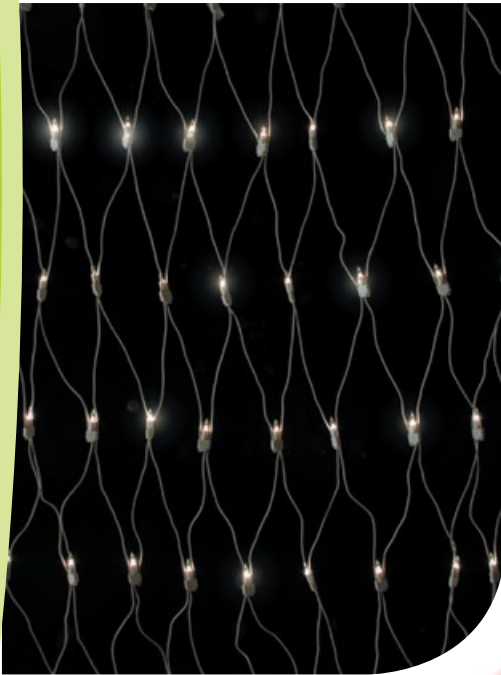

**FINE MOTOR SKILLS SET - EM.3942**

Tube with objects, plastic springs and knots game, all of which are light-sensitive.

# LIGHTS AND ACCESSORIES

## ACCESSORIES

### STAR-SPANGLED CEILING - EM.3535

Network of small lights with different effects that flash on and off in different sequences, intermittently waxing and waning.

122 x 183 cm.

Voltage: 220-240V / 50-60Hz. For 110-127V / 50-60Hz transformer required.

### SHINY CURTAIN - EM.3540

A curtain of metal strips that flutters in a light breeze that can be supplied by a fan.

An attractive way to divide spaces in a multi-sensory room. 240 x 94 cm.

### MAGIC FAN - EM.3545

Magic fan that produces moving colours. 2 x AA. 11 cm.

### RAINBOW BALL - EM.3550

Each time the ball moves, the lights come on for 10-15 seconds. 7 cm. diameter.

### FANTASY BALLS - T.P.1945

A bag of 12 foam rubber balls in attractive and varied colours. 65 mm.

### MAGIC BALL, BATTERY-POWERED - EM.3551/1

Tactile and visual ball. Changes colour when squeezed with the hand.

Very effective especially in dark environments.

Fits perfectly in the palm of an adult's hand.

2 x AA. 8 cm. in diameter.

### MUSICAL MIRRORS ROUNDABOUT - EM.3553

Spinning wooden frame with shiny chiming mirrors.

23 x 20 cm.

STIMULATION SMELL & HEARING

**SOUNDS AND SMELLS EMITTER - EM.3585**

7 natural sounds, including rainfall and heartbeats. 4 different fragrances that will activate, relax and revitalize.  
Voltage: 220-240V / 50-60Hz. For 110-127V / 50-60Hz transformer required.  
10cm x 16 x 20 cm.

EM.3585

**AROMATHERAPY BURNER - EM.3590**

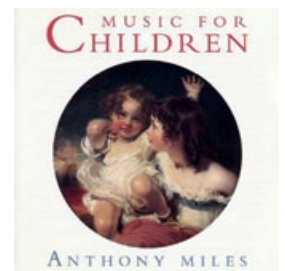

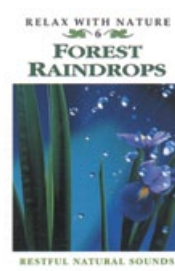

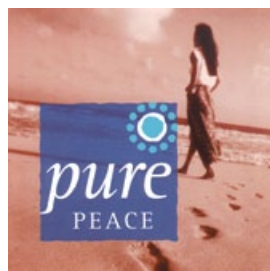

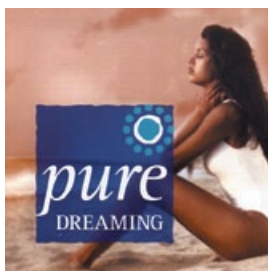

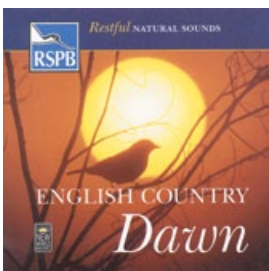

Through the burner, the essential oil is vaporized to create an aromatic and pleasant environment. A few drops will vaporize the essences to create a fragrance-filled room.  
Automatic cut-off when the water is used up.  
Timer: 2 and 4 hour settings.  
Ambient light in 5 interchangeable colours.  
Voltage: 220-240V / 50-60Hz. For 110-127V / 50-60 Hz transformer is required.

EM.3590

**AROMATHERAPY KIT WITH 12 ESSENCES - EM.3592**

Wooden case with 12 different fragrances.  
Extra-large bottles containing 100 ml. of essential oil. Balsamic and stimulating.  
Aromas: Cinnamon, Coconut, Strawberry, For Kids, Lavender, Lemon, Orange, Pine, Roses, Spa, Vanilla and Violets.  
Recommended for use with the EM. 3590 incense burner.

**PERFORATED BALL:  
12 CM - T.P.1940  
16 CM - T.P.1941**

Plastic, semi-rigid perforated ball with a metal bell inside to work on sound stimulation. The ball cannot be accessed from the outside.

- SOUNDS OF NATURE CD - EM.3571**
- OCEAN CHILL-OUT CD - EM.3572**
- PURE CHILL-OUT CD - EM.3574**
- SOUNDS OF THE FOREST CD - EM.3575**
- MUSIC FOR CHILDREN CD - EM.3806**

See our MUSIC THERAPY section for more auditory stimulation items.

# LIGHTS AND ACCESSORIES

## TACTILE STIMULATION

### DE-STRESS FIGURES – EM.3250

Set of 4 attractive silicon figures that will help reduce stress. (Die, heart, pig and ball).

EM.3227

### TOUCH BALL – EM.3227

### SPAGHETTI BALL FOR STIMULATION – EM.3228

Perfect for tactile and visual stimulation and for use to reduce stress. 8.5 cm.

### SENSORY BALL:

6 cm. size – EM.3220

8 cm. size – EM.3221

9 cm. size – EM.3222

10 cm. size – EM.3223

22 cm. size – EM.3224

16 cm. SENSORY ROLLER – EM.3225

16 cm. SENSORY HOOP – EM.3226

With protruding shapes to provide sensory stimulation, these are ideal for massaging or stimulating different parts of the body, for relaxing, improving blood circulation, etc.

E.M.3228

### SENSORY BALL:

55 cm. size – EM.3205

65 cm. size – EM.3206

75 cm. size – EM.3207

100 cm. size – EM.3209

Its surface with hundreds of protruding shapes are especially important for stimulating blood circulation, rehabilitation exercises, gymnastics, massages and help with relaxation processes and sensory stimulation.

Also recommended for working on balance and coordination.

**TEXTURE MITTS - EM.3229**

8 hand mitts with 8 different textures.

**TOUCH CIRCUIT - T.P.1686**

Each part has its own colour and texture; an excellent game that also allows us to work on sensations of the feet.

Six slabs 32 x 30 cm.

**1.- JACKNOBBER MASSAGER - EM.3235**

**2.- KNOBBER MASSAGER - EM.3236**

**3.- PALM MASSAGER - EM.3237**

Use its protruding knobs to massage tense muscles, stiff necks, tired or painful shoulders, back, arms or legs.

The smallest ball exerts the deepest pressure and therefore gives a more intense massage, while the largest ball exerts more gentle pressure.

Specially designed to fit the physiotherapist's hand to reduce the risk of RSI from over-use. Its design enables it to be used on clothing or with massage oil directly on the skin.

**DE-STRESS MASSAGER - EM.3230**

Its ergonomic design and tactile sensors provide a relaxing massage through vibration that will give a feeling of relief and well-being, thereby reducing accumulated stress and tension.

**MASSAGE TUBE - EM.3240**

Flexible and vibrating.

Battery-powered. The user can apply vibration to their back.

2 speeds. 58 cm.

**WEIGHTED BLANKET:**

**LARGE - EM.3603**

**SMALL - EM.3605**

The weight is evenly distributed through the blanket, which provides proprioceptive feedback for persons who need extra pressure.

Machine-washable cover.

EM.3603 - 152 x 84cm. 4.5 kg.

EM.3605 - 86 x 66 cm. 2.4 kg.

# LIGHTS AND ACCESSORIES

## PORTABLES EQUIPMENT

### PORTABLE SNOEZELENT EQUIPMENT (DELUXE) - EM.3896

### PORTABLE SNOEZELENT EQUIPMENT (BASIC) - EM.3897

Portable, versatile sensory experience for any space. The Portable Distraction Station is ideal where space is at a premium, such as in hospitals and nursing homes. Converts waiting rooms, treatment rooms and bedrooms into relaxing, distracting and empowering Multi-Sensory Environments. It can be moved easily from room to room on its sturdy wheels and requires only one plug to transform the room with the 'Big 3' Multi-Sensory items: Bubble Column, Projector and Fibre Optics. Measures: 70 x 45 x 58 cm.

Voltage: 220-240V / 50-60Hz + 110-127V / 50-60Hz.

#### EM.3896 Deluxe Includes:

- Portable Unit
- Stand and Cabinet with Integrated Hi-Fi & Speakers
- Interactive Bubble Column 1,2m + controller buttons
- Projector + 3 effect wheels
- 100-Tail Fibre Optics with Light Source
- Ping Pong Insert and Ball Switch
- Aroma Diffuser and Aroma Kit

#### EM.3897 Basic Includes:

- Portable Unit
- Active Bubble Column 1,2m + On/Off Switch
- Projector + 3 effect wheels
- 100-Tail Fibre Optics with Light Source
- Aroma Diffuser and Aroma Kit

## KITS AND SETS

*Everything you need to fully equip your room.*

### RELAXATION ACTIVITIES KIT – EM.3900

Drawer with wheels containing the following set of items: Massage cushion, anti-stress Massager, Jacknobby Massager, Knobber, Palm-massager, Massage Tube, De-stress figures (set of 4).

“Sounds of Nature” CD, 3 CDs (“The Sea Chill-Out”, “Pure Chill-out”, “Sounds of the Forest”), Aromatherapy incense burner, and an aromatherapy kit with 12 essential oils.

### TACTILE ACTIVITIES KIT – EM.3910

Drawer with wheels containing the following set of items: Touch box (stereognosis), Touch-photo association game, Touch dominoes, Massage cushion, Sensory balls of 55, 75 and 85 cm. in diameter, Sensory balls of 7, 9 and 22 cm., Sensory Roller and Hoop 16 cm.

### VISUAL STIMULATION KIT – EM.3905

Drawer with wheels containing the following set of items: 2 Rainsticks (30 and 50 cm.), Topycolour Dominoes, Shiny Curtain, Magic Ventilator, Rainbow Ball, Luminous Toys (set of 6), Bright sky, Fantasy Balls (set of 10) and Little Frog Mirror.

### LISTENING ACTIVITIES KIT – EM.3915

Drawer with wheels containing the following set of items: 3 sets of sounds (musical instruments, animals and nature, the house and the street), 2 Rainsticks (30 and 50 cm.), Sound Eggs (pair), fibreglass Castanets (pair) Castanets with handle, triple Sambina, Sambina with 12 pairs, Maracas (pair), Musical Bells, Guiro with stick, Football rattle, Rectangular China box (2 notes), 2 Ankle Bells, 2 bracelets with bells, Medium-sized bells on a stick, Tambourine 21cm diameter), musical Curtain, soprano flute, PVC Kazoo, 3-tone whistle, whistle siren, 4 CDs (Sounds of nature, Relaxation by the Sea, Pure Chill-out, Sounds of the Forest), 2 perforated balls with bells inside (12 cm. and 16 cm. in diameter).

# LIGHTS AND ACCESSORIES

## CHILDREN'S LISTENING ACTIVITIES KIT -EM.3915N

Drawer with wheels containing the following set of items: 3 sound games (musical instruments, animals and Nature, at home and in the street), 2 rainmaker sticks (30 and 50 cm.), 2 sound-matching games (animals, vehicles), fibreglass castanets, miniature musical bells, colour miniature bells, 2 wrist and ankle bell straps, multi-coloured tambourine, bear closed tambourine, tin drum, PVC kazoo, 3-note whistle, siren whistle, multi-coloured flute, PVC harmonica, 4 CDs, (Sounds of Nature, Pure Chill out, Sounds of the Forest and Music for Children, 2 perforated balls with bells (12 cm. and 16 cm. in diameter).

## RELAXATION ACTIVITIES SET - EM.3920

Drawer with wheels containing the following set of items: Jacknobber massager, Knobber, Palm Massager, De-stress figures (set of 4), 2 CDs (Sea Chill-Out, Pure Chill-Out), Aromatherapy incense burner and Aromatherapy Kit with 12 essences.

## VISUAL STIMULATION SET - EM.3925

Drawer with wheels containing the following set of items: 2 Rainsticks (30 and 50 cm.), Rainbow Ball, Luminous toys (set of 6), Shiny Sky, Fantasy Balls (set of 10) and Little Frog Mirror.

## TACTILE ACTIVITIES SET - EM.3930

Drawer with wheels containing the following set of items: Touch-Photo Association Game, Touch Dominoes, Massage Cushions, 75 cm Sensory Ball, 9 cm Sensory Ball, 16 cm. Sensory Roller and Hoop.

**LISTENING ACTIVITIES SET - EM.3935**

Drawer with wheels containing the following set of items: Rainstick (30 cm.), Sound eggs (pair), fibreglass castanets (pair), Maracas (pair), Guiro with stick, Ankle bracelet with bells, Wristband with bells, Tambourine (21 cm.), PVC Kazoo, 3-note whistle, Siren whistle, 2 CDs (Sounds of Nature, Sounds of the Forest), Perforated bell ball 16 cm. in diameter.

**CHILDREN'S LISTENING ACTIVITIES SET - EM.3935N**

Drawer with wheels containing the following set of items: Rain stick (30 cm.), fibreglass castanets, coloured Bells, wristband - anklet with bells, multi-coloured tambourine, tambourine, PVC Kazoo, 3-tone whistle, siren whistle, PVC harmonica, 2 CDs (Sounds of Nature, Pure Chill-out), 12 cm. perforated ball with bell inside.

**UV ACTIVITIES KIT - EM.3937**

2 UV mats (approx 25 x 60 cm.), 1 LED glove, 6 paints, 1 multi-colour LED ball, 5 UV markers, one UV bulb, 2 UV rods, 3 UV tubes 1m balloons (2, 6 and 10 mm. Ø), 1 UV torch light, 3 fluorescent wool cocoons, 1 colour-changing egg, 3 bright mats, 1 bright glove, 1 UV star ball, 1 pack of bright stars, 2 UV straps, 1 pack of 3 glowing figures, 1 bright sensory ball, 2 scarves for juggling, 3 UV cloaks, one bright star ball.

EM.3937

**UV ACTIVITIES SET - EM.3938**

1 colour-changing egg, 1 fibre optic rod, 1 UV torch, 1 fluorescent tube, 1 star lantern, 1 sensory ball and 1 mini-disco ball.

EM.3938

The kits/sets may vary according to the stock of elements that comprise it. In any case, replacement elements will have the same characteristics and perform the same function.

# MUSIC THERAPY

*Activities with musical instruments help to stimulate the attention span, motor skills of coordination, movement (gross motor control), internal rhythm, etc.*

**RAINMAKER STICK (30 CM.) - EM.3001**  
**RAINMAKER STICK (50 CM.) - EM.3002**

**DIATONIC PIPES - EM.3005**  
 Eight contralto-pitched pipes - each tube emits a musical note when struck against another or against the floor.  
 Perfectly tuned. Made from soft, lightweight material.

**FIBREGLASS CASTANETS (PAIR) - EM.3015**

**CASTANETS WITH FIBREGLASS HANDLES - EM.3020**

**SOUND EGGS (PAIR) - EM.3010**

**CASTANETS WITH WOODEN HANDLES - EM.3021**

**MARACAS (PAIR) - EM.3035**

**TRIPLE SAMBINA - EM.3026**  
**SAMBINA WITH 12 PAIRS - EM.3032**

**MUSICAL BELLS - EM.3040**  
 Diatonic scale.  
 Includes sheet music.

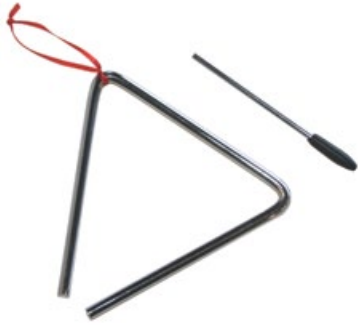

**MUSICAL BELLS - EM.3042**  
 Eight notes, in eight colours.

**STRIKE THE RIGHT NOTE: COLOURED BELLS - EM.3044**

**BELL-LAND - EM.3706**  
 A stimulating show of colour and sound (8 notes).

TRIANGLE (15 CM.) - EM.3081

CYMBALS (6 CM.) - EM.3085

GÜIRO WITH STICK - EM.3046

RATTLE - EM.3048

RECTANGULAR 2-NOTE WOODBLOCK - EM.3057

WOODEN BELL RATTLE WITH 5 BELLS - EM.3060

WOODEN KEYS - EM.3050

MEDIUM-SIZED BELLS ON HANDLE - EM.3072

ANKLE BELLS STRAP - EM.3065  
WRISTBAND WITH BELLS - EM.3067

HEADLESS TAMBOURINE (20 CM.) - EM.3079

BAR CHIMES - EM.3095

3-BELL TAMBOURINE - EM.3069

TAMBOURINE (21 CM.) - EM.3077

DIATONIC 11-NOTE METALLOPHONE - EM.3100

DUCK XYLOPHONE - EM.3733

SWEET SOPRANO FLUTE - EM.3105

PVC KAZOO - EM.3107  
3-NOTE WHISTLE - EM.3109  
LONG WHISTLE - EM.3111  
SIREN WHISTLE - EM.3112

# MIRRORS

## UNBREAKABLE WALL-MOUNTED MIRROR - F.92N WENDY HOUSE MODEL UNBREAKABLE - F.92N-2

Safety mirror with polystyrene laminated sheet, flexible and shatter-proof.

Decorated wooden frame.

F.92N - Dimensions: 120 x 50 cm.

F.92N-2 Dimensions: 120-150 x 50 cm.

## CONCAVE/CONVEX MIRROR - EM.3890

An important item in a stimulation room, this curved mirror will mix up a real image of the child with a virtual one. The child will see a different reflection of him/herself every time he or she moves and depending on where he or she is located.

This mirror will become one of the most attractive items in the room for the child, and among the most important of all for visual stimulation, thanks to its magical effect and its moon-shaped design on a background of clouds.

Unbreakable mirror: dimensions - 153 x 67 x 44 cm. (frame 116 x 40 cm.).

## ACRYLIC MIRRORS - EM.3600

Ideal for creating an optical illusion around the space.

Shatterproof mirrors with wooden backing so that the image does not appear distorted.

Supplied in any size and any dimensions (to cater for customer needs) up to a maximum size of 2.40 x 1.20 cm.

## BUBBLE MIRROR PANEL - EM.3885

Nine convex distortions. Coloured padded surround.

84 x 84 x 5 cm.

Several vibration/resonance elements with shapes that are soft to the touch, including a powerful resonating speaker concealed inside.

Any hi-fi system with a 50W per channel output will suffice to feel the musical resonance. The complete music unit can be purchased: catalogue reference number: EM.3637.

Voltage: 220-240V / 50-60Hz. For 110-127V / 50-60Hz transformer required.

**MUSICAL BEANBAG - EM.3633**  
80 cm.

**VIBRO-ACOUSTIC ARMCHAIR - EM.3611**  
145 x 86 x 81 cm.

**VIBRO-ACOUSTIC MATTRESS - EM.3861**  
162 x 78 x 46 cm.

**VIBRO-ACOUSTIC LOUNGER - EM.3612**  
123 x 69 x 60 cm.  
**HEATED MASSAGE MAT - EM.3612/1**  
**COVER FOR MASSAGE MAT - EM.3612/2**  
Supplies mild heat. The hand control unit has several speed combinations.  
152 x 41 x 5 cm.  
Voltage: 220-240V / 50-60Hz. For 110-127V / 50-60Hz transformer required.

**VIBRO-ACOUSTIC WATER BED**  
**INDIVIDUAL - EM.3866**  
**DOUBLE - EM.3866/1**

Water is an important medium for the music of resonance and vibration.  
Wooden base with two built-in vibrators. It plugs in to the stereo system just like a speaker.  
EM.3866 - 200 x 100 x 46 cm.  
EM.3866/1 - 200 x 140 x 46 cm.

# FURNITURE

**THERMAL WATERBED:**  
**INDIVIDUAL - EM.3870**  
**DOUBLE - EM.3872**

This bed is composed of a water mattress which adapts to the shape of the body and a heating system to maintain a comfortable temperature. With vinyl coating. Contains a thermostat and heater. Voltage: 220-240V / 50-60Hz. For 110-127V / 50-60Hz transformer required.

EM.3870 200 x 100 x 23 cm.

EM.3872: 200 x 140 x 46 cm.

On the floor.

**WATER CONDITIONER FOR WATERBED - EM.3883**

Add to the water when filling the bed and every 12 months thereafter.

118 ml. bottle. Sufficient for an individual water bed.

**RELAXATION HAMMOCK - EM.3640**

An elegant and extremely comfortable hammock. Finely balanced for smooth movement. Sturdy metal frame coated with washable material.

Can be suspended from the ceiling or from a stand (stand not included).

Length: 165 cm.

**OPTIONAL:**

**T-SHAPED STAND FOR HAMMOCK - EM.3640/1**

**CORNER STAND FOR HAMMOCK - EM.3640/2**

**MODULAR ARMCHAIR - SEATS 1 - EM.3620**

Dimensions: 55 x 65 x 70 cm., height of seat: 40 cm. Wooden frame

**MODULAR CORNER ARMCHAIR - EM.3625**

Dimensions: 60 x 60 x 63 cm., height of seat: 40 cm. Wooden frame.

To fit in the left or right corner of the room according to customer's specifications.

**ROUND HIGH POUFFE - EM.3846**

30 cm. Ø and 25 cm. in height.

**RELAXING POUFFE 105 cm. - EM.3630**

The filling makes it adapt to the body shape. Leather-feel material.

105 cm. tall.

*Vestibular stimulation produces familiar motor sensations such as changes in position in space, rhythmical rocking and swaying, turning movements, etc.*

*Spinning and rotating movements, rocking and swaying, all provide a lot of vestibular stimulation to the brain, helping it to better organize itself by processing the sensory data, which contributes to balance.*

**WE SUPPLY A WIDE RANGE OF THERAPY PRODUCTS FOR VESTIBULAR CONDITIONS.  
WE CAN HELP YOU TO SELECT THE PRODUCTS THAT BEST RESPOND TO YOUR NEEDS.**

**FOR MORE INFORMATION ON VESTIBULAR ITEMS PLEASE CONTACT WITH US**

# PSYCHOMOTOR STIMULATION

## PSYCHOMOTOR TRAINING MODULES

*Set of differently coloured interlocking modules.*

*By combining these, we can form a variety of figures, and therefore many psychomotor exercises : sliding, jumping, climbing stairs, crawling, swinging, working on coordination and balance and relaxing the child on the mat or under the bridge as the child can see his/her reflection in the unbreakable mirrors inside.*

- MAT (150 x 55 x 3 cm.) - T.P.1801
- CRASH BARRIER (120 x 30 cm.) - T.P.1802
- STAIRCASE (100 x 60 x 60 cm.) - T.P.1803
- STAIRCASE (120 x 80 x 60 cm.) - T.P.1804
- RAMP (100 x 60 x 60 cm.) - T.P.1805
- RAMP (120 x 80 x 60 cm.) - T.P.1806
- BENCH (120 x 30 x 30 cm.) - T.P.1807
- ROLLER (120 x 30 cm.) - T.P.1808
- BENCH-ROLLER SUPPORT (30 x 60 x 60 cm.) - T.P.1809
- SEESAW ARCH (120 x 30 x 60 cm.) - T.P.1810
- BRIDGE (90 x 60 x 80 cm.) - T.P.1811
- BRIDGE WITH MIRRORS (90 x 60 x 80 cm.) - T.P.1812

**BRIDGE WITH MIRRORS - T.P.1812**

Ideal for sensory stimulation rooms.  
90 x 60 x 80 cm.

**ROCKER FOR TWO - T.P.1815**

Rocker for young children. It is perfectly balanced to provide a pleasant rocking motion for one or two children.

Cute little cow - measurements: 116 x 28 x 50 cm.

**TATAMI WITH ILLUSTRATIONS - T.P.1825**

Ideal for covering the entire floor of a room or just a part of it (tatami type suitable for indoor use).

They are joined together using velcro pads which enable the child to perform all kinds of activities on them without dislodging them.

Decorated with motifs suitable for children.

Dimensions: 120 x 150 x 2 cm.

**MULTI-COLOUR FOLDING MAT - T.P.1819**

Foldable mat in four colours (red, blue, yellow and green).

Dimensions: 200 x 100 x 3 cm.

# PSYCHOMOTRICITY

### BALL POOL - T.P.1831

Can be fully dismantled.  
Easy to assemble with velcro fasteners and brackets.  
High-density material that will not lose its shape with use.  
Dimensions: 200 x 200 x 100 cm.  
Capacity for 1,800 balls (not included).

### BOX OF BALLS - T.P.1836

Specially designed for use in sensory pools.  
Light, hermetic plastic. Sturdy and durable for intensive use.  
Box of 600 balls in assorted colours. 7 cm. in diameter.

### BALL BATH - T.P.1832

Consists of a set of interlocking polypropylene modules.  
Dimensions: 150 x 52 cm. For 1,200 balls (not included).

### PSYCHO-MOTOR SKILLS ACTIVITY TROLLEY:

#### TROLLEY ONLY - T.P.1860

#### WITH ACTIVITY EQUIPMENT - T.P.1861

The trolley comes in handy for collecting and moving the psycho-motor activity materials.  
The trolley is made from pinewood and is fitted with 4 casters to make it easy to move around.

Contains the basic set of equipment for psycho-motor skills training, comprising:

- 2 x T.P.1861-A - TUBULAR HOOPS (diameter: 36 cm.) - set of 5
- 2 x T.P.1861-B - TUBULAR HOOPS (diameter: 50 cm.) - set of 5
- 2 x T.P.1861-C - TUBULAR HOOP (diameter 61 cm.) - set of 5
- 5 x T.P.1861-D - HOOP SUPPORTS
- 1 x T.P.1861-E - POLE/HOOP CLIPS (set of 12)
- 1 x T.P.1861-F - POLE 100 cm. (set of 10)
- 1 x T.P.1861-G - POLE 70 cm. (set of 10).
- 1 x T.P.1861-I - ROPES (10 m.) - set of 4
- 1 x T.P.1861-J - ROPES (2.5 m.) - set of 4
- 3 x T.P.1861-K - MACE
- 6 x T.P.1861-M - CIRCLE (20 cm. diameter)
- 6 x T.P.1861-N - 1 kg. SAND BAG
- 6 x T.P.1861-O - HANDKERCHIEFS 100 x 70 cm.
- 2 x T.P.1861-P - HAND PRINTS (set of 6)
- 2 x T.P.1861-Q - FOOT PRINTS (set of 6)

**50 cm. STACKABLE CONES - J.T.11270**  
Set of 6.

**PARACHUTE 3.5 m. - T.P.1834**  
**PARACHUTE 6 m. - T.P.1835**

Nylon, fitted with 12 handles (T.P.1834) or 20 handles (T.P.1835).

**ROUND TRAMPOLINE - T.P.1840**

To work on balance disorders.  
Very safe thanks to its non-slip base and height adjustable securing bar.  
67-120 cm.  
Can be disassembled and reassembled, suitable for indoor and outdoor use.  
102 cm. diameter.  
Max. weight: 100 kg.

**BOBATH BALLOONS:**

- 45 cm. - T.P.1950
- 55 cm. - T.P.1951
- 65 cm. - T.P.1951-G
- 75 cm. - T.P.1952
- 85 cm. - T.P.1953
- 95 cm. - T.P.1954
- 120 cm. - T.P.1955
- 130 cm. - T.P.1956

High-quality, giant balls designed for physical exercises. Intended for therapy or rehabilitation areas (strength building, flexibility, balance, coordination, etc.).

# PSYCHOMOTRICITY

## INFLATABLE ROLLERS:

50 x 30 cm Ø - T.P.1958

65 x 40 cm Ø - T.P.1959

90 x 55 cm Ø - T.P.1960

115 x 70 cm Ø - T.P.1961

130 x 85 cm Ø - T.P.1962

Recommended for psycho-motor activities and can also be used in water.

These rollers are specially created for persons who are unable to work with conventional round balls.

Their shape and limitation of movements mean that they can provide greater stability than round balls, offering a safe and steady base.

Used extensively for re-education in geriatrics, neurology and orthopaedics.

## BALL INFLATING PUMP

- T.P.1965

25 cm.

## INFLATABLE BALL WITH ROPE 20 CM - T.P.4490

The ball can be used to improve reflexes and coordination. Used during motor skills training courses, it is particularly recommended for toning arms and legs and for improving hip mobility.

T.P.4490

T.P.4480

## FLOATING BALL 22 cm in diameter - T.P.4480

Ultra-light, inflatable. Contains no PVC.

## MEDICINE BALL:

1 Kg - T.P.1880

2 Kg - T.P.1881

3 Kg - T.P.1882

4 Kg - T.P.1883

5 Kg - T.P.1884

The medicine ball is an ideal item for working on strength in any of its three main forms: endurance strength, explosive strength and maximum strength.

**SET OF BOWLS - J.T.11265**

24 cm. wide made of wood.  
Very useful for working on concentration and dexterity. Benefits motor skills and movement coordination.  
Encourages subjects to play with one another and socialize while also developing accurate aiming.

**FOAM BOWLS - T.P.4471**

**QOIT THROWING ON A BOARD - J.T.11262**

An excellent game of skill that helps to improve psycho-motor ability.  
A board with five targets arranged in a cross and six silent, flexible quoits in attractive colours.

**HOOP THROWING GAME - J.T.11263**

Comprises: 3 supports + 3 x 35 cm. hooks + 15 hoops 36 cm. in diameter.

This game will help users to develop their motor coordination and concentration as well as working on psycho-motor skills and can be played indoors and outdoors.

**FLOOR DARTBOARD - J.T.11266**

An excellent game of skill and concentration. To improve accuracy in throwing. Easy to pick up and roll up. Using small soft sacks, plain or in animal shapes. The points scored can be increased according to the colour of the animal.

Includes 8 small sacks. Dimensions: 100 x 100 cm.

# PARKS FOR THE ELDERLY

## Benefits

- A special space for enjoyment in a park, so that not only the elderly, but also persons with disabilities or special needs, can benefit from its use.
- These parks are designed to promote sports activities, improving people's autonomy in an environment that is conducive to socialising.
- Help people to overcome mobility restrictions. Provide coordination, balance, mobility and strength exercises, which all have a positive effect on the cardiovascular system.
- Stimulate physical and cognitive abilities for the prevention and treatment of musculoskeletal deterioration.
- Exercise and rehabilitate various joints according to the apparatus used; thus helping to maintain or increase joint mobility, improve muscle strength, reduce cholesterol levels and weight control ... in short, to optimize the quality of life.
- Provide a sense of comfort that is not just physical but also psychological, as they encourage socialising among users, creating a joyful atmosphere that helps improve self-esteem and prevent symptoms such as anxiety, depression, anxiety, loneliness, etc.
- Prevent possible accidents, fractures or injuries.
- Physiotherapists are not required to be in attendance in these parks.

## Suitable locations:

- Public parks
- Beaches
- Retirement homes
- Day centres
- Social centres

The ageing of the population is a growing phenomenon worldwide. Falling birth rates and longer life expectancy mean that the over-65s currently make up more than 17% of the European population. This population group is among the most varied of all segments, in terms of aspects such as physical-functional, behavioural, social aspects and the physical environment. For these reasons, as a manufacturer of equipment for special parks for the elderly, we are committed to ensuring that all our designs take the needs and preferences of elderly persons into account and are easy to use. In short, we strive to ensure that our products cater for the needs and expectation of our senior citizens.

We must bear in mind that 70 % of the population aged over 65 have no disabilities. However, the ageing process produces physical, sensory and cognitive changes that make it progressively difficult to use certain articles and can thus hinder the performance of daily activities. Our products are designed to take these considerations into account.

## General design features

### 1.- GENERAL REGULATIONS:

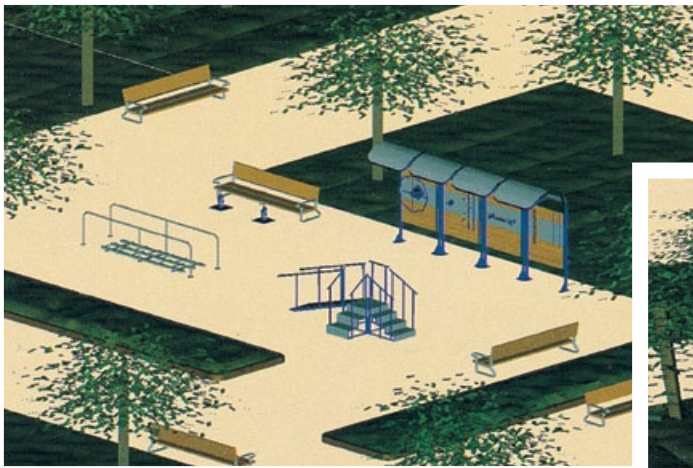

- **As these products are intended for the elderly, all elements have been designed following the provisions of Directive 93/42/EEC as adopted into Spanish law by Royal Decree 414/96 on Health Products.**
- All components used in our parks comply with **European standard EN 16630:2015** on permanently installed outdoor fitness equipment.
- Researched and designed by specialists in rehabilitation for use in all weathers and without the support of qualified staff, their design has been kept as simple as possible to prevent any harm or damage due to vandalism.
- Modules **are accompanied by a panel explaining the correct handling of the equipment, signed by an experienced professional in the field of rehabilitation: Dr. Fermin Alvaro Pascual (Rehabilitation Consultant Physician - Member No. 13933, Board Member of FACME - the Spanish Federation of Scientific Associations).**

### 2.- CERTIFICATES THAT VALIDATE OUR REGULATIONS:

Our Parks for the Elderly are validated by highly qualified professionals in the field of Rehabilitation:

- Dr. Fermín Álvaro Pascual (Rehabilitation Consultant Physician), our Park Consultant.
- Maria Soledad González Pérez (Occupational Therapist), Chief Technical Officer.
- Javier Álvarez González (Physiotherapist), author of the technical consultancy report.
- **"EC" Marking** compliant with European standard EN-16630:2015.
- Authorization granted by the Madrid Metropolitan Area Council No. D.A.S.P.233/M.
- **Health Licence** from the Ministry of Health and Consumer Affairs No. 1187-PS
- **ISO 9001 Quality Standard Certificate** on Quality Management in the firm.
- **ISO 13485 Quality Standard Certificate** as specialists in the manufacturing of health products.
- In addition we have commissioned **consultant physiotherapist's reports conducted since the year 2003 which vouch for the quality and safety of our parks.**

There are different configurations of exercise panels with shelters so that you can select the one(s) that best meet your needs, depending on the space available and the layout.

# PARKS FOR THE ELDERLY

## Serie 2

### Common features:

Vandal-proof screws and bolts. Made from stainless steel with vandal-proof caps.

Information panels and points. Made from HPL (all-weather proof), non-flammable and graffiti-resistant.

The units are fitted with high-density polyethylene grips in a range of thicknesses and shapes to perform different tasks by making pincer movements with the fingers.

The boards on which the feet are placed on the footprints are non-slip and coated in Ribsantm.

## Serie 1

Made from stainless steel (Series 1 & 2)

Stainless steel plates used for the panel and shelter (Series 1 & 2)

Galvanized steel frames with polyester coating (Series 1 & 2)

Imitation wood HPL panels (Series 1 & 2)

## Serie 3

Mazes with Rilsantm coating to protect them from friction damage (Series 1, 2 & 3)

Yellow HPL panels (Serie 3)

Galvanized steel frames (Series 3)

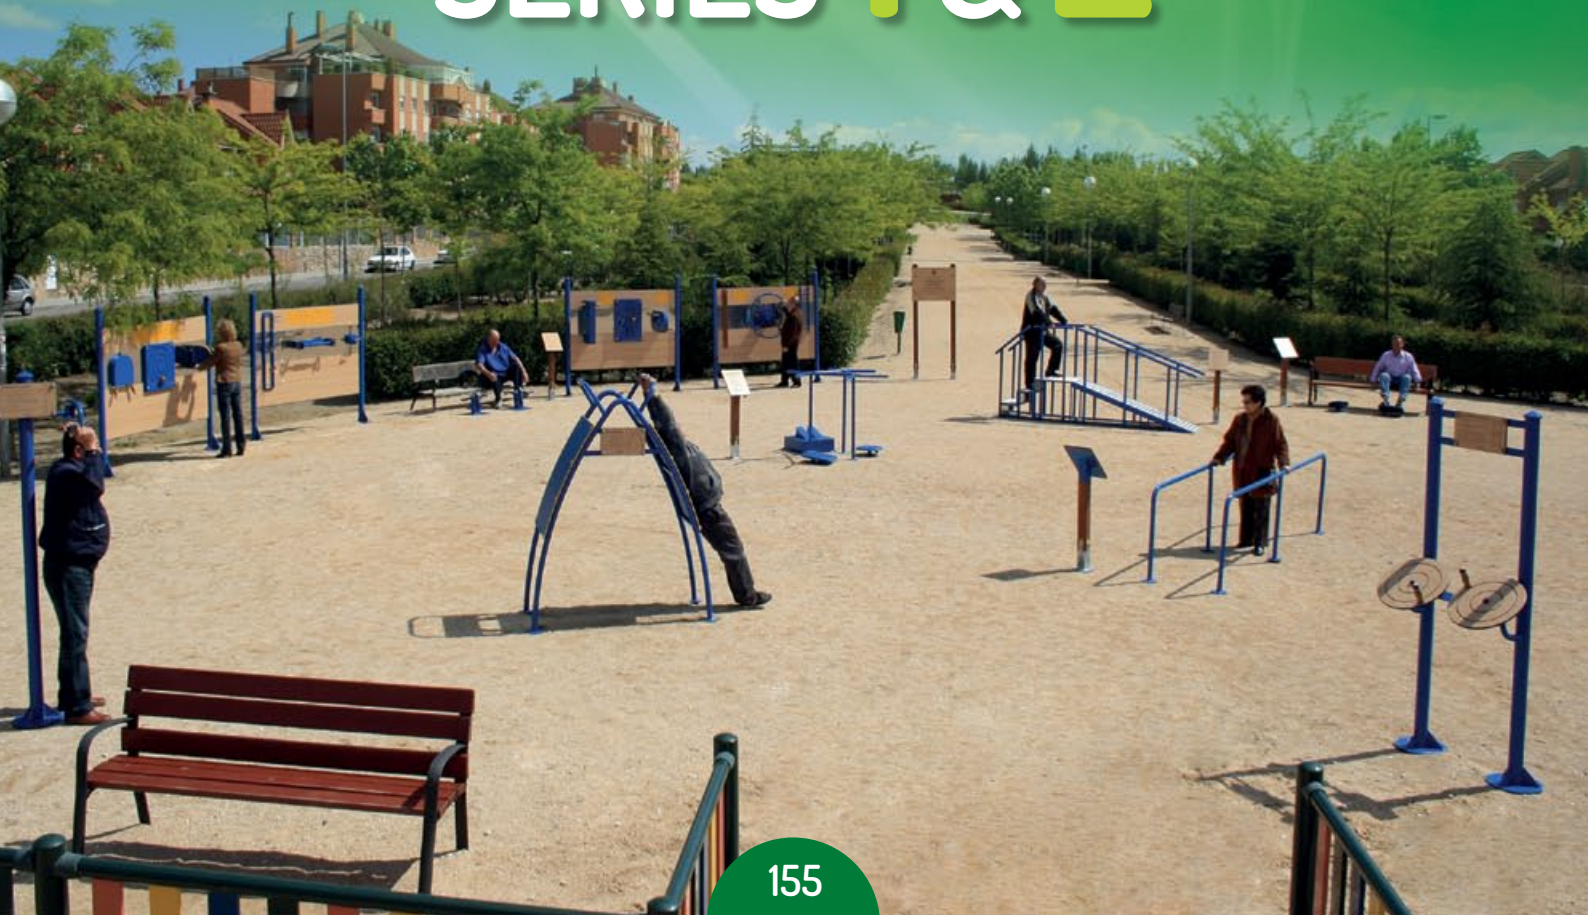

Equipment made with zinc-treated steel (Serie 3)

All frames and equipment with polyester finish (Serie 3)

de los beneficios que supone ese rato de ejercicio para su salud. FOTO: E. CASTREJON Y J. M. MARTINEZ

Gimnasio al aire libre

El buen tiempo de la jornada de ayer pobló los parques de paseantes en busca de descanso. Las dos señoras de la foto aprovecharon el rato de asueto en el Retiro para hacer ejercicio en una pedrera de las zonas de calistenia y estiramientos para mayores instaladas en el parque madrileño.

# PURPOSE

The intended purpose of the parks is to prevent and treat deterioration of the muscles and bone structure.

Exercises work on:

- Coordination
- Balance
- Mobility
- Strength

## EXERCISING THE ARMS:

### 1.- Shoulder wheel:

This works on the circumduction of the shoulder, performing a full shoulder movement and rotation of the scapula. Its aim is to rehabilitate, maintain or increase the mobility of the shoulder joint and alleviate a range of dysfunctions of the scapula-humeral joint.

### 2.- Finger ladder:

Increases the breadth of shoulder movements and exercises the fingers. The aim is to flex the arms with the elbow extended. This helps conditions such as arthrosis and rheumatoid arthritis. Each ladder has a finish (pointed or rounded) and a different distance between the steps in order that different exercises can be performed.

### 3.- Prono-supinator:

Exercises the upper joints by prono-supination movements of the elbow and circumduction of the wrist. Its aim is to improve a range of dysfunctions of the upper radiocubital articulation, and to maintain or increase wrist flexibility.

### 4.- Spring:

Works on the flexibility of the arm and wrist. Its aim is to rehabilitate, maintain or increase the flexibility of the wrist and arm and wrist.

1

3

2

4

**5.- Flexo-extensor-Prono-supinator:**

Works on the flexibility of the wrist and forearm, by performing a range of flexing-extension and prono-supination exercises. Its aim is to rehabilitate, maintain or increase the flexibility of the wrist and forearm.

**6.- Spiral circuit:**

Works on the circumduction of the arm and shoulder through spiral movement exercises. Its aims are to rehabilitate, maintain or increase the mobility of the shoulder joint.

**7.- Hand wheels:**

Enables elbow-flexing movements to be performed in a synchronized manner. Its aims are to rehabilitate, maintain or increase the elbow's flexibility. The coordination of movements and effort is greater than that exerted on hand wheels because the two handles rotate in the same direction.

**8.- Maze circuit:**

This works on hand-eye coordination and dexterity by performing movements that call for precision and respond to a visual stimulus. Its aims are to maintain and increase dexterity in movements, improving the flexibility of the elbow, shoulder and hand.

**9.- Wave circuit:**

This works on hand-eye coordination and dexterity by performing movements that call for precision and respond to a visual stimulus. Its aims are to maintain and increase dexterity in movements, improving the flexibility of the elbow, shoulder and hand.

# PURPOSE

### 10.- Hand pedals:

These train and increase the muscular resistance of the upper limbs. Their aim is to maintain or increase dexterity in movements and improve the mobility and flexibility of the arms and wrists.

The effort required is less than that expended on hand wheels because the two grip handles rotate in opposite directions (one hand can help the other to perform the exercise).

### 11.- Hand tensor:

These train and increase the muscular strength, mobility and the flexibility of the arms and wrists.

### 12.- Arm wheels:

These are for performing strength-building and flexibility exercises with the arms and improve shoulder, arms and wrist joints. The level of difficulty can be modified by performing the turning exercises in different directions or in the same direction.

### 13.- Twin exercise pulleys:

This equipment exercises and moves arm muscles and joints through passive poleotherapy, i.e. without effort. Its aims are to work on improving the control of the elbow and shoulder joints, which may be restricted in terms of mobility and pain due to several possible causes.

### 14.- Double backrest:

This can work on any part of the body: abdomen, hips, legs, arms, buttocks, back and calves. The aim is to perform full stretching movements of all parts of the body. Stretching movements should be done after the exercise to relax the muscles and allow them to recover their normal state.

12

11

10

13

14

## EXERCISING THE LEGS:

### 1.- Parallel bars:

Helps to improve the mobility of the legs and the ability to control the body without losing one's balance. Its aims are to maintain the patient's everyday independence and functionality, preventing problems such as falls, unsteadiness or situations in which autonomy is lacking.

Once the subject has performed safe exercises on the parallel bars, he or she can move on to doing exercises on stairs and ramps.

### 2.- Steps and staircases:

These help to improve walking, both on flat terrain and on ramps and stairs (which involves greater difficulty).

Their aims are to help the subject lead an active lifestyle, facilitating independence and getting out of the house, where steps and ramps are frequently encountered. Steps at different heights.

### 3.- Pedals:

This equipment helps to train and build up leg endurance, increase flexibility and improve the knee joints. They aim to maintain and improve leg mobility, increase muscle resistance and strengthen the cardiovascular system.

### 4.- Boheler Plate and Board:

For flexo-extension, inversion-reversion and circumduction exercises of the foot. Its aims are to make gains in terms of the arc of movement, to increase or maintain the flexibility of the foot and ankle, which will help patients to improve their balance, coordination and proprioception of the lower limbs.

### 5.- Disc, seesaw, step unit:

Helps to strengthen the muscles and joints of the back, hip, waist and legs, as well as improve coordination and balance; thus enhancing the flexibility of the lumbar region and relaxing the back muscles.

QUOIT THROWING ON A BOARD .....	151
---------------------------------	-----

## R

RAINBOW BALL .....	132
RAINMAKER STICK (30 CM) .....	140-141
RAINMAKER STICK (50 CM) .....	140-141
RAISED TOILET SEAT FOR LAVATORY .....	86
RAISED TOILET SEAT FOR LAVATORY (WITH ARMS) .....	86
RAMP .....	159
RAMP (100x60x60 cm) .....	146
RAMP (120x80x60 cm) .....	146
RAMP MODULE (200 x 60 x 63 cm) .....	31
RATTLE .....	140-141
RAW MEAT .....	107
RECOGNIZE BY TOUCH (STEREOGNOSIS) .....	104

RECTANGULAR 2-NOTE WOODBLOCK .....	140-141
RECTANGULAR PILLOW (40 x 20 x 10 cm) .....	32
REGIONAL PARTIES PUZZLE (45 pieces) .....	98
REHABILITATION BALLS .....	26
RELAXATION ACTIVITIES KIT .....	137
RELAXATION ACTIVITIES SET .....	138
RELAXATION HAMMOCK .....	144
RELAXING POUFFE 105 cm .....	145
REMINISCENCES KIT .....	111
REMOVABLE TROLLEY FOR PARAFFIN BATH .....	42
RESISTANCE BAND EXTRA-STRONG RESISTANCE .....	21
RESISTANCE BAND MEDIUM RESISTANCE .....	21
RESISTANCE BAND MILD RESISTANCE .....	21
RESISTANCE BAND SÉCIAL EXTRA-STRONG RESISTANCE .....	21
RESISTANCE BAND STRONG RESISTANCE .....	21
RESISTANCE RING EXTRA-STRONG (BLUE) .....	26
RESISTANCE RING LIGHT (YELLOW) .....	26
RESISTANCE RING MEDIUM (RED) .....	26
RESISTANCE RING STRONG (GREEN) .....	26
RIGHT AND LEFT .....	102
RING-THE-BELL BLOWING BOARD .....	74
ROCHER MODULAR CUBICLE FULLY EQUIPPED .....	15
ROCHER MODULAR CUBICLE WITH ACCESSORIES .....	15
ROCHER MODULAR CUBICLE WITHOUT FITTINGS .....	15
ROCKER FOR TWO .....	147
ROLLER (120x30 cm) .....	146
ROLLER CHAIR FOR GUIDING WALKING .....	62
ROLLER CUSHION (65 x 10 cm) .....	32
ROLLER CUSHION (65 x 15 cm) .....	32
ROLLER CUSHION (65 x 20 cm) .....	32
ROLLER CUSHION (65 x 30 cm) .....	32
ROLLER CUSHION (65 x 40 cm) .....	32
ROLLER CUSHION (65 x 50 cm) .....	32
ROPE FOR PULLEYS .....	34-35
ROPES (10m) - set of 4 .....	148
ROPES (2.5m) - set of 4 .....	148
ROUND HIGH POUFFE .....	145
ROUND TRAMPOLINE .....	149

## S

S SHAPES .....	34-35
SAFETY BAR 1 USER .....	168
SAFETY BAR 1 USER .....	161
SAFETY BELT .....	73
SAFETY BELT .....	73
SAFETY BELT .....	73
SAFETY BELT .....	73
SAFETY GRIP .....	72
SAFETY GRIP .....	72
SAFETY GRIP .....	72
SAFETY GRIP .....	72
SAFETY STAND FOR BUBBLE TUBE .....	120
SAFETY TABLE LARGE .....	71
SAFETY TABLE SMALL .....	71
SAMBINA WITH 12 PAIRS .....	140-141
SAND BAGS .....	148
SAWBLADE FOR BIPEDAL SAWING MACHINE .....	88
SCANNING LASER (808 & 940nm) 4W .....	51
SCANNING LASER (808nm) 500mW .....	51
SCANNING LASER (940nm) 8W .....	51
SCISSORS WITH ROUND HANDLE .....	112
