Motivation problem within the team?

+ Sign of employee appreciation
+ Reduction of stress and staff absences
+ Promotion of mental health

Reduced sickness rate

Increased employee satisfaction

Tax benefits

FUNCTIONS WITH BRILLIANT OPPORTUNITIES.

What possibilities the water jet massage bed really **offers** you?

HERE A SHORT OVERVIEW:

Asynchronous use

The pressure and **the movements** of the two nozzles can be **adjusted** and **controlled asynchronously**.

Real-time control

Depending on the model, the **massage sequences** can be adjusted and **controlled live**.

Individual sequences

You can also create your **own motion sequences** that are designed to meet the **specific needs** of the user.

Thematic massages

Each device is **usable** with **pre-configured** massage sequences that focus on **specific body regions**, modes of action or **occasions**. The selection of **massage programmes** can be **customised**.

Play the video on thematic massages.

Trigger points

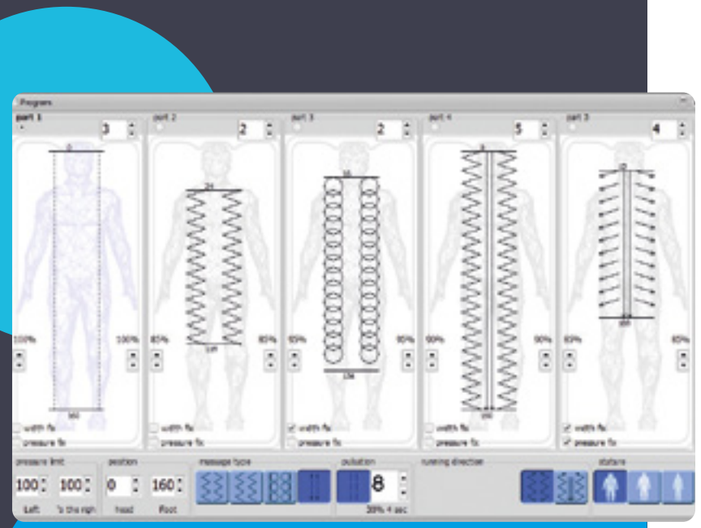

To **target** particularly **tense** or **painful** areas, the **water jet** can be **directed precisely** at them.

PERSPECTIVES OF INDIVIDUALIZATION.

Especially because of the **associated software**, the **VELUSJET®** is much **more interesting** for therapists and medical professionals **than other** hydrojets on the market:

Because the software allows the precise and methodical treatment of tension and pain.

In the **wellness sector**, the software is also unbeatable: With it, you have **full control** over the use of the device.

Jet-Center software in focus.

Use of quotas

If **a patient** is to receive **a massage** of exactly **20 minutes** or if customers are allowed to use the device a maximum of **5 times**, this can be set up with the software and used with **NFC cards**.

Limited access

Authorizations can be **flexibly** created or revoked with **a key** card or connection to existing **access systems**.

Self-defined massages

You can treat body width, length and locations with **any pressure** and with desired **movement pattern** - and **save** the settings in the **software** and/or on **a card**.

Experience our individual massages.

Operating hours and discount promotions

For example, **if necessary**, you can operate the hydrojet only from **8 am to 8 pm**. An option that **additionally** contributes to **the energy efficiency**. Or you specify that massages are in **the morning** for the same **price twice** as long.

VELUSJET®

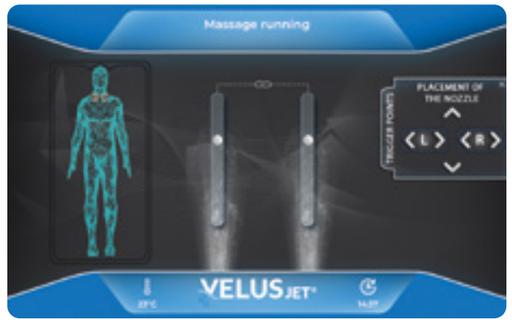

THE FINAL LINE UNDER YOUR **PAIN POINTS.**

Too much stress in the daily work routine?

Double staff, reduce effort?
The **VELUSJET®** becomes your **most efficient employee**:

+ Simultaneous treatment of patients
+ Minimal supervision effort
+ Easy and intuitive operation

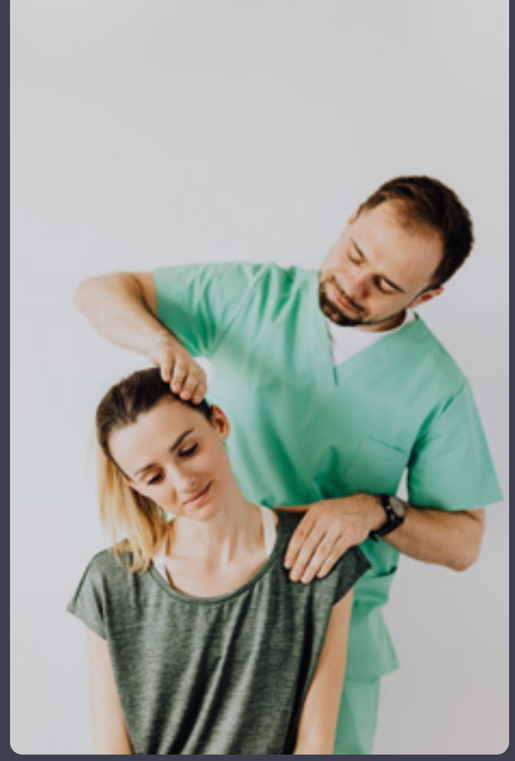

Targeted **interventions** can treat **pain points** to relieve pain in **specific areas** of the body.

VELUSJET®

No unique market offer compared to the competition?

Competitors are poaching your customers, but you're unsure how to **stand out**?

+ Convincing USP with wow-factor
+ Competitive advantage in the medical as well as wellness sector
+ Stand out without extra effort

Is customer loyalty hard in your branch?

Does **satisfying patients in your clinic** seem impossible? In the gym, is **customer contact rather impersonal**?

+ Customers book out of curiosity
+ Customers stay because they are satisfied
+ Effective in any related branch

The knob control

VELUS JET®

VARIANTS OF PURE EFFICIENCY.

Each option **is profitable.** But **depending on your needs**, we can respond to you **individually**:

Do you need...

The NFC cards?

+ Sales stimulating card display
+ Little explanation required & quick selection
+ Massages interchangeable according to season, occasions, etc.

Discover the NFC card function.

The touch panel?

+ No further tools are necessary
+ Can be operated with closed eyes
+ Self-explanatory

The magic of the touch panel.

The voice output?

+ No further tools are necessary
+ Can be operated with closed eyes
+ Self-explanatory

Operation via speech.

Discover the **opportunities** of the **different options**.

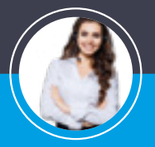

Scan the QR code and discover the opportunities on smartphone.

BECAUSE THE CALCULATION WORKS.

How quick the **investment** will **pay off for you**?
If **your customers use** the hydrojet only **2 hours** per day, this is how it works with average **pricing**:

Buy now ... | ... in a short time | ... afterwards

Best price-performance ratio | **Amortization** | **Profit**

Would you like a calculation for your individual circumstances in detail?

Investment with vision:

The **VELUSJET®** models are **modular**. An **upgrade** can be performed at **any time** and **additional functions** can be **added** without limitation.

VELUSJET®

STARTING OUT ON A SECURE BASIS.

Why the **VELUSJET®** and not any other hydrojet? **Because our expertise** - from software development to in-house production - brings out **the best** in the hydrojet concept. **Among other things, these special features set us apart from the rest of the market**:

Technical data	Value
Compact dimensions (L x W x H)	2.130 x 1.037 x 530 mm
Weight empty	**165 kg**
Weight filled	495 kg
Large lying surface made of natural rubber	**1.950 x 810 mm**
Entry page and head page freely selectable	Yes
Convenient device ventilation	**Yes**
Amount of water	330 Liter
Number of pumps	**2**
Control of the pumps	separated (left / right)
Pump performance	**2 x 7,4 bar**
Infinitely variable pressure control using FU technology	Yes
Jet carriage made of high-quality metal	**Yes**
Nozzle arms made of high-quality metal	Yes
Control of the nozzle arms	**separated (left / right)**
High-quality aluminium-chassis with running gear and height adjustment	Yes
LAN interface	**Yes**
Interface for billing systems	Yes
Interface for devices (e.g. light and music)	**Yes**
Integrated heating	Yes
Water temperature	**18°C – 40°C adjustable**
Max. Patient weight	210 kg
Max. duration	**60 min**
Connection / protection	220 – 240 V / Individually with a backup 16 A (RCD)
Certified medical device	**Class IIa**
EMV tested	Yes
CE marking	**Yes**

Free positioning

Because the **VELUSJET®** design looks attractive from all sides and the connections are **always accessible**, the **layout of your room** does not matter.

2 separately controlled jets

The **VELUSJET®** is the only hydrojet with separate **pressure and motion control** for the left and right sides of the body.

Experience the jets up close.

7.4 bar pumps (2 pieces)

More powerful than other **systems on the market**, our hydrojet works with a pleasant and, above all, **effective pressure**.

See pumps in action.

Smart Cooling

The device **protects itself** from overheating: **energy-saving** and without further **water supply**.

Robust materials

Where others **use plastic**, we focus on **quality** and **durability**.

LAN connection

Thanks to **Internet connection**, we can check **the device** for you **remotely** at any time for service purposes.

Play remote maintenance video.
